Dream Garages Kris Palmer,Robert Genat,James Mann,Peter Martin,Peter Vincent,2012-09-13 DIVA garage is a special place—not home, not office, not rec room. It may combine elements of all of these, yet it remains unique. Dreams are born, housed, revived, and realized within the walls and beneath the rafters of an enthusiast's garage. It is a haven from life's broader concerns, where work is not really work, and virtually anything seems possible. Dream Garages explores this hallowed space, taking the reader into 21 motorhead havens, where automotive and motorcycle enthusiasts store and work on the objects of their passion. Some of the structures are expansive, some more modest; some are working garages, others near spotless showcases of pristine machines and automotive art work and memorabilia. Pervading all of them is a love of the motor vehicle and an appreciation for the structure that allows us to harbor and revive them. Here readers will find enthusiasts who collect, preserve, and work on sports cars, race cars, motorcycles, trucks, speed record vehicles and related machinery, and treasures. Revered names like Ferrari, Corvette, Road Runner, Cobra, and Jaguar dwell in these special spaces. Dream Garages is not a manual on building a great garage; it's a look at the ideas and passions that can make any garage great. Dream Garages is the Architectural Digest for those whose veins run with gasoline./div

MECH-ROW Tim Campbell,2008-09-30 Through the blistering heat rising off the desert highway, Mark Axton deftly maneuvers a sports car at high speed. A test-driver for a major automobile magazine, the handsome, charismatic Axton lives a life of adventure that other men can only dream of. Yet as Axton and his assistant conduct their test-drive on this particular day, they are about to experience a chance encounter with a former racecar driver and his gruff mechanic that could change Axton's life, and the lives of every human being on the planet, forever. In Mech-Row we meet a cast of characters thrown together by the unbelievable invention of the first truly nonpolluting high-performance automobile. As Axton and his new partners attempt to build and test a working prototype, their lives become interwoven in the pursuit of a revolutionary wonder vehicle that could actually become the solution to the world's pollution crisis. Mech-Row takes us on a journey at a hundred miles per hour as Axton races to bring the amazing discovery to the world's attention. A fast-paced thriller, Mech-Row is a standout in a new type of fiction set against the backdrop of the modern-day plight of planet Earth.

Fever Dream Samanta Schweblin,2017-01-10 “A wonderful nightmare of a book: tender and frightening, disturbing but compassionate. Fever Dream is a triumph of Schweblin’s outlandish imagination.” —Juan Gabriel Vasquez, author of The Sound of Things Falling and Reputations A young woman named Amanda lies dying in a rural hospital clinic. A boy named David sits beside her. She’s not his mother. He's not her child. Together, they tell a haunting story of broken souls, toxins, and the power and desperation of family. Fever Dream is a nightmare come to life, a ghost story for the real world, a love story and a cautionary tale. One of the freshest new voices to come out of the Spanish language and translated into English for the first time, Samanta Schweblin creates an aura of strange psychological menace and otherworldly reality in this absorbing, unsettling, taut novel.

Invasion of the Dream Wheel Edward Gauthier,2022-04-24 What are the critics saying?Gauthier jumpacks his story with plot and character details. The 23rd-century storyline proves the most remarkable. Loganus is a green-blooded chlorohuman whose body gets most of its energy from the sun, and his xenobiologist mother lab-created an intelligent, tentacled being that communicates telepathically. This SF outing mixes in a solid historical tale with the recruits' different eras and passing years. For example, Kevin becomes a Marine fighting in Afghanistan, and Miriam takes a harrowing sea journey to America as the Indian Wars rage. Still, the SF element remains prominent; one character faces an unfortunate fate, which may change if the trio stops the development of SR232. While the alternating time periods and the recruits' trading first-person narration generate a brisk pace . . .Gauthier writes with panache, as when time-traveling Kevin tries to remain incognito in 2021: I walked to the edge of the platform and noticed a lone fisherman in a flat bottom skiff with an electric lantern hanging out over the water. He reeled in a fish, unhooked it, and dropped it into his boat. But then he looked straight at me and the Dream Wheel. The ending, considering all that unfolds, offers a surprising resolution. Futuristic and historical plots collide in this engaging, . . . time-hopping tale.-- Kirkus Reviews

Jacksonville on Wheels: A Car Culture Retrospective Dorothy K. Fletcher,2018 Jacksonville has long been a mecca for car enthusiasts and collectors, due in part to the city's unique automotive history. Bystanders gazed in wonder as John Einig drove Florida's very first steam-powered horseless carriage through the streets in 1889. Fred Gilbert opened the first automobile dealership in 1903, just before the city's first automobile parade, and people were soon clamoring to buy cars of their own. Claude Nolan, whose local dealership has been in business for well over a century, gained fame for racing his Cadillac against an airplane at the Jacksonville Fairgrounds. NASCAR held races at the Jacksonville Speedway in the '50s and '60s. Author Dorothy K. Fletcher explores the rich history and memories of car culture in the River City.

Non Stop Poetry Mark Gonzales,2014 ... a comprehensive presentation of the zines made by Gonzales from the early-'90s to the present day. Gonzales, thought by many to be the greatest skateboarder of all time, is revealed by this significant book to deserve equal recognition as an artist and poet. His extraordinary production of more than 145 zines (the exact number is unknown since Gonzales kept no records of his output), is a remarkable artistic achievement worthy of the careful analysis and documentation provided by this book. Gonzales zines are made spontaneously using an argot all his own and demonstrate a remarkable gift for verse and drawing. Misshapen, hastily scribbled and collaged into brilliantly drawn and colored ephemeral pamphlets, these handmade zines continue a notable tradition of artist-made publications from Ed Ruscha to Raymond Pettibon. Every zine found after years of research by the editors which was created by Gonzales from 1992 until today, including those created in collaboration with Harmony Korine, Cameron Jamie, and others, is presented with all available publishing information and illustrated with cover and interior scans--
