**Reintroduction of Top-Order Predators** Matt W. Hayward,Michael Somers,2009-05-06 Large predators are among the most threatened species on the planet and ways of conserving them in the face of increasing human populations and associated resource requirements are becoming critical. This book draws upon the experiences of some of the world’s foremost large carnivore specialists to discuss the numerous issues associated reintroducing large predators back into their natural habitats. Reviews of internationally renowned reintroduction programs for wolves, European lynx and African wild dog reveal the successes and failures of these actions. Experts on tigers, snow leopards and jaguars contend that there are other conservation options of higher priority that will ensure their security in the long-term. Other experts discuss more theoretical aspects such as whether we know enough about these species to be able to predict their behavioural or ecological response to the reintroduction process. Social, economic, political and genetic considerations are also addressed.

**General Statutes of New Jersey** New Jersey,Garret Dorset Wall Vroom,William Mershon Lanning,2005 This compilation succeeded the previous edition of 1877. Two-and-a-half times the size of its predecessor, it records the greatest increase in public general legislation between any two consecutive compilations in New Jersey's history. Its bulk pays witness to the state's rapid growth during the nineteenth century and its engagement with the forces of modernity. Such topics as Usury and Militia in 1877 are redefined as Interest and National Guard; new additions include laws dealing with labor arbitration, civil rights and occupational safety. Luce's Table of Statutes, an invaluable tool originally published separately in 1900, is included in Volume I. Our reprint also has a detailed table of contents, a feature that was not included in the original work.
