**Comics Art in China** John A. Lent, Xu

Ying, 2017-07-20 In the most comprehensive and authoritative source on this subject, *Comics Art in China* covers almost all comics art forms in mainland China, providing the history from the nineteenth century to the present as well as perspectives on both the industry and the art form. This volume encompasses political, social, and gag cartoons, *lianhuanhua* (picture books), comic books, humorous drawings, cartoon and humor periodicals, and *donghua* (animation) while exploring topics ranging from the earliest Western-influenced cartoons and the popular, often salacious, 1930s humor magazines to cartoons as wartime propaganda and comics art in the reform. Coupling a comprehensive review of secondary materials (histories, anthologies, biographies, memoirs, and more) in English and Chinese with the

artists actual works, the result spans more than two centuries of Chinese animation. Structured chronologically, the study begins with precursors in early China and proceeds through the Republican, wartime, Communist, and market economy periods. Based primarily on interviews senior scholar John A. Lent and Xu Ying conducted with over one hundred cartoonists, animators, and other comics art figures, *Comics Art in China* sheds light on tumult and triumphs. Meticulously, Lent and Xu describe the evolution of Chinese comics within a global context, probing the often-tense relationship between expression and government, as well as proving that art can be a powerful force for revolution. Indeed, the authors explore Chinese comics art as it continues to grow and adapt in the twenty-first century. Enhanced with over one hundred black-and-white and color illustrations, this book stands out as not only the first such survey in English, but perhaps the most complete one in any language.

**Crazy Crab's Chinese Dream** China Digital Times, Crazy Crab, 2014-05-12 Hexie Farm (hexiefarm.com) is the name of a series of political cartoons created by an anonymous Chinese cartoonist under the pen name Crazy Crab (疯狂螃蟹). His drawings quickly gained a large following online for their unique blend of satire, wit, and razor-sharp commentary on current events in China and beyond. Crazy Crab uses visual references to traditional fairy tales, George Orwell, and political propaganda slogans to critique China's leadership. *Crazy Crab's Chinese Dream: Political Cartoons 2012-2013* includes 40 images drawn exclusively for China Digital Times,

with explanatory text written by Executive Editor Sophie Beach and a Q&A with the cartoonist. "I hope to make change, to draw something that we have never thought about, or dared to draw, before," Crazy Crab tells China Digital Times. "I also want to use cartoons to...spread some question marks in the censorship system." All cartoons in the eBook were drawn between February 2012 and September 2013, when Crazy Crab was a contributing cartoonist for China Digital Times. His drawings covered a busy period in Chinese political history, from the downfall of former Chongqing Party Chief Bo Xilai to the transition of power from Hu Jintao to Xi Jinping.

**The History of Chinese Animation I** Lijun Sun, 2020-05-27 China has been one of the first countries to develop its own aesthetic for dynamic images and to create animation films with distinctive characteristics. In recent years, however, and subject to the influence of Western and Japanese animation, the Chinese animation industry has experienced several new stages of development, prompting the question as to where animation in China is heading in the future. This book describes the history, present and future of China's animation industry. The author divides the business's 95-year history into six periods and analyses each of these from an historical, aesthetic, and artistic perspective. In addition, the book focuses on representative works; themes; directions; artistic styles; techniques; industrial development; government support policies; business models; the nurturing of education and talent; broadcasting systems and

animation. Scholars and students who are interested in the history of Chinese animation will benefit from this book and it will appeal additionally to readers interested in Chinese film studies.

Southeast Asian Cartoon Art John A.

Lent,2014-01-24 This is the first overview of cartoon art in this important cultural nexus of Asia. The eight essays provide historical and contemporary examinations of cartoons and comics in Indonesia, the Philippines, Thailand, Cambodia, and Vietnam, and sociocultural and political analyses of cartooning in Singapore, Myanmar, and Malaysia. The collection benefits from hundreds of interviews with Southeast Asia's major cartoonists, conducted by the four contributors, as well as textual analyses of specific cartoons, on-the-spot observations, and close scrutiny of historical documents. All genres of printed cartoon art are studied, including political and humor cartoons, newspaper comic strips, comic books, and humor and cartoon periodicals. Topics of discussion and comparison with cartoon art of other parts of the globe include national identity, the transnational public sphere, globalization, alternative media forms, freedom of expression, consumerism, and corporatism. Southeast Asian cartoon art has a number of features unique to the region, such as having as pioneering cartoonists three countries' founding fathers, comics that gave their name to a national trait, some of the earliest graphic novels worldwide, and a king who hired a cartoonist to

illustrate his books.

**Animation** Chris Pallant, 2021-01-01 *Animation: Critical and Primary Sources* is a major multi-volume work of reference that brings together seminal writings on animation studies. Gathering historical and contemporary texts from a wide-ranging number of sources, the volumes provide a key resource in understanding and studying the past and future directions of animation studies. The four volumes thematically trace animation studies from its many definitions, or a lack thereof, to the institutional nature of animation production, to establishing greater space within animation discourse for the consideration of broadcast and interactive animation, and finally, giving greater contextual understanding of the field of animation studies, by focusing on 'Authorship', 'Genre', 'Identity Politics', and 'Spectatorship', thus enabling readers to engage more deeply with the ideas discussed in the final volume. Ordering the collection in this way avoids imposing an overly simplistic chronological framework, thereby allowing debates that have developed over years (and even decades) to stand side by side. Each volume is separately introduced and the essays structured into coherent sections on specific themes--

*Asian Political Cartoons* John A. Lent, 2023-01-27 In *Asian Political Cartoons*, scholar John A. Lent explores the history and contemporary status of political cartooning in Asia, including East Asia (China, Hong Kong, Japan, North and South Korea, Mongolia, and Taiwan), Southeast Asia (Brunei, Cambodia, Indonesia, Malaysia, Myanmar,

Philippines, Singapore, Thailand, and Vietnam), and South Asia (Bangladesh, India, Iran, Nepal, Pakistan, and Sri Lanka). Incorporating hundreds of interviews, as well as textual analysis of cartoons; observation of workplaces, companies, and cartoonists at work; and historical research, Lent offers not only the first such survey in English, but the most complete and detailed in any language. Richly illustrated, this volume brings much-needed attention to the political cartoons of a region that has accelerated faster and more expansively economically, culturally, and in other ways than perhaps any other part of the world. Emphasizing the “freedom to cartoon, the author examines political cartoons that attempt to expose, bring attention to, blame or condemn, satirically mock, and caricaturize problems and their perpetrators. Lent presents readers a pioneering survey of such political cartooning in twenty-two countries and territories, studying aspects of professionalism, cartoonists’ work environments, philosophies and influences, the state of newspaper and magazine industries, the state’s roles in political cartooning, modern technology, and other issues facing political cartoonists. Asian Political Cartoons encompasses topics such as political and social satire in Asia during ancient times, humor/cartoon magazines established by Western colonists, and propaganda cartoons employed in independence campaigns. The volume also explores stumbling blocks contemporary cartoonists must hurdle, including new or beefed-up restrictions and regulations, a dwindling number of publishing venues, protected vested

interests of conglomerate-owned media, and political correctness gone awry. In these pages, cartoonists recount intriguing ways they cope with restrictions—through layered hidden messages, by using other platforms, and finding unique means to use cartooning to make a living.

**Transnationalism in East and Southeast Asian Comics Art** John A. Lent, Wendy Siuyi Wong, Benjamin Wai-ming Ng, 2022-10-03 This book explores various aspects of transnationalism and comics art in six East Asian and seven Southeast Asian countries/territories. The 14 richly illustrated chapters embrace comics, cartoons, and animation relative to offshore production, transnational ownership, multinational collaboration, border crossings of comics art creators and characters, expansion of overseas markets, cartoonists in political exile, colonial underpinnings, adaptation of foreign styles and formats, representation of other cultures, and more. Using case studies, historical accounts, descriptive overviews, individual artists' profiles, and representational analyses, and fascinatingly told through techniques as document use, interviews, observation, and textual analyses, the end result is a thorough, interesting, and compact volume on transnationalism and comics art in East and Southeast Asia.

**Chinese Animation, Creative Industries, and Digital Culture** Weihua Wu, 2017-08-03 This book explores the development of the Chinese animation film industry from the beginning of China's reform process up to the present. It discusses above all the relationship between the communist state's policies to stimulate creative industries, concepts of creativity and aesthetics, and the creation and maintenance , through changing circumstances, of a national style by Chinese animators. The book also examines the relationship between Chinese animation, changing technologies including the rise first of television and then of digital media, and youth culture, demonstrating the importance of Chinese animation in Chinese

youth culture in the digital age.
