A Game of Thrones George R. R. Martin,2003-01-01

NOW THE ACCLAIMED HBO SERIES GAME OF THRONES—THE MASTERPIECE THAT BECAME A CULTURAL PHENOMENON Winter is coming. Such is the stern motto of House Stark, the northernmost of the fiefdoms that owe allegiance to King Robert Baratheon in far-off

King's Landing. There Eddard Stark of Winterfell rules in Robert's name. There his family dwells in peace and comfort: his proud wife, Catelyn; his sons Robb, Brandon, and Rickon; his daughters Sansa and Arya; and his bastard son, Jon Snow. Far to the north, behind the towering Wall, lie savage Wildings and worse—unnatural things relegated to myth during the centuries-long summer, but proving all too real and all too deadly in the turning of the season. Yet a more immediate threat lurks to the south, where Jon Arryn, the Hand of the King, has died under mysterious circumstances. Now Robert is riding north to Winterfell, bringing his queen, the lovely but cold Cersei, his son, the cruel, vainglorious Prince Joffrey, and the queen's brothers Jaime and Tyrion of the powerful and wealthy House Lannister—the first a swordsman without equal, the second a dwarf whose stunted stature belies a brilliant mind. All are heading for Winterfell and a fateful encounter that will change the course of kingdoms. Meanwhile, across the Narrow Sea, Prince Viserys, heir of the fallen House Targaryen, which once ruled all of Westeros, schemes to reclaim the throne with an army of barbarian Dothraki—whose loyalty he will purchase in the only coin left to him: his beautiful yet innocent sister, Daenerys.

Ruby and Sapphire Richard W. Hughes, Wimon Manorotkul, E. Billie Hughes, 2017-01-01 From the dawn of time, ruby and sapphire have both attracted and fascinated humans in ways that few other items could. While objects of desire are found throughout the natural world, physical beauty is too often ephemeral. From the allure of

a man, woman, flower or butterfly, through the fleeting moments of a sunset, there is little that lasts and practically nothing that can be passed down to our descendants. The exception is precious stones. Not only are they the most durable creations of mother nature, but their visual splendor is truly eternal. In this companion to his 2013 book, *Ruby & Sapphire--A Collector's Guide*, Richard Hughes examines these gems from the gemological standpoint, delving into these gems not just from the aesthetic, but also from the scientific point of view. The product of nearly 40 years of firsthand experience, it covers every aspect of the subject from A-Z. History, sources, prices, quality analysis, synthetics and treatments, everything is here. *Ruby & Sapphire--A Gemologist's Guide* represents the most comprehensive book ever written on a single precious stone. With over 1000 photos, maps and illustrations and 3500 references, it is nothing less than a tour-de-force of gemological scholarship.

Arcane Power Logan Bonner, Eytan Bernstein, Peter Lee, 2009 Provides information on the origins, tactics, myths, and lairs of a variety of undead creatures and threats encountered in the game of *Dungeons and Dragons*.

Brisinger Christopher Paolini, 2008-09-20 Don't miss the eagerly anticipated epic new fantasy from Christopher Paolini-Murtagh! The Empire is at war and the stakes have never been higher in Book Three of the Inheritance Cycle, perfect for fans of *Lord of the Rings*! This New York Times bestselling series has sold over 40 million copies

and is an international fantasy sensation. Christopher Paolini is a true rarity. –The Washington Post Oaths sworn . . . loyalties tested . . . forces collide... Eragon is the greatest hope to rid the land of tyranny. Can this once simple farm boy unite the rebel forces and defeat the king? Following the colossal battle against the Empire's warriors, Eragon and his dragon, Saphira, have narrowly escaped with their lives. Still, there is more adventure at hand for the Rider and his dragon, as Eragon finds himself bound by a tangle of promises he may not be able to keep. When unrest claims the rebels and danger strikes from every corner, Eragon must make choices-choices that will take him across the Empire and beyond, choices that may lead to unimagined sacrifice.

I Am a Bunny/Soy Un Conejito Ole

Risom, 2020-01-14 Cuddle up with Nicholas the bunny in Richard Scarry's beloved classic. I am a bunny.

My name is Nicholas. I live in a hollow tree. In the spring, Nicholas picks flowers and chases butterflies, and in the summer, watches the frogs in the pond. In the autumn, he sees the animals preparing for the winter. When winter comes, Nicholas watches the snow falling from the sky, then curls up in his hollow tree and dreams about spring. In print for well over 50 years, this beautifully illustrated, gentle story has been a favorite Golden Book for generations.

The Emperor of All Maladies Siddhartha

Mukherjee, 2011-08-09 Winner of the Pulitzer Prize and a documentary from Ken Burns on PBS, this New York Times bestseller is “an extraordinary achievement” (The New Yorker)—a magnificent, profoundly humane “biography” of cancer—from its first documented appearances thousands of years ago through the epic battles in the twentieth century to cure, control, and conquer it to a radical new understanding of its essence.

Physician, researcher, and award-winning science writer, Siddhartha Mukherjee examines cancer with a cellular biologist’s precision, a historian’s perspective, and a biographer’s passion. The result is an astonishingly lucid and eloquent chronicle of a disease humans have lived with—and perished from—for more than five thousand years. The story of cancer is a story of human ingenuity, resilience, and perseverance, but also of hubris, paternalism, and misperception. Mukherjee recounts centuries of discoveries, setbacks, victories, and deaths, told through the eyes of his predecessors and peers, training their wits against an infinitely resourceful adversary that, just three

decades ago, was thought to be easily vanquished in an all-out “war against cancer.” The book reads like a literary thriller with cancer as the protagonist. Riveting, urgent, and surprising, *The Emperor of All Maladies* provides a fascinating glimpse into the future of cancer treatments. It is an illuminating book that provides hope and clarity to those seeking to demystify cancer.

Elminster in Myth Drannor Ed

Greenwood, 2011-07-12 It is the time of the great elven city of Cormanthor, when the Heartlands are home to barbarians, wicked dragons rule the skies, and the elven people trust no one. Wizards and warriors alike threaten their civilization in vain, arrogant, and ignorant quests for glory. Thus it was that Elminster was guided to Cormanthor, the Towers of Song, where Eltargrim was Coronal. There he dwelt for twelve summers and more, studying with many mighty mages, learning to feel magic and know how it could be bent and directed to his will It is recorded that when the Mythral was laid, and Cormanthor became Myth Drannor, Elminster was among those who devised and spun that mighty magic.
