Many books have been written about this but; you will find this book is special and unique in many respects. In short 'THIS IS AN ACTION BOOK' however even small action will have an impact on society now and in future. Its main theme is 'YOU ARE THE ONLY PERSON WHO CAN AND SHOULD ENSURE YOUR OWN SAFETY.' Definitely, this is not for theoretical knowledge, but practical implementable recipes, which are bound to bring results.

Or that the average duration of distraction was a staggering 135 seconds? Sadly, new, teenage drivers are most at risk for fatal car accidents for two main reasons: Their inexperience driving (which leads to hasty, poor decisions), and Peer pressure from friends (which causes them to make dumb, reckless decisions) They need to understand how to drive safely right from the start, and this book will help you do just that. In fact, we'll detail 49 expert tips, tricks, and advice that any driver--new or old--should be aware of before hitting the road. Who I Am, Why Listen To Me My name is Damian Brindle. I'm a longtime survival blogger with many thousands of readers. Older drivers are also more likely to suffer injuries or die in crashes than drivers in other age groups. These safety issues will increase in significance because older adults represent the fastest-growing U.S. population segment. This report examined: (1) what the fed. gov't. has done to promote practices to make roads safer for older drivers & the extent to which states have implemented those practices; (2) the extent to which states assess the fitness of older drivers & what support the fed. gov't. has provided; & (3) what initiatives selected states have implemented to improve the safety of older drivers. Fleet Driver Safety Todd Soard,Scott Maker,2012-01-17 Most companies that employ a fleet of commercial vehicles look for more than

commercial driver's licenses (CDL) from their drivers. Fleet safety directors want to know that their drivers have the skills to operate safely on the roads, protect themselves from injury and accidents, and best represent the company for which they drive. Fleet Driver Safety is a course developed to provide drivers with these skills and help them meet job requirements for safe driver training. The Fleet Driver Safety course covers defensive driving strategies and incidence avoidance; basic traffic laws and procedures; safe driving practices in different environments and the challenges of driving in severe weather and other extreme conditions' and the use of protective equipment to minimize injuries and accidents.

Safe Young Drivers Phil Berardelli,2008-05-01 Teenagers are by far the most dangerous age group on the road: a 16-year-old is 12 times as likely as older drivers to die in a crash as a single occupant; put two young teens in a vehicle, and the odds of death and injury nearly double. Safe Young Drivers helps to address this enormous problem. It is an indispensable guide for teaching teens to drive. Intended for parents and teens to use together, it addresses parental issues such as how to choose a car for your teen, and provides teens with simple instruction and important tips to remember. With simple graphics, a complete index, and a section called Some ABCs for the Road, Safe Young Drivers is a valuable tool for all new drivers and their teachers.

The Book on Safe Driving Joe Darden,2008-10-06 50 Quick Tips to Keep Yourself, Your Family and Your Employees Safer on the Road. Every year in the US, more than 42,500 people lose their lives and over 2,375,000 are injured as a result of more than 5.9 million reported automobile crashes. The 50, no-nonsense, easy to apply tips described in this book will enable drivers to make safer, more informed decisions every time they get behind the wheel.

Driverthink Frank Miller,2009-06 Driverthink is not just another Go Slow Safe Driving guidebook. Within its pages are reality based driving tips, ideas and suggestions that can literally save your life For too long, the focus on safe driving has been to expound Politically Correct driving concepts that simply don't take into account the Reality of driving a vehicle at high speed on modern roads and highways. Otherwise responsible people don't suddenly shed their responsibility when they slip behind the wheel. But they don't often really think about their driving either. Thus the title Driverthink. In order to be responsible, safe drivers, we need to think about our driving. We need to know our machines, know our limitations, maximize our driving skills and gain driving experience as quickly as possible. Driverthink breaks new ground by exploring each of these areas in lively, entertaining detail. Drive Fast or Drive Slow - but Driverthink when you drive Driverthink is a collection of articles from the popular blog of the same name. Written in a lively and entertaining style, each of the articles explore specific driving situations or issues in detail, offering driving tips, ideas and suggestions on how to deal with the different situations. Driverthink is an excellent review for the seasoned driver and a must read for the

newer, less experienced driver. Driverthink would suggest that Speed may kill, but unskilled driving can definitely kill. Does the average driver even know what over steer or under steer are? Do they know what kind of rear suspension they're driving on? Do they really understand how these most basic driving concepts will affect the handling of their vehicles - especially in an emergency situation? Driving on our roads and highways must be about reality. It is dealing with that reality that will keep us alive. Following standard issue, politically correct advice offered by those with limited skills and no appreciation for the realities of driving, simply doesn't create safer driving. Just Slow Down, might not be the best advice on a highway where even the slow lanes are doing limit plus ten. High speed rear end accidents can really ruin the day and excessively slow driving will most surely restrict traffic flow. Perhaps it's not the best advice after all Driverthink is a most serious effort by the author, to start really saving lives on our Highways and Byways. It will help you to become a much safer Driverthink driver It may even save your life.
