Extending Dynamics 365 Customer Engagement Apps with Low Code Nicolás Andrés Fernández,2023-01-06 Customize your Dynamics 365 customer engagement apps to increase business productivity and customer value at scale using a low-code approach Key FeaturesLeverage Power Apps and customize Dynamics 365 CE apps to implement advanced business case scenariosCreate automation with Power Automate to empower Dynamics 365 CE users to increase their productivityEasily build bots using Power Virtual Agents for both internal and external use casesBook Description Extending Dynamics 365 Customer Engagement Apps with Low Code helps you gain a comprehensive, practical understanding of how a no-code/low-code project approach works for Dynamics 365 (D365) Customer Engagement (CE). This book covers the most relevant native capabilities for configuration, along with real-world scenarios to showcase the magic of extending D365 CE apps with Power Platform. The book starts by identifying different scenarios and use cases to extend D365 CE apps with a low-code approach. You'll learn about the different capabilities of Dataverse and Power Apps used to extend native applications. Next, you'll discover how to leverage Power Apps, both Canvas apps and model-driven apps, and Power Pages, to build apps and portals around D365 CE processes. You'll also explore Power Automate's capabilities to create or modify business processes, as well as incorporate new processes and automation. As you advance, you'll also discover how Power Virtual Agents can be implemented in D365 CE apps. The book concludes by teaching you to integrate Power BI natively with customer engagement, thus facilitating the construction of advanced reports and dashboards. By the end of this book, you'll have gained hands-on expertise in customizing CE apps with Power Platform to deliver more scalable and maintainable solutions. What you will learnLeverage the capabilities of Dataverse and Power Apps to extend Dynamics 365 CE native applicationsCreate Canvas and model-driven apps on top of Dynamics 365 CE applicationsIntegrate AI Builder capabilities with Dynamics 365 CE for advanced solutionsCreate automation with business process flow, cloud flows, and classic workflowsDeploy a chatbot and integrate it with Dynamics 365 CE processesEmbed Power BI dashboards and reports in Dynamics 365 CE appsWho this book is for This book is for Dynamics 365 developers, solutions architects, technical functional consultants, and pre-sales architects working on Dynamics 365 customer engagement who want to customize and extend their customer engagement apps with the power of low-code/no-code technology, and gain practical experience in using Power Platform components to deliver scalable, maintainable, and intelligent solutions to their clients. Working knowledge of Dynamics 365 and basic knowledge of low-code/no-code technology will help you get the most out of this book.

Digital Development of the European Union David Ramiro Troitiño,Tanel Kerikmäe,Ondrej Hamulák,2023-06-20 This edited volume analyses the digital development of the European Union, presenting an interdisciplinary perspective from the disciplines of political science, international relations, economics, and law. The contributions address the main areas where the EU can, and should act, for creating an efficient and protective digital space in Europe. The book highlights the responsibility of the European Union to work on the future of its digital development, looking for prosperity and defending the European conception of society. It explains how European values must be incorporated into the digital revolution and shows how the digital revolution of the EU will defend the Europeans from new threats. The book's comprehensive approach allows the reader to understand this process without in-depth knowledge of the specific discipline. Therefore, it is a must-read for everybody interested in a better understanding of digital development, European Union policy, and the future of Europe.

Digital Organization Tips for Music Teachers Robby Burns,2016-09-01 Are you a music teacher searching for sanity in the midst of all your chaotic responsibilities? Music teachers have to do so much more than teach music. They have to be master musicians, educators, and conductors, all while balancing other professional disciplines like arranging, composing, trip planning, financing, and more. The parts of the job that take our sights off of great teaching must be managed so that we can focus on what counts: the music. If you are feeling overwhelmed by the logistics of your job, you are in luck- there is an app for that! Actually, a lot of apps. And Digital Organization Tips for Music Teachers is here to tell you all about them. Whether you can barely turn your computer on or if you are just looking for tips on how to make your work more efficient, there is something in store for you. The technologies in this book are presented in bite sized descriptions of desktop and mobile apps, followed by applications of how they can solve specific problems that music teachers experience every day. Each chapter covers a different type of data that music teachers have to organize, ranging from notes, to tasks, to scores and audio recordings.

Advances in Human Aspects of Transportation Neville Stanton,2020-06-30 This book discusses the latest advances in the research and development, design, operation, and analysis of transportation systems and their corresponding infrastructures. It presents both theories and case studies on road and rail, aviation, and maritime transportation. Further, it covers a wealth of topics, from accident analysis, intelligent vehicle control, and human-error and safety issues to next-generation transportation systems, model-based design methods, simulation and training techniques, and many more. Special emphasis is placed on smart technologies and automation in transport, as well as the user-centered, ergonomic, and sustainable design of transportation systems. The book, which is based on the AHFE 2020 Virtual Conference on Human Aspects of Transportation, held on July 16–20, 2020, mainly addresses the needs of transportation system designers, industrial designers, human–computer interaction researchers, civil and control engineers, as well as vehicle system engineers. Moreover, it represents a timely source of information for transportation policy-makers and social scientists whose work involves traffic safety, management, and sustainability issues in transport.
