**Drawn on the Way** Sarah Nisbett, 2021-12-21 Learn to observe the world more deeply—with curiosity, empathy, and joy—as you sketch the stories unfolding all around you. In *Drawn on the Way*, Sarah Nisbett shares her techniques for creating captivating line drawings that capture the moments and moods that you encounter on the train, in a café, outdoors, anywhere: a young woman lost in thought, a pair of hands clasped on a lap, a peppy beagle, a pair of jeans-clad crossed legs. Sarah invites you to see the people, animals, places, and objects you draw with compassionate curiosity—as more than a stranger or inanimate object, but as someone or something with a story worth knowing or imagining. Even if you are inexperienced at drawing or don't consider yourself an artist, you can learn how to create sketches from start to finish employing techniques such as contour drawing, using line work to add texture, and adding spot color—and discover how each sketch tells a story. You'll begin to focus on important details that reveal something about the subject you're drawing: the graceful drape of a hand over a purse, the shy way someone tucks their feet underneath them. As you unplug, set aside perfectionism, and explore the world through drawing, you'll learn: How to translate what you see into a compelling drawing How to silence your inner critic and find joy in drawing what captures your interest Techniques for drawing figures and creating quick portraits How to find the emotion in objects by asking questions How to draw scenes and backgrounds without becoming overwhelmed How to quickly and expressively render the natural world, including plants and animals How key details can take a sketch from plain to captivating Ways to find the extraordinary in the everyday How to transform mistakes into likeable elements Tips for becoming a visual storyteller Life lessons learned from years of live drawing We spend most of our lives on the way, rushing and running from place to place, task to task. When we have a spare minute, we usually reach for our phones and shut everything else out. The techniques, projects, and ideas in *Drawn on the Way* are designed to help you be more mindful about drawing, to capture the people, places, and things you encounter each day. By doing that, you'll connect with humanity in a deeper, more meaningful way—and discover a lot about yourself.

*Overloaded and Underprepared* Denise Pope, Maureen Brown, Sarah Miles, 2015-07-27 Praise for *Overloaded and Underprepared* “Parents, teachers, and administrators are all concerned that America's kids are stressed out, checked out, or both—but many have no idea where to begin when it comes to solving the problem. That's why the work of Challenge Success is so urgent. It has created a model for creating change in our schools that is based on research and solid foundational principles like communication, creativity, and compassion. If your community wants to build better schools and a brighter future, this book is the place to start.” —Daniel H. Pink, author of *Drive* and *A Whole New Mind* “Challenge Success synthesizes the research on effective school practices and offers concrete tools and strategies that educators and parents can use immediately to make a difference in their communities. By focusing on the day-to-day necessities of a healthy schedule; an engaging, personalized, and rigorous curriculum; and a caring climate, this book is an invaluable resource for school leaders, teachers, parents, and students to help them design learning

communities where every student feels a sense of belonging, purpose, and motivation to learn the skills necessary to succeed now and in the future.” —Linda Darling-Hammond, Charles E. Ducommun Professor of Education, Stanford University “Finally, a book about education and student well-being that is both research-based and eminently readable. With all the worry about student stress and academic engagement, Pope, Brown and Miles gently remind us that there is much we already know about how to create better schools and healthier kids. Citing evidence-based ‘best practices’ gleaned from years of work with schools across the country, they show us what is not working, but more importantly, what we need to do to fix things. Filled with practical suggestions and exercises that can be implemented easily, as well as advice on how to approach long-term change, *Overloaded and Underprepared* is a clear and compelling roadmap for teachers, school administrators and parents who believe that we owe our children a better education.”

—Madeline Levine, co-founder Challenge Success; author of *The Price of Privilege* and *Teach Your Children Well* “This new book from the leaders behind Challenge Success provides a thorough and balanced exploration of the structural challenges facing students, parents, educators, and administrators in our primary and secondary schools today. The authors’ unique approach of sharing proven strategies that enable students to thrive, while recognizing that the most effective solutions are tailored on a school-by-school basis, makes for a valuable handbook for anyone seeking to better understand the many complex dimensions at work in a successful learning environment.” —John J. DeGioia, President of Georgetown University

**Caro's Book of Poker Tells** Mike Caro, One of the ten greatest books written on poker, this must-have book should be in every player's library. If you're serious about winning, you'll realize that most of the profit comes from being able to read your opponents. Caro reveals the the secrets of interpreting tells-physical reactions that reveal information about a player's cards-such as shrugs, sighs, shaky hands, eye contact, and many more. Learn when opponents are bluffing, when they aren't and why-based solely on their mannerisms. Over 170 photos of players in action and play-by-play examples show the actual tells. These powerful ideas will give you the decisive edge.

Head First EJB Kathy Sierra, Bert Bates, 2003-10-28 What do Ford Financial, IBM, and Victoria's Secret have in common? Enterprise JavaBeans (EJB). As the industry standard for platform-independent reusable business components, EJB has just become Sun Microsystems's latest developer certification. Whether you want to be certifiable or just want to learn the technology inside and out, Head First EJB will get you there in the least painful way. And with the greatest understanding. You'll learn not just what the technology is, but more importantly, why it is, and what it is and isn't good for. You'll learn tricks and tips for EJB development, along with tricks and tips for passing this latest, very challenging Sun Certified Business Component Developer (SCBCD) exam. You'll learn how to think like a server. You'll learn how to think like a bean. And because this is a Head First book, you'll learn how to think about thinking. Co-author Kathy Sierra was one of Sun's first employees to teach brave, early adopter customers how to use EJB. She has the scars. But besides dragging you deep into EJB technology, Kathy and Bert will see you through your certification exam, if you decide to go for it. And nobody knows the certification like they do - they're co-developers of Sun's actual exam! As the second book in the Head First series, Head First EJB follows up the number one best-selling Java book in the US, Head First Java. Find out why reviewers are calling it a revolution in learning tough technical topics, and why Sun Chairman and CEO Scott McNealy says, Java technology is everywhere...if you develop software and haven't learned Java, it's definitely time to dive in Head First. And with Head First book, you don't even have to feel guilty about having fun while you're learning; it's all part of the learning theory. If the latest research in cognitive science, education, and neurobiology suggested that boring, dry, and excruciatingly painful was the best way to learn, we'd have done it. Thankfully, it's been shown that your brain has a sense of style, a sense of humour, and a darn good

sense of what it likes and dislikes. In Head First EJB, you'll learn all about: Component-based and role-based development The architecture of EJB, distributed programming with RMI Developing and Deploying an EJB application The Client View of a Session and Entity bean The Session Bean Lifecycle and Component Contract The Entity bean Lifecycle and Component Contract Container-managed Persistence (CMP) Container-managed Relationships (CMR) EJB-QL Transactions Security EJB Exceptions The Deployment Descriptor The Enterprise Bean Environment in JNDI Programming Restrictions and Portability The book includes over 200 mock exam questions that match the tone, style, difficulty, and topics on the real SCBCD exam. See why Kathy and Bert are responsible for thousands of successful exam-passers--The Sun certification exam was certainly no walk in the park, but Kathy's material allowed me to not only pass the exam, but Ace it!--Mary Whetsel, Sr. Technology Specialist, Application Strategy and Integration, The St. Paul Companies Kathy Sierra and Bert Bates are two of the few people in the world who can make complicated things seem damn simple, and as if that isn't enough, they can make boring things seem interesting.--Paul Wheaton, The Trail Boss, javaranch.com Who better to write a Java study guide than Kathy Sierra, reigning queen of Java instruction? Kathy Sierra has done it again. Here is a study guide that almost guarantees you a certification!--James Cubetta, Systems Engineer, SGI
