Boys Don't Try? Rethinking Masculinity in Schools Matt Pinkett,Mark Roberts,2019-04-05 There is a significant problem in our schools: too many boys are struggling. The list of things to concern teachers is long. Disappointing academic results, a lack of interest in studying, higher exclusion rates, increasing mental health issues, sexist attitudes, an inability to express emotions.... Traditional ideas about masculinity are having a negative impact, not only on males, but females too. In this ground-breaking book, Matt Pinkett and Mark Roberts argue that schools must rethink their efforts to get boys back on track. Boys Don't Try? examines the research around key topics such as anxiety and achievement, behaviour and bullying, schoolwork and self-esteem. It encourages the reader to reflect on how they define masculinity and consider what we want for boys in our schools. Offering practical quick wins, as well as long-term strategies to help boys become happier and achieve greater academic success, the book: offers ways to avoid problematic behaviour by boys and tips to help teachers address poor behaviour when it happens highlights key areas of pastoral care that need to be recognised by schools exposes how popular approaches to engaging boys are actually misguided and damaging details how issues like disadvantage, relationships, violence, peer pressure, and pornography affect boys' perceptions of masculinity and how teachers can challenge these. With an easy-to-navigate three-part structure for each chapter, setting out the stories, key research, and practical solutions, this is essential reading for all classroom teachers and school leaders who are keen to ensure male students enjoy the same success as girls.

Lost on Earth Steve Crombie,2010-09-01 “The only way I am coming home is by bike or by box,” Steve Crombie writes when he first hits the road, travelling 90,000kms from Australia to the Arctic Circle via South America. It takes him two years. He suffers from dehydration, starvation and disease. He rebuilds his motorcycle four times. Along the way Steve not only tests his limits but meets the world head on - waking up behind iron bars in Tierra Del Fuego; traversing the length of the Amazon with a 260 kilogram motorcycle in tow; evading pumas in Guyana; skimming across the Caribbean on a yacht with wanted criminals; dodging bullets in Nicaragua and finally paddling a few laps in the Arctic Ocean.

Earth's Catastrophic Past and Future William Hutton,Jonathan Eagle,2004-08 Edgar Cayce, America's best documented psychic, gave upwards of 44 readings that dealt with lost continents, geophysical changes to Earth beginning 1958-1998, and a pole shift due to begin about now. In this book, geologist William Hutton and researcher Jonathan Eagle look for correspondences between results of geophysical research studies and psychic descriptions of prehistoric catastrophes. They also seek scientifically to test readings' predictions of catastrophic Earth changes, all the while investigating the following fascinating subjects: * Development and calibration of a comprehensive pole-shift model * The countries predicted to be most affected by a sudden, 1° pole shift. * The geologic trend for a mineralized gold vein at Bimini, Bahamas. * The authors' discoveries of correlations between: - a 2002 arctic earthquake and the eruption of torrid-area volcanoes, - the dropping of atom bombs in 1945 and a significant increase in sunspots following, and - the peaceable nature of Europe in 1645-1715 and the period's near total lack of sunspots. (Cayce readings implied or predicted all three phenomena.) * The first-ever analysis of the sources of Cayce's channeled readings, including a ranking of the veracity and reliability of the most important Earth changes and pole-shift readings. * Moralistic reasons for future catastrophic geophysical changes to Japan, China, and America. * Locations of post-pole-shift safety lands in Canada and America. * Locations of the records of the Atlantean civilization, to be found when Earth changes begin. * How to awaken to the New Cycle presently opening before humanity. * Evidence for Atlantis in the mid-Atlantic ridge area and for Lemuria (or Mu) in the Pacific. * The consuming religious war in which we find ourselves, and an answer to world conditions today. * Visions of an imminent Age-ending fire, as found in a Cayce reading, in a channeled book by Phyllos the Tibetan, and in the 1960s visions of girls at Garabandal, Spain. * Doubtful interpretations of Earth-changes and pole-shift readings advanced by managers and writers of Cayce's legacy organization, the Association for Research and Enlightenment, Inc. From the Foreword by the Editor: The acid test of pole shift and other Earth change predictions is their scientific credibility. If true, momentous societal and political changes are imminent. The geopolitical map of the world will be redrawn. The authors are exploring the transition from the end of one Age to the beginning of another.

Earth at Risk Derrick Jensen,Lierre Keith,2012-08-01 “In America, four hundred people own the wealth of more than half of the American population. We should not be saying tax the rich, but instead we should be saying take their money and redistribute it, take their property and redistribute it.” —Arundhati Roy Industrial civilization is devouring the planet and the future. The oceans are acidifying, whole mountains have been laid to waste, and the climate is teetering into chaos. Every biome is approaching collapse. And fifty years of environmentalism hasn't even slowed the rate of destruction. Yet environmentalists are not considering strategies that might actually prevent the looming biocide we are facing. Until Earth at Risk. Earth at Risk: Building a Resistance Movement to Save the Planet is an annual conference featuring environmental thinkers and activists who are willing to ask the hardest questions about the seriousness of our situation. The conference is convened by Derrick Jensen, acclaimed author of Endgame, who has argued that we need a resistance movement against civilization itself. The twelve people in this volume present an impassioned critique of the dominant culture from every angle: William Catton Jr. explains ecological overshoot; Thomas Linzey gives a fiery call for community sovereignty; Jane Caputi exposes patriarchy's mythic dismemberment of the Goddess; Aric McBay discusses historically effective resistance strategies; and Stephanie McMillan takes down capitalism. One by one, they build an unassailable case that we need to deprive the rich of their ability to steal from the poor and the powerful of their ability to destroy the planet. These speakers offer their ideas on what can be done to build a real resistance movement, one that includes all levels of direct action—action that can actually match the scale of the problem. Earth at Risk includes: Derrick Jensen, author of Endgame, A Language Older than Words, and many others. Lierre Keith, author of The Vegetarian Myth: Food, Justice, and Sustainability; coauthor of Deep Green Resistance: Strategy to Save the Planet. Nora Barrows-Friedman, journalist and photographer; correspondent for outlets such as The Electronic Intifada, Al Jazeera, and Truthout.org. Jane Caputi, author of The Age of Sex Crime; Gossips, Gorgons, and Crones: The Fates of the Earth; and Goddesses and Monsters: Women, Myth, Power and Popular Culture. William Catton Jr., sociologist, author of Overshoot: The Ecological Basis of Revolutionary Change, and Bottleneck: Humanity's Impending Impasse. Gail Dines, a founding member of Stop Porn Culture, author of Pornland: How Porn Has Hijacked Our Sexuality. Thomas Linzey, executive director of the Community Environmental Legal Defense Fund. Aric Mcbay, coauthor of Deep Green Resistance: Strategy to Save the Planet. Stephanie Mcmillan, cartoonist; author of The Beginning of the American Fall; organizer for the anti-capitalist/anti-imperialist collective One Struggle. Riki Ott, marine biologist, author of Not One Drop: Betrayal and Courage in the Wake of the Exxon Valdez Oil Spill. Arundhati Roy, author of An Ordinary Person's Guide to Empire; Field Notes on Democracy: Listening to Grasshoppers; and many others. Waziyatawin, historian and anti-colonial activist, author of For Indigenous Eyes Only; What Does Justice Look Like? The Struggle for Liberation in Dakota Homeland; and

other books.

Float like a Butterfly, Drink Mint Tea Alex Wood,2021-05-11 As an alcoholic, drug-addicted comedian with tendencies to over-indulge and under-achieve since he was a teenager, Alex Wood was on track for to achieve his greatest goals: to die young and drunk. At the age of twenty-eight, feeling desperate in the face of addiction and associated health problems (ulcers, pancreatitis)—which were compounded by the deaths of loved ones and even worse undiagnosed issues—he decided to do something he'd actually been doing all his life: fight. Alex concocted a plan to quit not only alcohol and drugs, but everything else that he felt was holding him back: cigarettes, caffeine, red meat, dairy, sugar, social media, smartphones, porn, credit cards, nail-biting, social media, and gossip. His biggest weapons? A pair of boxing gloves and plenty of peppermint tea. But as Alex soon learned, people don't change overnight, and sobriety isn't a linear journey; there's heartbreak, relapses, and abuse along the way, but there's also love, support, and lots of laughter. In this memoir, Alex wants to prove that people really can change, or go on a withdrawal- inspired murder spree, whichever comes first. With plenty of self-effacing wit and grace, Float like a Butterfly, Drink Mint Tea tears down the walls of shame surrounding addiction, providing an honest and open portrait of the stakes involved when one is willing to quit everything in order to survive. Float like a Butterfly, Drink Mint Tea is the latest title to be published under the Robin's Egg Books imprint. The Plays of Euripides Euripides,1904

Fort Lauderdale Rupert W. Miles,Man Morrow,2006 A must read for art historians.Â Clear testament to the strange paradox that genius need not necessarily be inhibited by madness. It is believed that the same hurricane that killed the five hundred men on the Flagler System oversea railroad project in 1926 also killed as many as two thousand migrant farm workers, can cutters, in the sugarcane fields of South Florida.Â All the mother fucking rain had caused a hellish flood that submerged the entire region during the night.Â The identities and exact number of victims from the flood were never known because many of them were foreign, Haitians and Dominicans mostly, and they were all dirt poor.Â Around here at least, if you're dirt poor, nobody gives a fuck what happens to you, especially during the night. Theology of the Body and Sexual Integrity Dominic F Dixon,2015-06-16

Swansong Kerry Andrew,2018-01-25 'Swansong is the real thing, right from the start: spiky, strange and contemporary, but always with a dark undertow of myth and folklore tugging at its telling...this is a brilliant novel by a writer - and musician - of frankly alarming talent.' Robert Macfarlane In this stunningly assured, immersive and vividly atmospheric first novel from the celebrated musician, a young woman comes face-to-face with the volatile, haunted wilderness of the Scottish Highlands. Polly Vaughan is trying to escape the ravaging guilt of a disturbing incident in London by heading north to the Scottish Highlands. As soon as she arrives, this spirited, funny, alert young woman goes looking for drink, drugs and sex - finding them all quickly, and unsatisfactorily, with the barman in the only pub. She also finds a fresh kind of fear, alone in this eerie, myth-drenched landscape. Increasingly prone to visions or visitations - floating white shapes in the waters of the loch or in the woods - she is terrified and fascinated by a man she came across in the forest on her first evening, apparently tearing apart a bird. Who is this strange loner? And what is his sinister secret? Kerry Andrew is a fresh new voice in British fiction; one that comes from a deep understanding of the folk songs, mythologies and oral traditions of these islands. Her powerful metaphoric language gives Swansong a charged, hallucinatory quality that is unique, uncanny and deeply disquieting.

Movie Freak Owen Gleiberman,2016-02-23 Entertainment Weekly's controversial critic of more than two decades looks back at a life told through the films he loved and loathed. Owen Gleiberman has spent his life watching movies-first at the drive-in, where his parents took him to see wildly inappropriate adult fare like Rosemary's Baby when he was a wide-eyed 9 year old, then as a possessed cinemaniac who became a film critic right out of college. In Movie Freak, his enthrallingly candid, funny, and eye-opening memoir, Gleiberman captures what it's like to live life through the movies, existing in thrall to a virtual reality that becomes, over time, more real than reality itself. Gleiberman paints a bittersweet portrait of his complicated and ultimately doomed friendship with Pauline Kael, the legendary New Yorker film critic who was his mentor and muse. He also offers an unprecedented inside look at what the experience of being a critic is really all about, detailing his stint at The Boston Phoenix and then, starting in 1990, at EW, where he becomes a voice of obsession battling-to a fault-to cling to his independence. Gleiberman explores the movies that shaped him, from the films that first made him want to be a critic (Nashville and Carrie), to what he hails as the sublime dark trilogy of the 1980s (Blue Velvet, Sid and Nancy, and Manhunter), to the scruffy humanity of Dazed and Confused, to the brilliant madness of Natural Born Killers, to the transcendence of Breaking the Waves, to the pop rapture of Moulin Rouge! He explores his partnership with Lisa Schwarzbaum and his friendships and encounters with such figures as Oliver Stone, Russell Crowe, Richard Linklater, and Ben Affleck. He also writes with confessional intimacy about his romantic relationships and how they echoed the behavior of his bullying, philandering father. And he talks about what film criticism is becoming in the digital age: a cacophony of voices threatened by an insidious new kind of groupthink. Ultimately, Movie Freak is about the primal pleasure of film and the enigmatic dynamic between critic and screen. For Gleiberman, the moving image has a talismanic power, but it also represents a kind of sweet sickness, a magnificent obsession that both consumes and propels him.

Porn Robert J. Stoller,1991-01-01 Bill, Merlin, Happy, and Kay are among the porn-film performers and producers who tell their stories to Dr. Robert J. Stoller in this pschyodynamic ethnography of adult heterosexual pornography. Their engrossing accounts reveal in rich detail not only the inner workings of the Industry and the fantasies and motivations of its participants but also the relation between this most denigrated of occupations and normal human erotic behavior and attitudes. Consistently nonjudgmental about the material he presents, Dr. Stoller nevertheless draws provocative conclusions about porn, its practitioners, and its effects on society. Everyone at work on a porn production, he says, uses it as a vehicle for unloading his or her rage against something--mores, institutions, laws, parents, females, or males.

According to Dr. Stoller, pornography does not exist only to degrade women, there is no reliable evidence that it increases the frequency of rape, and (with the exception of child porn) it does little harm. Pornography, says Dr. Stoller, seems more the result of our changing society than a cause of change; it reflects, more than influences, our values and mores.

Life on Earth Jerold Lynn Dixon,2010-11-19 How to decide if this book is for you: (1) Do you live here? Yes__ No __ (2) Are you thinking about moving here? Yes__ No __ If you checked yes for 1 or 2, then you should read this book. F O R W A R D By David Steiner Life On Earth is many things. It is one mans take on the state of humanity. It is a mental tool with which the reader can form his or her own guide to surviving among these strange, flawed creations of a supposedly infallible deity. It is a list of questions that any reasonable person might choose to ask of the Creator, should that person be given the chance to do so. Lastly, Life On Earth, as professed by Jerold Dixon, himself, is fair warning to any intelligent beings who may wish to set down roots among us. Well, think about it; If someone did have the technological capabilities to come here, it would stand to good reason that said being would also be able to tap a few of our geosynchronous-orbiting communications satellite networks, look for just such a touted volume of work and wind up downloading an electronic copy of the very words before your eyes. What this engagingly-written book really boils down to is an overview of the human condition as seen through the eyes of a man who has lived through what could arguably be called the fastest and most radically changing decades of American history. The latter half of the twentieth century ushered us, at breakneck speeds, into human space exploration, social reform, political awareness, political correctness, and new and confusing concepts regarding accepted gender roles, relationship dynamics and the evolving definition of the family unit. Nobody can reasonably argue against the statement that not all progress is either forward or good. The human animal continues to retain dark nuances, violent tendencies, and primal desires that produce a proverbial evil, mirror-universe reaction to every forwardly progressive action we take. We discovered how to manipulate atomic energy-and used it to build the first, true weapon of mass destruction. Women became empowered members of the workplace-and the traditional family unit began to decay. We figured out how to have condom-free sex without procreating-and started having so much of it with so many partners that harmful and even lethal STDs became global epidemics. We figured out how to cheaply and easily conduct worldwide discussions about any subject at all-and fundamentalist hate groups use the same venue to broadcast their calls to commit acts of cold-blooded murder in the names of racial or theological purity. Where some look at the negative (and even some of the positive) changes society has undergone in recent history and see them as reasons to deny Gods existence altogether, Dixon would rather see accountability where accountability is due. That is not to say that the author blames God for the messes we have made for ourselves. He does, however, blame Him for the inherent flaws in our basic design, and he sees how some of those flaws could be viewed as being both the causes and the enablers of some of mankind's messiest mistakes. He questions how and why a supposedly perfect being would create an entire species of self-aware beings, but with such deficiencies as to cause pain and suffering, in both the emotional and physical senses. The author is outraged at the inequities of life, and wants to know why we must endure them. He feels that, if given the chance, each and every one of us should confront God. It is Dixons contention that as we are to be inevitably held accountable for our mistakes, so should we be able to cross-examine the Almighty to take credit for his own. Life On Earth was a thoroughly enjoyable read. Perhaps to date, the most thought-provoking of the works for which I had the esteemed honor of being contracted to edit. In fact, at the time of the crafting of this forward, I have been pondering for over a week on how to answer a biblically-based, yet current-event inspired philosophical question Mr. Dixon had posed in an email. Which brings me to the best that I can think of describing him. Jerold Dixon is an open-minded version of an old-school, red-blooded, American guy. He calls em like he sees em, but then he makes you stop and actually think.

Sex Education 101: Approachable Essays on Folklore, Culture, & History Jeana Jorgensen,2023-11-11 Do you look back at your sex ed classes and wonder WTF?! Are you a parent looking at your kid's curriculum and asking the same question? Sex Education 101 is less of a how-to of sex education and more of a why. Why does abstinence-only sex ed receive so much federal funding? Why do instructors show gross images of STIs to scare students? And the answers, believe it or not, have a lot to do with folklore. Folklore—informally transmitted traditional culture—has a lot to say about sex. And it is often people's first point of contact with information and messages about sex. Folklore encompasses urban legends, moral panics, and rumors, which influenced early U.S. policies around sex, and also includes jokes, raunchy folk songs, and beliefs and slang about menstruation or STIs. And thus, folklore shapes sex ed classrooms and school sex ed policies. This book is a series of essays for anyone interested in folklore about sex, the history of sex education, and how we keep repeating history from 100 years ago in our approaches today. Whether you are a scholar of books or a scholar of life (or both), you'll find something satisfying between the sheets of Sex Education 101.

Mad Chloé Esposito,2017-06-13 In this compulsively readable debut, set between London and Sicily over one blood-drenched week in the dead of summer, an identical twin reveals the crazy lies and twists she'll go through to not only steal her sister's perfect life, but to keep on living it. Alvie Knightly is a trainwreck: aimless, haphazard, and pretty much constantly drunk. Alvie's existence is made even more futile in contrast to

that of her identical and perfect twin sister, Beth. Alvie lives on social media, eats kebabs for breakfast, and gets stopped at security when the sex toy in her carry-on starts buzzing. Beth is married to a hot, rich Italian, dotes on her beautiful baby boy, and has always been their mother's favorite. The twins' days of having anything in common besides their looks are long gone. When Beth sends Alvie a first-class plane ticket to visit her in Italy, Alvie is reluctant to go. But when she gets fired from the job she hates and her flatmates kick her out on the streets, a luxury villa in glitzy Taormina suddenly sounds more appealing. Beth asks Alvie to swap places with her for just a few hours so she can go out unnoticed by her husband. Alvie jumps at the chance to take over her sister's life--if only temporarily. But when the night ends with Beth dead at the bottom of the pool, Alvie realizes that this is her chance to change her life. Alvie quickly discovers that living Beth's life is harder than she thought. What was her sister hiding from her husband? And why did Beth invite her to Italy at all? As Alvie digs deeper, she uncovers Mafia connections, secret lovers, attractive hitmen, and one extremely corrupt priest, all of whom are starting to catch on to her charade. Now Alvie has to rely on all the skills that made her unemployable--a turned-to-11 sex drive, a love of guns, lying to her mother--if she wants to keep her million-dollar prize. She is uncensored, unhinged, and unforgettable.
