Anthony J. Rhem

Dude, Where's My Car-Tharsis? Phil Stark, 2022
Screenwriter (Dude, Where's My Car?) turned therapist (Dude, Where's My Car-tharsis?) Phil Stark writes about mental health and personal growth as experienced through the process of talk therapy. Are you feeling depressed? Anxious? Or depressed and anxious? Reading this book might make you feel better. The experience of talk therapy helps people deal with these strong emotions and resolve their issues with them. Catharsis means the process of releasing, and thereby providing relief from, strong or repressed emotions. Sounds good, right? But it doesn't happen overnight. The process is a journey, and reading this book is one step along the way.

Where Is My Flying Car? J. Storrs Hall, 2021-11-30 From an engineer and futurist, an impassioned account of technological stagnation since the 1970s and an imaginative blueprint for a richer, more abundant future The science fiction of the 1960s promised us a future remade by technological innovation: we'd vacation in geodesic domes on Mars, have meaningful conversations with computers, and drop our children off at school in flying cars. Fast-forward 60 years, and we're still stuck in traffic in gas-guzzling sedans and boarding the same types of planes we flew in over half a century ago. What happened to the future we were promised? In *Where Is My Flying Car?*, J. Storrs Hall sets out to answer this deceptively simple question. What starts as an examination of the technical limitations of building flying cars evolves into

an investigation of the scientific, technological, and social roots of the economic stagnation that started in the 1970s. From the failure to adopt nuclear energy and the suppression of cold fusion technology to the rise of a counterculture hostile to progress, Hall recounts how our collective ambitions for the future were derailed, with devastating consequences for global wealth creation and distribution. Hall then outlines a framework for a future powered by exponential progress—one in which we build as much in the world of atoms as we do in the world of bits, one rich in abundance and wonder. Drawing on years of original research and personal engineering experience, *Where Is My Flying Car?*, originally published in 2018, is an urgent, timely analysis of technological progress over the last 50 years and a bold vision for a better future.

Moore, 2004-06-17 He's the man everyone's talking about. He's taken on gun freaks, stupid white men and corporate crooks. Now Michael Moore is on a new mission: to get us of our behinds and kicking out the corrupt political elites who rule our lives.

Dude, Where's My Fox? Kyell Gold, 2014-11-01

Lonnie's slept with exactly two guys in his life: his ex-boyfriend of three years Steven, and the fox he just hooked up with while drunk at a party. The fox didn't leave his name, just his scent in

Lonnie's fur—but a scent is enough for a wolf to follow a trail. With his friends Derek the gym wolf and Jeremy the fashionplate rat helping him, Lonnie will learn lessons of dating, sex, and trust, and maybe he'll find the fox whose scent is just right before the clock chimes midnight.

The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. –Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most

to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

The Negro Motorist Green Book Victor H. Green, The idea of The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Reading the Bromance Michael DeAngelis, 2014-06-01 In the middle of this century's first decade, "bromance" emerged as a term denoting an emotionally intense bond between straight men. Yet bromance requires an expression of intimacy that always toys with being coded as something other than "straight" male behavior, even as it insists that such intimacy must never be misinterpreted. In Reading the Bromance: Homosocial Relationships in Film and Television, editor Michael DeAngelis has compiled a diverse group of essays that address the rise of this tricky phenomenon and explore the social and cultural functions it serves. Contributors consider selected contemporary film and television texts, as well as the genres that historically

inspired them, in order to explore what needs bromance attempts to fulfill in relationships between men—straight or otherwise. Essays analyze films ranging from *I Love You, Man* to *Superbad*, *Humpday*, *I Now Pronounce You Chuck and Larry*, *The Hangover*, and the *Jackass* films, and include studies of representative examples in international cinema such as *Y tu mamá también* and classic and contemporary films of the Bollywood genre. The volume also examines the increasingly prevalent appearance of the bromance phenomenon in television narratives, from the “male bonding” rituals of *Friends* and *Seinfeld* to more recent manifestations in *House*, *The Wire*, and the MTV reality series *Bromance*. From historical analysis to discourse analysis, sociological analysis, and queer theory, this volume provides a broad range of methodological and theoretical approaches to the phenomenon in the first booklength study of the bromance genre. Film and television scholars as well as readers interested in pop culture and queer studies will enjoy the insights of *Reading the Bromance*.

For the Love of Men Liz Plank, 2019-09-10 A nonfiction investigation into masculinity, *For The Love of Men* provides actionable steps for how to be a man in the modern world, while also exploring how being a man in the world has evolved. In 2019, traditional masculinity is both rewarded and sanctioned. Men grow up being told that boys don't cry and dolls are for girls (a newer phenomenon than you might realize—gendered toys came back in vogue as recently as the 80s). They learn they must hide their feelings and anxieties, that their

masculinity must constantly be proven. They must be the breadwinners, they must be the romantic pursuers. This hasn't been good for the culture at large: 99% of school shooters are male; men in fraternities are 300% (!) more likely to commit rape; a woman serving in uniform has a higher likelihood of being assaulted by a fellow soldier than to be killed by enemy fire. In *For the Love of Men*, Liz offers a smart, insightful, and deeply-researched guide for what we're all going to do about toxic masculinity. For both women looking to guide the men in their lives and men who want to do better and just don't know how, *For the Love of Men* will lead the conversation on men's issues in a society where so much is changing, but gender roles have remained strangely stagnant. What are we going to do about men? Liz Plank has the answer. And it has the possibility to change the world for men and women alike.

Dad, How Do I? Rob Kenney, 2021-05-18 "Like the YouTube channel, this is a touching yet informative guide for those seeking fatherly advice, or even a few good dad jokes." – Library Journal

Stoned David Casarett M.D., 2015-07-14 A doctor discovers the surprising truth about marijuana No substance on earth is as hotly debated as marijuana. Opponents claim it's dangerous, addictive, carcinogenic, and a gateway to serious drug abuse. Fans claim it as a wonder drug, treating cancer, anorexia, AIDS, chronic pain, glaucoma, arthritis, migraines, PTSD, and insomnia. Patients suffering from these conditions need—and deserve—hard facts based on medical

evidence, not hysteria and superstition. In *Stoned*, palliative care physician Dr. David Casarett sets out to do anything—including experimenting on himself—to find evidence of marijuana’s medical potential. He smears mysterious marijuana paste on his legs and samples pot wine. He poses as a patient at a seedy California clinic and takes lessons from an artisanal hash maker. In conversations with researchers, doctors, and patients around the world he learns how marijuana works—and doesn’t—in the real world. Dr. Casarett unearths tales of near-miraculous success, such as a child with chronic seizures who finally found relief in cannabidiol oil. In Tel Aviv, he learns of a nursing home that’s found success giving marijuana to dementia patients. On the other hand, one patient who believed marijuana cured her lung cancer has clearly been misled. As Casarett sifts the myth and misinformation from the scientific evidence, he explains, among other things: • Why marijuana might be the best treatment option for some types of pain • Why there’s no significant risk of lung damage from smoking pot • Why most marijuana-infused beer or wine won’t get you high Often humorous, occasionally heartbreaking, and full of counterintuitive conclusions, *Stoned* offers a compassionate and much-needed medical practitioner’s perspective on the potential of this misunderstood plant.

Dude, You're Gonna Be a Dad! John

Pfeiffer, 2011-03-18 There are approximately 3,712 ways for a guy to look stupid during pregnancy - this book's here to help you avoid all (most) of them. And here's your first hint: Focus on what you can be doing for her rather than what's happening to her. She's pregnant. She knows that. You know that. And her 152 baby books tell her exactly what she can expect. Your job is to learn what you can do between the stick turning blue and the drive to the delivery room to make the next nine months go as smoothly as possible. That's where John Pfeiffer steps in. Like any good coach, he's been through it. He's dealt with the morning sickness and doctor visits, painting the baby's nursery and packing the overnight bag, choosing a name, hospital, and the color of the car-seat cover. All the while he remained positive and responsive - there with a You're beautiful when

necessary - but assertive during the decision-making process (he didn't want to wind up with a kid named Percy). And now it's your turn. She might be having the baby, but you have plenty of responsibilities.

Dude, Where's My Car Seat? Bella Ray, Dorian Schwartz, 2022-03-16 From the moment Mama Sloth wakes up in the morning to take care of her little one, she can barely catch a break. Trying to get Baby Sloth out of the house, and onto the next activity is no easy task. Sloths are known to move slowly, which makes her race against time a challenge unto itself. Can they make it back home before naptime?
