Post-editing of Machine Translation Laura Winther Balling, Michael Carl, Sharon

O'Brian, 2014-03-17 Post-editing is possibly the oldest form of human-machine cooperation for translation. It has been a common practice for just about as long as operational machine translation systems have existed. Recently, however, there has been a surge of interest in post-editing among the wider user community, partly due to the increasing quality of machine translation output, but also to the availability of free, reliable software for both machine translation and post-editing. As a result, the practices and processes of the translation industry are changing in fundamental ways. This volume is a compilation of work by researchers, developers and practitioners of post-editing, presented at two recent events on post-editing: The first Workshop on Post-editing Technology and Practice, held in conjunction with the 10th Conference of the Association for Machine Translation in the Americas, held in San Diego, in 2012; and the International Workshop on Expertise in Translation and Post-editing Research and Application, held at the Copenhagen Business School, in 2012.

Cardiovascular Mechanics Michel R. Labrosse, 2018-09-13 The objective of this book is to illustrate in specific detail how cardiovascular mechanics stands as a common pillar supporting such different clinical successes as drugs for high blood pressure, prosthetic heart valves and coronary artery bypass grafting, among others. This information is conveyed through a comprehensive treatment of the overarching principles and theories that are behind mechanobiological processes, aortic and arterial mechanics, atherosclerosis, blood and microcirculation, heart valve mechanics, as well as medical devices and drugs. Examines all major theoretical and practical aspects of mechanical forces related to the cardiovascular system. Discusses a unique coverage of mechanical changes related to an aging cardiovascular system. Provides an overview of experimental methods in cardiovascular mechanics. Written by world-class researchers from Canada, the US and EU. Extensive references are provided at the end of each chapter to enhance further study. Michel R. Labrosse is the founder of the Cardiovascular Mechanics Laboratory at the University of Ottawa, where he is a full professor within the Department of Mechanical Engineering. He has been an active researcher in academia along with being heavily associated with the University of Ottawa Heart Institute. He has authored or co-authored over 90 refereed communications, and supervised or co-supervised over 40 graduate students and post-docs.

Liquor & Cigarettes Ranmaru Zariya, 2020-01-14 Can Camilo convince his childhood best friend to give love with a man a chance, knowing that man is Camilo himself? Theo runs the town liquor store—too bad he's a total lightweight! His lifelong best friend, Camilo, runs the cigarette store across the street, and recently, he's been making his attraction to Theo quite clear. Unsure of how he feels about dating a man, Theo accepts Camilo's offer of a trial run at dating, and with a little liquid courage and a lot of heavy petty, Theo sees a whole new side to his childhood friend. Will these new experiences clarify his feelings or only serve to further muddy the waters of love? Theo runs the town liquor store—too bad he's a total lightweight! Out of Darkness, Shining Light Petina Gappah, 2021-07-06 A powerful, moving, and revelatory novel set in nineteenth-century Africa--the captivating story of the loyal men and women who carried the body of explorer and missionary David Livingstone from Zambia to Zanzibar so that his remains could be returned home to England. Dawn, 1 May 1873, on the outskirts of Chitambo's village, near

Lake Bangweulu in modern-day Zambia. The Scottish explorer and missionary David Livingstone has died. He had been heading south in the African interior on an increasingly maniacal mission to penetrate the greatest secret of Victorian exploration. He wanted to find the source of the world's longest river, the Nile. Instead, on an isolated and swampy floodplain, Dr. Livingstone found his death. How Livingstone is to be buried will be decided by his African companions, a group of sixty-nine men, women, and children. They decide that come what may, Livingstone, his papers and maps, must all be carried to England. They bury his heart and other organs under a tree and dry his flesh like jerky in the sun. Over nine months, battling severe illness and hunger, hostile chiefs and unknown terrain, all while taking a tortuous route of more than 1,000 miles to the coast to avoid marauding slave traders, they march with Livingstone's body and the evidence of his explorations. Their journey has been called the most extraordinary story in African exploration. In this novel, their story is retold anew in the distinct, indelible voices of Livingstone's sharp-tongued female cook, Halima; a repressed, formerly enslaved African missionary named Jacob Wainwright; and the collective voice of the retainers. The result is a profound and tragic journey--an epic like no other--that encompasses all of the hypocrisy of slavery and colonization while celebrating resilience, loyalty, and love. In *Out of Darkness, Shining Light*, Petina Gappah has created an ambitious and artful masterpiece.

Walker Percy, Philosopher Leslie Marsh, 2018-07-31 Though Walker Percy is best known as a novelist, he was first and foremost a philosopher. This collection offers a sustained examination of key aspects to his more technical philosophy (primarily semiotics and the philosophy of language) as well as some of his lesser known philosophical interests, including the philosophy of place and dislocation. Contributors expound upon Percy's multifaceted philosophy, an invitation to literature and theology scholars as well as to philosophers who may not be familiar with the philosophical underpinnings of his work.

Katobole Village Folklore And Livingstone's Epic Journey Chengo Mulala, 2021-04-29 This book describes the arduous journey endured by Livingstone's African porters; a journey which was not acknowledged by the British government of the day. As a granddaughter of Mlututula, one of the African porters, I strongly feel the porters' heroic selflessness towards their master cannot be ignored, yet it remains unacknowledged in most books written on David Livingstone. Following the death of Livingstone in May 1873, the African porters carried his embalmed body over 1000 miles on foot from Chitambo to Zanzibar on the Indian Ocean coast so British authorities could have his body returned to his people in the United Kingdom. The African porters had removed his internal organs and buried them in a flour tin under a Moundu tree at Ilala village in Zambia. Livingstone's statue has since been installed at this location. The porters were bullied by Lieutenant Verny Lovett Cameron, who had been sent to find and assist Livingstone, and met the entourage in November 1873. Cameron failed to persuade the African porters to bury Livingstone at Unyanyembe where he had met them. In anger, he pretended to go to Ujiji alone, took Livingstone's boxes of medicine and equipment and disappeared into the bush. The second part of the book shows the wisdom of the African village leaders, and the way they maintained law and order. They passed on their knowledge to their children through parables based on their cultural inheritance. There are also stories about harmony and village celebrations. The book talks about village heroes and villains, and gives examples of the harsh and brutal treatment levied on African villages through colonial laws which aimed to steal money from the Africans to enrich and grow European economies. All the stories and examples in the book show that there was law and order in African villages before white civilisation was imposed. The knowledge and wisdom imparted to youngsters at Katobole village led them to grow into responsible adults, most of whom have thrived in professional enterprises and fields. I, myself, granddaughter of Mlututula, one of the African porters, now live in the United Kingdom and have embraced a new career as a writer upon my retirement as a social worker.

Lost in the Cosmos Walker Percy, 2011-03-29 "A mock self-help book designed not to help but to provoke . . . to inveigle us into thinking about who we are and how we got into this mess." (Los Angeles Times Book Review). Filled with quizzes, essays, short stories, and diagrams, *Lost in the Cosmos* is National Book Award-winning author Walker Percy's humorous take on a familiar genre—as well as an invitation to serious contemplation of life's biggest questions. One part parody and two parts philosophy, *Lost in the Cosmos* is an enlightening guide to the dilemmas of human existence, and an unrivaled spin on self-help manuals by one of modern America's greatest literary masters.

Repairing Texts Hans P. Krings, 2001 This study challenges the idea that, given the effectiveness of machine translation, major costs could be reduced by using monolingual staff to post-edit translations. It presents studies of machine translation systems, and current research into translation process.

The Thanatos Syndrome Walker Percy, 2011-03-29 *DIVDIV* Percy's stirring sequel to *Love in the Ruins* follows Tom More's redemptive mission to cure the mysterious ailment afflicting the residents of his hometown/*divDIV/divDIV*. Dr. Tom More returns to his parish in Louisiana determined to live a simpler life. Fresh out of prison after getting caught selling uppers to truck drivers, he wants nothing more than to live "a small life." But when everyone in town begins acting strangely—from losing their sexual inhibitions to speaking only in blunt, truncated sentences—More, with help from his cousin Lucy Lipscomb, takes it upon himself to reveal what and who is responsible. Their investigation leads them to the highest seats of power, where they discover that a government conspiracy is poised to rob its citizens of their selves, their free will, and ultimately their humanity./div /div
