The Fossil Door Celia Lake,2021-02-05 Enjoy this kind and gentle historical fantasy romance exploring the magical community of Great Britain after the Great War. Rathna has a gift for doorways. When a portal in the Scottish Highlands stops working, she is one of the only Portal Keepers able to travel to investigate. On the other hand, the location presents some challenges. As a London-born Bengali woman, she's nothing like the villagers. And of course, there's the worrying question: why did this portal stop working? It shouldn't have done that. Gabe was born to fling himself at a challenge. Gabe was born into an aristocratic family, and he's used to everything coming easily. Everything, that is, but recovery from a life-changing injury in 1918. Fortunately, he's recently finished training as one of Albion's investigators, and he can throw himself entirely into his work. He has a new landscape to explore, wildlife to see, ponies to ride, and magic to untangle. There's plenty to keep his quicksilver mind busy. Perhaps there are too many problems. Rathna is prickly, giving him little to work with. There are threatening noises from the mountaintop nearby. Rathna is even more distant when she gets news from home of a mysterious man asking about her. Somehow they must learn to work together, understand the local needs, and repair the portal, all while avoiding the wrath of the legendary beithir. The Fossil Door is the second book of the Mysterious Powers series, exploring the

institutions of Albion during and after the Great War. All of Celia Lake's Albion books exploring the magical community of the British Isles can be read in any order. It is full of geology, folklore, an ADHD hero, family of choice, and a multicultural romance between characters from very different backgrounds. Enjoy this charming romantic fantasy with a swirl of sex set in 1920 with a happily ever after ending! Keywords: investigator, magic, portal, ADHD hero, Bengali, Jewish, aristocrat, lord, injury, fossils, geology, folklore, serpent, dragon, cave, Great War, World War I, no cliffhangers, happily ever after, guaranteed HEA, Wales, Great Britain, British Isles fantasy, romance, fantasy romance, romantic fantasy, historical fantasy, historical romance, romance with magic.

Toy Cannon Jimmy Wynn, Bill McCurdy, 2014-01-10 Despite the pressures of racism and a troubled personal life, Jimmy "The Toy Cannon" Wynn achieved remarkable success as a major league player. In a career that stretched from 1963 to 1977, he slugged 291 home runs, 223 of them in Houston ballparks (Colt Stadium, the Astrodome) notoriously unfriendly to power hitters. A strong-armed, speedy outfielder, Wynn was also adept at getting on base (seven times in the top 10 for on-base percentage) and then swiping a bag (225 career steals). This memoir recounts his triumphs and struggles in detail.
