American Photography Vicki Goldberg,Robert Silberman,1999 This beautiful and informative photographic history includes images from 1900 to 1999. Many are often seen (bullet piercing the apple, splashing crown of milk, Sophia Loren looking askance at Jayne Mansfield's plunging decollete, and Dorothea Lange's Migrant Mother); but most are probably unknown, because the photos were selected not only for their visual and cognitive qualities but also for their importance to the history and development of photographic technique and usage. The century is divided into thirds for explanation's sake, and there is at least one photograph for every year. While this is a picture book, the accompanying text provides informative introductions to the uses and abuses of perhaps the century's most important medium. The book is companion to the PBS series. The Continuum Encyclopedia of American Literature Steven R. Serafin,Alfred Bendixen,2005-09-01 More than ten years in the making, this comprehensive single-volume literary survey is for the student, scholar, and general reader. The Continuum Encyclopedia of American Literature represents a collaborative effort, involving 300 contributors from across the US and Canada. Composed of more than 1,100 signed biographical-critical entries, this Encyclopedia serves

as both guide and companion to the study and appreciation of American literature. A special feature is the topical article, of which there are 70.

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert, Erma Hermens, Marja Peek, 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.
