*Tug O' War and Other Drinking Games* Solomon

Robert, 2013-03 Out of a blackout, Nathan and his best friend, Riley, find themselves on a road trip down the west coast with two complete strangers. Continuing to party, she and Nathan tug back and forth with the other's emotions on a journey to figure out their feelings for each other amidst alcohol and other confusion. Preview Of The First Chapter: It may be the burn of the vodka traveling down my insides, but a flutter of excitement spreads across my chest and out to the rest of my body as she smiles. How ridiculous are we? she asks, her smile still painted across her voluminous lips. She puts down her shot glass and proceeds to pour another shot. I place my shot glass on the rickety table next to hers, so she can refill mine as well. Riley grabs the full shot glasses from the table and hands one to me. It's your turn. What's this to? The spark in her eye spreads across her face in a glimmer. I can't get over how beautiful she looks. Time doesn't seem to exist in this dimension, our dimension. A tickling sensation proliferates across my back, reminding me not to get lost in my emotions. I knock my shot glass against hers and lean in towards her glowing auburn eyes and her tiny wave of a nose. To prefunking dinner! I throw back the vodka and let the liquid cool my insides a couple degrees. I'm pretty sure we've said that one four times already. Come on, Nathan... Riley's knees press into my thighs. She turns toward me and leans her smirking lips closer, whether to kiss me or to bite me is unclear. She hovers at this distance with her sandy hair falling on her cheeks. You're more creative than that. Come up with a better one. I pour more poison into our glasses, spilling some of the cherished liquor onto the floor while I maintain her eye contact. I wish her eyes would stop their dazzling. To the most attractive person

ever. I watch as she bites her bottom lip in an effort not to grin. Her eyes flutter between mine. I can't let her have the satisfaction of knowing she has me. That will end our game of tug o' war and neither of us wants that. Me, I say. I let the alcohol flow down into my stomach and eye Riley as she does the same. . . .

Mama, PhD Elrena Evans, Caroline Grant, 2008 Every year, American universities publish glowing reports stating their commitment to diversity, often showing statistics of female hires as proof of success. Yet, although women make up increasing numbers of graduate students, graduate degree recipients, and even new hires, academic life remains overwhelming a man's world. The reality that the statistics fail to highlight is that the presence of women, specifically those with children, in the ranks of tenured faculty has not increased in a generation. Further, those women who do achieve tenure track placement tend to report slow advancement, income disparity, and lack of job satisfaction compared to their male colleagues. Amid these disadvantages, what is a Mama, PhD to do? This literary anthology brings together a selection of deeply felt personal narratives by smart, interesting women who explore the continued inequality of the sexes in higher education and suggest changes that could make universities more family-friendly workplaces. The contributors hail from a wide array of disciplines and bring with them a variety of perspectives, including those of single and adoptive parents. They address topics that range from the level of policy to practical day-to-day concerns, including caring for a child with special needs, breastfeeding on campus, negotiating viable maternity and family leave policies, job-sharing

and telecommuting options, and fitting into desk/chair combinations while eight months pregnant. Candid, provocative, and sometimes with a wry sense of humor, the thirty-five essays in this anthology speak to and offer support for any woman attempting to combine work and family, as well as anyone who is interested in improving the university's ability to live up to its reputation to be among the most progressive of American institutions.

*Glimpsed* G.F. Miller, 2021-01-05 "Filled with tongue-in-cheek humor...a gently fantastical world brimming with teen shenanigans." -Publishers Weekly Perfect for fans of *Geekerella* and *Jenn Bennett*, this charming, sparkly rom-com follows a wish-granting teen forced to question if she's really doing good—and if she has the power to make her own dreams come true. Charity is a fairy godmother. She doesn't wear a poofy dress or go around waving a wand, but she does make sure the deepest desires of the student population at Jack London High School come true. And she knows what they want even better than they do because she can glimpse their perfect futures. But when Charity fulfills a glimpse that gets Vindhya crowned homecoming queen, it ends in disaster. Suddenly, every wish Charity has ever granted is called into question. Has she really been helping people? Where do these glimpses come from, anyway? What if she's not getting the whole picture? Making this existential crisis way worse is Noah—the adorkable and (in Charity's opinion) diabolical ex of one of her past clients—who blames her for sabotaging his prom plans and claims her interventions are doing more harm than good. He demands that she stop granting wishes and help him get his girl back. At first, Charity has no choice but to play along. But soon, Noah becomes an unexpected ally in getting to the bottom of the glimpses. Before long, Charity dares to call him her friend...and

even starts to wish he were something more. But can the fairy godmother ever get the happily ever after?

Making the Modern World Vaclav Smil,2013-12-16 How much further should the affluent world push its material consumption? Does relative dematerialization lead to absolute decline in demand for materials? These and many other questions are discussed and answered in *Making the Modern World: Materials and Dematerialization*. Over the course of time, the modern world has become dependent on unprecedented flows of materials. Now even the most efficient production processes and the highest practical rates of recycling may not be enough to result in dematerialization rates that would be high enough to negate the rising demand for materials generated by continuing population growth and rising standards of living. This book explores the costs of this dependence and the potential for substantial dematerialization of modern economies. *Making the Modern World: Materials and Dematerialization* considers the principal materials used throughout history, from wood and stone, through to metals, alloys, plastics and silicon, describing their extraction and production as well as their dominant applications.

The evolving productivities of material extraction, processing, synthesis, finishing and distribution, and the energy costs and environmental impact of rising material consumption are examined in detail. The book concludes with an outlook for the future, discussing the prospects for dematerialization and potential constraints on materials. This interdisciplinary text provides useful perspectives for readers with backgrounds including resource economics, environmental studies, energy analysis, mineral geology, industrial organization, manufacturing and material science.

**Albion's Seed** David Hackett Fischer, 1991-03-14  
This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis

about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

**The Advocate** ,2001-08-14 The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States.

The Games of the Dead Matthew Theisen,2016-06-17 Pablo Nuri, a Guatemalan refugee, has difficulty accepting that the only lasting American tradition is doing what the money tells him to do. Yet as he researches and studies history and stories he happens upon a thread of duality that weaves through the fabric of humanity and he feels compelled to trace the stability and changeability of cultures toward destiny. His wife thinks he should get a real job, but Pablo desires to search and find the Twin Houses representing good and evil because he may be able to unite them for a new creation or transcend both if they cannot be manipulated to do his will. Surely there must be more to existence in America than an amoeba dividing into Ronald Reagan and Charles Manson to mitotically spread images that gather followers to cull the herds of their nominal leaders' opponents. Cell by cell, Pablo believes he is building a freedom to be passed along to the next

generation he thinks is becoming imprisoned at each dimensional level.

**Flashman, Flash for Freedom!, Flashman in the Great Game** George MacDonald Fraser, 2010-02-02  
Three of George MacDonald Fraser's incomparable and hilarious novels featuring the lovable rogue, soldier, cheat, and coward: Harry Paget Flashman. Praised by everyone from John Updike to Jane Smiley, Fraser was an acknowledged master of comedy and satire, an unrivaled storyteller, whose craft was matched only by his impeccable historical research. And his greatest creation was, of course, Flashman. The novels collected here find our hero in the midst of his usual swashbuckling adventures of derring-do: fleeing adversaries in the First Anglo-Afghan War; meeting and nearly deceiving a young Abraham Lincoln in America; alternately impersonating a native Indian cavalry recruit and wooing women in India; and managing, whatever the circumstances, to keep his hero's reputation unsullied. A must-have treat for the legions of dedicated Flashman fans, and a delightful introduction for those lucky enough to be encountering him for the first time.

Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when

- coworkers push their work on you—then take credit for it
- you accidentally trash-talk someone in an email then hit “reply all”
- you're

being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party

Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. **Ridiculous Destiny** Frank Simcoe, 2004 Depressed, out-of-work, out-of-confidence political lawyer E. Everton is walking in a restricted, forested area in Virginia when he encounters three objects he can only describe as moving statues. In an overpowering, almost comically loud voice, they begin telling him preposterous things: That within a few years most of humanity will be dead; that they would like to offer everyone a dying wish; that he should tell others. Though they prove

that, in an odd way, they can grant wishes, they are not remotely interested in explaining who they are, what their motive is, how they operate, or how mankind is supposed to perish. As E. reluctantly takes on the task of spreading the word, he is unwillingly drawn into the halls of power, tapped by the forces of would-be revolution, and enmeshed in an impossible romance. As E.'s journey progresses, thousands of lives begin to change, and even the ancient concepts of death and salvation take a strange, twisted turn.

Churchill: A Drinking Life Gin Sander, Roxanne Langer, 2022-08-23 An intoxicating read. You'll want to consume it twice. -A.J. Baime, New York Times bestselling author of The Accidental President and Dewey Defeats Truman A fun little book packed with historic Churchill information, drinking companions, locations, and preferences, as well as plenty of cocktail recipes! Churchill was seldom short of a witty remark, and made his views on drinking quite well-known: "I have taken far more out of alcohol than alcohol has taken out of me." When feeling down he said he felt like "a bottle of champagne . . . left uncorked for the night." And when encouraging a young government

minister to indulge in another drink, he promised, "Go ahead, I won't write it in my diary." Divided into four sections—Drink Choices, Drinking Companions, Drinking Spots, and Drink Recipes—this book will keep readers turning the pages of fresh and fun material as they lift a drink along with Winston. The book will also focus on the various eras—from the 1910s through the 1960s—the times in which he was drinking alone and with others. Working with the historic companies that kept him refreshed, it will include vintage advertisements and marketing material from their closely guarded archives. Winston certainly drank with a colorful cast of characters, and you'll glimpse those such as FDR, Stalin, Coco Chanel, Charlie Chaplin, the Duke and Duchess of Windsor, and various other kings, queens, dukes, and duchesses. Among the elegant settings we will pop in and out of for a drink include Hearst Castle, Chanel's house in the South of France, the Ritz Hotel in Paris, the Dorchester in London, Monaco, the Savoy, the Biltmore, and of course the bars and first-class cabins of the famed ocean liners the Queen Elizabeth and the Queen Mary. So raise a glass and join us in toasting Churchill's life and unique abilities!
