Schengen Investigated Chantal Joubert,Hans Bevers,1996-06-03 Knjiga je plod petletnega raziskovanja prava, na podlagi katerega deluje policija petih držav (Belgije, Nizozemske, Luksemburga, Francije in Nemčije), ter možnega vpliva medsebojnih razlik na uporabo Schengenske konvencije. Primerjalna predstavitev schengenskih predpisov o mednarodnem policijskem sodelovanju glede na Evropsko konvencijo o človekovih pravicah namenja posebno pozornost policijskim pooblastilom, ki pomenijo eno od najbolj izpostavljenih in odmevnih področij policijskega čezmejnega sodelovanja (opazovanje, zasledovanje, uporaba sile, lisice, orožje, aretacija, telesna preiskava, policijsko zaslišanje, kontrola identitete, pravna pomoč itd.).

The Dutch Resistance 1940–45 Klaas Castelein,Michel Wenting,2022-04-28 Describes and illustrates the full range of Dutch resistance groups and German and collaborationist counter-resistance groups during the Nazi occupation in 1940-45. The Nazi occupation of the Netherlands in World War II followed a complex course, whose scope is not widely understood. It was a great deal broader and more varied than the much-reported German counter-espionage success against Dutch agents parachuted in by the Special Operations Executive. From spring 1943 onwards, three Dutch Resistance organizations gained momentum: the Order Service (OD), the Resistance Council (RVV), and the National Assault Teams (LKP). In response, the Germans raised collaborationist forces to counter the Resistance, including the much-feared Landwacht. In September 1944 the OD, RVV and LKP amalgamated into the Netherlands Interior Forces (NBS), while Allied troops began to liberate the southern provinces. This allowed NBS forces in the south to form Stoottroepen, uniformed and armed by both the British and US armies. These assisted the Allied advance, while a bloody underground struggle continued in the occupied north until final liberation in April-May 1945. Illustrated with rare photos and new colour plates, this book gives a comprehensive account of one of the lesser-known struggles of World War II.

Contemporary Perspectives on the Detection, Investigation and Prosecution of Art Crime Duncan Chappell,Saskia Hufnagel,2016-05-13 In the world of law enforcement art and antiquity crime has in the past usually assumed a place of low interest and priority. That situation has now slowly begun to change on both the local and international level as criminals, encouraged in part by the record sums now being paid for art treasures, are now seeking to exploit the art market more systematically by means of theft, fraud and looting. In this collection academics and practitioners from Australasia, Europe and North America combine to examine the challenges presented to the criminal justice system by these developments. Best practice methods of detecting, investigating, prosecuting and preventing such crimes are explored. This book will be of interest and use to academics and practitioners alike in the areas of law, crime and justice.

What Matters in Policing? van Dijk, Auke,Hoogewoning, Frank,Maurice Punch,2015-08-19 Studies of policing tend to focus on effectiveness—on what works—rather than on the more important question of what matters, of why policing should be done in particular ways or reformed or restructured. This book explores that angle, looking at the implications of recent restructurings in the United States, the United Kingdom, and the Netherlands, with a special emphasis on the dilemmas faced by police leadership as they confront change.

Stress in Policing Ronald J. Burke,2016-07-01 Stress in policing remains a serious concern for individual officers, their families, their organizations and society at large. As an editor of the Psychological and Behavioural Aspects of Risk series, Ronald J. Burke brings together the latest research findings and intervention strategies, shown to be effective, by an international group of experts. The contributors comprise of a group of high profile researchers and writers who are experts in their respective fields. This edited collection addresses such issues as: The increased risk of international terrorism Racial profiling Police Culture Police integrity Police suicide Inadequate police training The work of police officers exposes them to sources of stress that increase several risks in terms of their psychological and physical health, their family relationships, physical injuries, emotional trauma, ambiguity about their roles in society. Shift work, and undercover work add additional burdens to officers and their families. Police work also places risks on the communities in which officers serve in terms of officers being inadequately trained to deal with mentally ill citizens.

The Dutch Approach in Tackling Ec Fraud Marcus S. Groenhuijsen,Martha Ingrid Veldt,1995-07-07 In The Dutch Approach in Tackling EC Fraud the editors provide information about the Dutch criminal and administrative systems and about the way in which the Netherlands protects the financial interests of the European Community. The first part of this book consists of an overview of the Dutch criminal system by introducing its main participants: the judge, the public prosecutor, the police and the lawyer. Special attention is paid to administrative and penal sanctions. The second part examines the role of customs, the special enforcement agencies, the police of the Ministry of Justice and the Ministry of Agriculture involved in the fight against EC fraud, and the difficulties arising from administrative and judicial cooperation while protecting the financial interests of the EC.

The Palgrave Handbook on Art Crime Saskia Hufnagel,Duncan Chappell,2019-06-27 This handbook showcases studies on art theft, fraud and forgeries, cultural heritage offences and related legal and ethical challenges. It has been authored by prominent scholars, practitioners and journalists in the field and includes both overviews of particular art crime issues as well as regional and national case studies. It is one of the first scholarly books in the current art crime literature that can be utilised as an immediate authoritative reference source or teaching tool. It also includes a bibliographic guide to the current literature across interdisciplinary boundaries. Apart from legal, criminological, archeological and historical perspectives on theft, fraud and looting, this volume contains chapters on iconoclasm and graffiti, underwater cultural heritage, the trade in human remains and the trade, theft and forgery of papyri. The book thereby hopes to encourage scholars from a wider variety of disciplines to contribute their valuable knowledge to art crime research.

The Special Constabulary Karen Bullock,Andrew Millie,2017-07-06 Special constables are warranted officers retained within British constabularies. Wearing similar uniforms, carrying the same personal protective equipment and holding identical powers to enforce the criminal law, special constables are to all intents and purposes indistinguishable from their colleagues in the regular police service. However, very little is documented about the experiences and motivations of special constables, the roles they play in contemporary policing or the impact that they have on the police organisation. This book draws together academics and practitioners to provide a valuable insight into historical, international and contemporary themes pertinent to the historical development and contemporary operation of the special constabulary. The book critically considers the origins of the special constabulary and the political, social and economic factors which led to its evolution over time. It compares and contrasts the organisation, functions and status of the special constabulary with other auxiliary forces, notably from the United States. The book also contributes to theoretical understanding of contemporary policing, to debates about the roles and operation of the 'mixed economy' of provision, and informs policy and practice in the United Kingdom and beyond.
