The humans swept between realities with them scavenge and hide. But others are hunting the humans - orc slavers. Orc slavers apparently equipped by DragonCorp. Where are they taking the slaves? And why? What is the purpose of Site A and Site B? Is there a connection to the trio of strange lights in the sky? The search for answers finds Trix, Yuri, Shen and Elly facing forest horrors, plagues of zombies, and the mechanical sentinels of a city sealed for millennia. Yet something worse is coming. To save Yillarnya First Contact must be made with its military leaders. But the three factions have themselves been driven to the brink of war. An enemy thought dead has returned. The game goes on. The only rule: survive.

The Game Master's Book of Random Encounters Jeff Ashworth,2020-09-15 For many tabletop RPG players, the joy of an in-depth game is that anything can happen. Typical adventure modules include a map of the adventure's primary location, but every other location?whether it's a woodland clearing, a random apothecary or the depths of a temple players elect to explore?has to be improvised on the fly by the Game Master. As every GM knows, no matter how many story hooks, maps or NPCs you painstakingly create during session prep, your best-laid plans are often foiled by your players' whims, extreme skill check successes (or critical fails) or their playful refusal to stay on task. In a game packed with infinite possibilities, what are GMs supposed to do when their players choose those for which they're not prepared? The Game Master's Book of Random Encounters provides an unbeatable solution. This

massive tome is divided into location categories, each of which can stand alone as a small stop as part of a larger campaign. As an example, the "Taverns, Inns, Shops & Guild Halls" section includes maps for 19 unique spaces, as well as multiple encounter tables designed to help GMs fill in the sights, sounds, smells and proprietors of a given location, allowing for each location in the book to be augmented and populated on the fly while still ensuring memorable moments for all your players. Each map is presented at scale on grid, enabling GMs to determine exactly where all of the characters are in relation to one another and anyone (or anything) else in the space, critical information should any combat or other movement-based action occur. Perhaps more useful than its nearly 100 maps, the book's one-shot generator features all the story hooks necessary for GMs to use these maps as part of an interconnected and contained adventure. Featuring eight unique campaign drivers that lead players through several of the book's provided maps, the random tables associated with each stage in the adventure allow for nearly three million different outcomes, making The Game Master's Book of Random Encounters an incredible investment for any would-be GM. The book also includes a Random NPC Generator to help you create intriguing characters your players will love (or love to hate), as well as a Party Makeup Maker for establishing connections among your PCs so you can weave together a disparate group of adventurers with just a few dice rolls. Locations include taverns, temples, inns, animal/creature lairs, gatehouses, courts, ships, laboratories and more, with adventure hooks that run the gamut from frantic rooftop chases to deep cellar dungeon-crawls, with a total of 97 maps, more than 150 tables and millions of possible adventures. No matter where your players end up, they'll have someone or something to persuade or deceive, impress or destroy. As always, the choice is theirs. But no matter what they choose, with The Game Master's Book of Random Encounters, you'll be ready.

Dungeon Duel Eden Hudson, James Hunter, 2021-03-12 Build. Evolve. Conquer. Welcome to a whole new kind of Boss Battle... Roark von Graf fought his way up from the bottom to become not only the Dungeon Lord of the Cruel Citadel, but the leader of the Troll Nation, making underhanded alliances with other dungeons and players along the way. Until now, he's only had to worry about his enemies attacking from inside the game. But Lowen, the Tyrant King's right-hand man, has found a way to attack the players in league with Roark IRL, laying siege to the company that keeps Hearthworld's servers running and capturing the very Devs who can take Roark apart byte by byte. To stop Lowen and his Divine armies once and for all, Roark will have to drag the magics of the game into the real world, harness deadly new technologies, and build dungeons in places no Dungeon Lord has ever gone before. The fate of Earth hangs in the balance. The duel between Dungeon Lords has begun. And one of them isn't leaving Hearthworld alive... From James A. Hunter-author of Bibliomancer, Shadowcroft Academy for Dungeons, and Viridian Gate Online-and eden Hudson, author of Path of the Thunderbird and Death Cultivator, comes the fifth installment in the bestselling Rogue Dungeon series!

The Grinding Matt Dinniman,2013-10-17 COMING IN LATE SEPTEMBER 2013 Six months ago, the world watched in horror as we lost an American city. The Grinder. That's what the survivors of Tucson called the monster. Just one touch, and they became a part of it. It used their bodies as limbs and as weapons. In just a matter of hours, it became huge, a towering monstrosity made entirely out of tens of thousands of people and animals. This isn't behind-the-scenes bullshit from the point of view of the military. This isn't yet another conspiracy theory about what really happened to Air Force One that night, or about the decision to nuke Tucson. This is a

rare, eyewitness account. But most importantly, it is the terrifying truth.

Shadowcroft Academy For Dungeons Aaron Michael Ritchey, James Hunter, 2021-09-14 Build a Dungeon. Slay Heroes. Survive Finals. After narrowly surviving his first year at Shadowcroft Academy for Dungeons, Logan Murray-army vet turned fungaloid-thought the hardest and weirdest days of his life were finally behind him. Logan has never been that lucky. Students are being killed, more so than usual, and no one is quite sure why-though Logan and the Terrible Twelfth suspect it has something to do with Arborea's secretive past. Worse, solving the mystery is only one of Logan's many problems. His cultivation has stalled, he's positive Prince Chadrigoth is trying to murder him, and there's all his new classes to consider, like Best Friends Forever: Your Minions and You and Offensive Dungeon Design: When the Best Defense is a Good Offense. Logan didn't survive his first year by giving up when the going got tough, though, and he has no intention of rolling over this time around. All he needs to do is level up his core, advance to his next monstrous evolution, unravel a mystery as old as the school itself, and put the smackdown on a demonic bully with murder on his mind. You know, just another ordinary year at good ol' Shadowcroft. From James A. Hunter-bestselling author of *Rogue Dungeon*, *Bibliomancer* (Completionist Chronicles Expanded Universe), and the LitRPG epic *Viridian Gate Online*-and Dragon Award Finalist Aaron Michael Ritchey, comes a brand new *Dungeon Core* series, like nothing you've ever seen before.
