**Dreams, Goals and Adventure** Michael Ditton,2015-10-19 From broke to retired in ten years Returning home from Desert Storm, I found myself mentally and financially bankrupt. Newly divorced, I had no job, no help, and no hope. My reasons to live were gone. At the lowest point in my life, I fell back on simple truths from my childhood: hard work gets results, and its okay to dream. And dream I did, setting goals that launched me from poverty to a life I could not have imagined. And you can do it, too. Dreams, Goals, and Adventure will inspire you to dream big, work toward your goals, and live your life as an adventure every day. Dont be afraid to dream. Dont accept no as an answer. Remove cant from your vocabulary. Small goals are stepping stones to much larger goals. Learn how to spring forward from failure. Know you will have to adjust. Live life as an adventure. Michael Ditton is an entrepreneur, personal development coach, and student of life. In addition to helping others realize their dreams, he can be found sailing or traveling in search of new adventures. When met by unexpected challenges, embrace them wholeheartedly as opportunities for adventure and education. I developed [www.goalsettingbasics.com](http://www.goalsettingbasics.com) to help others interested in learning how to set goals. In my twenties I had to gather these valuable bits of information a piece at a time. This site offers you an array of information, tools, and resources to help you in identifying, setting, and accomplishing your goals, whatever they might be. In these tools are free worksheets and examples to help you succeed. You will find Goal-Setting Basics is your single source for all of your goal-setting needs.

Every decision is in effect a goal, which triggers a subconscious process that transforms the decision into an action and onto a result. Becoming a master at goal setting is the first step in mastering life. So why are some people so much more successful than others? This was the burning question that inspired Brian Mayne to develop his unique Goal Mapping system. The Goal Mapping system fuses Eastern and Western techniques to create a holistic method for achieving success. The system uses both left and right brain—bringing words, pictures, and symbols together to connect the conscious to the sub-conscious, in a way that your subconscious accepts your goals as the dominant command to be pursued. The Goal Mapping system utilizes 7 steps that stimulate whole brain activity to harness intrinsic aspects necessary for any kind of conscious, intended success. The system creates a personalized goal map, combining words and pictures that become your blueprint for future success.
