Zoo Animal Welfare Terry Maple, Bonnie M Perdue, 2013-03-22 *Zoo Animal Welfare* thoroughly reviews the scientific literature on the welfare of zoo and aquarium animals. Maple and Perdue draw from the senior author's 24 years of experience as a zoo executive and international leader in the field of zoo biology. The authors' academic training in the interdisciplinary field of psychobiology provides a unique perspective for evaluating the ethics, practices, and standards of modern zoos and aquariums. The book offers a blueprint for the implementation of welfare measures and an objective rationale for their widespread use. Recognizing the great potential of zoos, the authors have written an inspirational book to guide the strategic vision of superior, welfare-oriented institutions. The authors speak directly to caretakers working on the front lines of zoo management, and to the decision-makers responsible for elevating the priority of animal welfare in their respective zoo. In great detail, Maple and Perdue demonstrate how zoos and aquariums can be designed to achieve optimal standards of welfare and wellness.

Halloween at the Zoo George White, Jason O'Malley, Bruce Foster, 2007-01-01

The Central Park Zoo Joan Scheier, 2002-08-21
Countless New Yorkers, as well as visitors from all parts of the world, have experienced an oasis just a few feet off Fifth Avenue in the heart of Manhattan. Since the 1860s, Central Park has been the home of three different zoos: the menagerie, the zoo of 1934, and what is today known as the

Central Park Zoo. The Central Park Zoo begins with the menagerie of the 1860s, an impromptu public zoo begun when citizens and circuses started donating animals to the city. It continues in 1934, when Robert Moses-perhaps the most influential man in the city's planning history-built a newer zoo, remembered to this day for its lions, tigers, elephants, and gorillas. It ends with the brand new zoo and exhibits built in 1988 under the supervision of the Wildlife Conservation Society. With stunning, rarely seen images, The Central Park Zoo not only is a treat for the eyes but also comes alive with the barking of sea lions, the soft fur of snow monkeys, the sweet smell of peanut butter, and the taste of ice cakes-treats for the zoo residents, of course.

Zoo Animals Geoff Hosey,Vicky Melfi,Sheila Pankhurst,2009-01-08 **Zoo Animals: Behaviour, Management and Welfare** addresses the key questions surrounding the keeping of zoo animals, and reveals how we can apply our ever-growing understanding of animal behaviour to ensure zoo animals are managed as effectively as possible, without their health and welfare being compromised.

Zoo Bernard Livingston,2000-11-07 In this book, 200, the author, Bernard Livingston will present a study of this world which treats it as social history. But the style will be a light-handed one similar to that of his previous social study, *Their Turf*, the story of the world of the racehorse and the people involved therein. It is to be hoped that the fun, drama, humor and yes,

enlightenment inherent in the world of the zoo will not be lacking in this work.

Sci-Tech Libraries Serving Zoological Gardens

Ellis Mount,1988 In response to the general lack of information about zoo libraries, Editor Ellis Mount has compiled a fascinating collection of descriptions of the libraries serving six American zoos. The accounts of zoo libraries in this unique book include the National Zoological Park in Washington, DC, the Lincoln Park Zoo in Chicago, and the Minnesota Zoological Garden Library in St. Paul. The contributors detail the types of collections and services offered at zoo libraries. In addition, a survey made of 78 American zoo libraries is included, including information about their staffs, facilities, collections, and services, as well as data on 32 archive collections.

The Park and the People Roy Rosenzweig,Elizabeth Blackmar,1992 Delineate the politicians, business people, artists, immigrant laborers, and city dwellers who are the key players in the tale. In tracing the park's history, the writers also give us the history of New York. They explain how squabbles over politics, taxes, and real estate development shaped the park and describe the acrimonious debates over what a public park should look like, what facilities it should offer, and how it should accommodate the often incompatible.

Zoo and Aquarium History Vernon N.

Kisling,2000-09-18 As one of the world's most popular cultural activities, wild animal collections have been attracting visitors for 5,000 years. Under the direction of Vernon N.

Kisling, an expert in zoo history, an international team of authors has compiled the first comprehensive, global history of animal collections, menageries, zoos, and aquariums. Zoo and Aquar

Mammals of Africa Jonathan Kingdon, David Happold, Thomas Butynski, Michael Hoffmann, Meredith Happold, Jan Kalina, 2013-05-23 *Mammals of Africa* (MoA) is a series of six volumes which describes, in detail, every currently recognized species of African land mammal. This is the first time that such extensive coverage has ever been attempted, and the volumes incorporate the very latest information and detailed discussion of the morphology, distribution, biology and evolution (including reference to fossil and molecular data) of Africa's mammals. With 1,160 species and 16 orders, Africa has the greatest diversity and abundance of mammals in the world. The reasons for this and the mechanisms behind their evolution are given special attention in the series. Each volume follows the same format, with detailed profiles of every species and higher taxa. The series includes some 660 colour illustrations by Jonathan Kingdon and his many drawings highlight details of morphology and behaviour of the species concerned. Diagrams, schematic details and line drawings of skulls and jaws are by Jonathan Kingdon and Meredith Happold. Every species also includes a detailed distribution map. Extensive references alert readers to more detailed information. Volume I: Introductory Chapters and Afrotheria (352 pages) Volume II: Primates (560 pages) Volume III: Rodents, Hares and Rabbits (784 pages) Volume IV:

Hedgehogs, Shrews and Bats (800 pages) Volume V: Carnivores, Pangolins, Equids and Rhinoceroses (560 pages) Volume VI: Pigs, Hippopotamuses, Chevrotain, Giraffes, Deer and Bovids (704 pages)

Visualizing Africa in Nineteenth-Century British Travel Accounts Leila Koivunen, 2008-11-19 This study examines and explains how British explorers visualized the African interior in the latter part of the nineteenth century, providing the first sustained analysis of the process by which this visual material was transformed into the illustrations in popular travel books. At that time, central Africa was, effectively, a blank canvas for Europeans, unknown and devoid of visual representations. While previous works have concentrated on exploring the stereotyped nature of printed imagery of Africa, this study examines the actual production process of images and the books in which they were published in order to demonstrate how, why, and by whom the images were manipulated. Thus, the main focus of the work is not on the aesthetic value of pictures, but in the activities, interaction, and situations that gave birth to them in both Africa and Europe.

Lukas,2016 Themed spaces have, at their foundation, an overarching narrative, symbolic complex, or story that drives the overall context of their spaces. Theming, in some very unique ways, has expanded beyond previous stereotypes and oversimplifications of culture and place to now consider new and often controversial topics, themes, and storylines.--Publisher's website.
