Nutrition, Well-Being and Health Jaouad Bouayed, Torsten Bohn, 2012-02-23 In our modern society, expectations are high, also with respect to our daily diet. In addition to being merely nutritious, i.e. supplying a variety of essential nutrients, including macro-nutrients such as proteins or micro-nutrients such as minerals and vitamins, it is almost expected that a good diet offers further advantages - especially well-being and health and the prevention of chronic diseases, which are, as we generally tend to grow older and older, becoming a burden to enjoying private life and to the entire society. These additional qualities are often sought in diets rich also in non-nutritive components, such as phytochemicals. In contrast to drugs, which are taken especially to cure or ameliorate diseases, it is expected that a healthy diet acts in particular on the side of prevention, allowing us to become old without feeling old. In the present book, rather than trying to give an exhaustive overview on nutritional aspects and their link to well-being and health, selected topics have been chosen, intended to address presently discussed key issues of nutrition for health, presenting a reasonable selection of the manifold topics around diet, well-being, and health: from the antioxidants polyphenols and carotenoids, aroma-active terpenoids, to calcium for bone health, back to traditional Chinese Medicine.

Naked at Noon 1 Jean Le Baptiste, 2014-04-19 Nudist, or naturist, magazines comprising photographs of naked men and women enjoying outdoor activities first appeared as far back as the beginning of the 20th century. Nudist culture boomed in the 1950s and early 1960s, following a landmark ruling which permitted such material to be freely distributed via the US mail. Of course, these publications were not aimed solely at fellow naturists; although their content and context was strictly non-sexual, the ample swathes of female flesh they offered nonetheless provided the average man with the only masturbatory material which was freely available. Jean le Baptiste has assembled from his own collection a stunning array of vintage photographs from these magazines, a collection which takes us back to the unashamed, unclothed splendour of more innocent decades in the sun. *Naked At Noon 1* contains over 60 classic images, with many in full colour. For those who prefer women with no tattoos, no silicone, and hair where nature intended.

Antioxidants and Disease Prevention Harinder Garewal, 1997-04-03 The role of antioxidants and other nutritional agents in disease prevention is a widely discussed subject, attracting attention from professionals in all areas of medicine. This often-debated and rapidly evolving area of medicine could have important implications for how diseases are treated.

Not the Impossible Faith Richard Carrier, 2009-01-27 Dr. Richard Carrier is an expert in the history of the ancient world and a critic of Christian attempts to distort history in defense of their faith. *Not the Impossible Faith* is a tour de force in that genre, dissecting and refuting the oft-repeated claim that Christianity could not have succeeded in the ancient world unless it was true. Though framed as a detailed rebuttal to Christian apologist J.P. Holding (author of *The Impossible Faith*), Carrier takes a general approach that educates the reader on the history and sociology of the ancient world, answering many questions like: How did Christians approach evidence? Was there a widespread prejudice against the testimony of women? Was resurrection such a radical idea? Who would worship a crucified criminal? And much more. Written with occasional humor and an easy style, and thoroughly referenced, with many entertaining gotcha! moments, *Not the Impossible Faith* is a must-read for anyone interested in the origins of Christianity.

Handbook of Innovative Career Counselling Jacobus G. Maree, 2019-08-09 This book examines a topic widely regarded as the most pressing in career counselling today, i.e., how to ensure that everyone receives career counselling and that all workers have the opportunity to engage in sustainable, decent work. The author holds that career counselling should not only advance workers' self- and career construction, helping them design successful career-lives and make social contributions, and live purposeful lives - it should also expound new theoretical approaches and interventions. Furthermore, the book criticizes global society for overlooking the basic needs of many workers, especially the most vulnerable and disadvantaged. An important feature of the book is its emphasis on promoting a creative and innovative approach to career counselling so as to better answer contemporary career-related questions. It offers guidance on how to advance entrepreneurship and help workers develop critical thinking, curiosity, creativity, collaboration, and communication skills. In this way the book promotes innovation in career counselling and maps the way forward in a theoretical and practical manner that helps clients 'flourish' rather than merely 'survive' in turbulent times impacted by the fourth wave in psychology, career counselling, the economy, as well as the 4th industrial revolution (Work 4.0).
