Agreeing to raise and protect the as yet unhatched egg, his hopes to become a dragonrider once more blossom, but again, fate intervenes. When the young dragon hatches, Daxon's world is turned upside down and thrown into chaos. After learning of a mysterious orb and the possibility that it might hold all the dragonrider's dragons in thrall, he is determined to not let the same fate befall his young charge. He

must find a way to protect the hatchling from the fate of the other dragons and a way off of Daegonlot before it's too late.

The Dragon Orb Mike Shelton, 2017-01-15 The fate of a kingdom rests on the shoulders of three young wizards who couldn't be more different. Bakari is a brilliant scholar wizard who's more at home in a library than a battlefield. Alli is a beautiful young battle wizard whose grace in battle is both enchanting and deadly. Roland is a counselor wizard with a seemingly limitless depth of untapped power -- and the ego to match it. As the magical barrier protecting the kingdom of Alaris from

dangerous outsiders begins to fail, and a fomenting rebellion threatens to divide the country in a civil war, the three wizards are thrust into the middle of a power struggle. When the barrier comes down, the truth comes out. Was everything they were taught about their kingdom based on a lie? Will they all choose to fight on the same side, or end up enemies in the battle over who should rule Alaris?

Song of the Dragon Tracy Hickman, 2011-07-05 First in an exciting fantasy saga from the co-creator of Dragonlance The Elves of the Rhonas Empire have carved a path of conquest throughout the civilized lands, enslaving humans, chimera, manticores, goblins, and every other race they encounter. Now humans are a nearly extinct minority among the warrior-slave races, their will and memories suppressed by the tyrannical, magic-wielding elves. But legends tell of a time when humans and the other slave races were free. There are tales of a hero who will return one day to lead them in an uprising against their masters. That hero, so the stories say, will be a human named Drakis. But Drakis Sha'Timuran, a human warrior-slave of House Timuran, gives no credence to these legends. He fights for the glory of his House and his elven masters along with the other members of his Cohort. But as they embark on the final stage of a campaign to bring down the last dwarf king, Drakis finds himself troubled by a song—a melody that coils itself around his mind and conjures disturbing visions of dark wings, claws, iridescent scales, and fire. In the midst of a devastating battle, the song leads Drakis to capture a mysterious dwarf as a prize of war. When Drakis returns to his master with his prisoner, the dwarf uses his own magic to shatter the spell over the entire household. Along with the other slaves, Drakis suddenly recalls the truth of his enslavement, the terrible cruelty of his masters, and their deceit. But if everything he knows about his world and his life is a lie, what is the truth? And does the lure of the song—now calling him northward into the heart of a vanished civilization—herald the beginning of a new dawn or the promise of eternal night?

But her mother Niobe came as an Aspect of Fire, with the news that Orb had been chosen for the role of Incarnation of Nature--The Green Mother.
