Professional Kinder Prep, 2019-06-11 Research shows that learning a second language boosts problem-solving, critical thinking, and listening skills, in addition to improving memory, concentration, and the ability to multitask. Children proficient in other languages also show signs of enhanced creativity and mental flexibility. There is a critical period or window of opportunity when children learn languages best. Studies have shown that this is when children are between birth and six years old. The younger children are, the easier they will learn a second language. As they get older that ability diminishes. These easy and fun flashcards aim to help parents as a useful educational tool for kids to learn a new language.

Vietnam Christopher Goscha, 2016-09-13 The definitive history of modern Vietnam, lauded as groundbreaking (Guardian) and the best one-volume history of modern Vietnam in English (Wall Street Journal) and a finalist for the Cundill History Prize In Vietnam, Christopher Goscha tells the full history of Vietnam, from antiquity to the

present day. Generations of emperors, rebels, priests, and colonizers left complicated legacies in this remarkable country. Periods of Chinese, French, and Japanese rule reshaped and modernized Vietnam, but so too did the colonial enterprises of the Vietnamese themselves as they extended their influence southward from the Red River Delta. Over the centuries, numerous kingdoms, dynasties, and states have ruled over -- and fought for -- what is now Vietnam. The bloody Cold War-era conflict between Ho Chi Minh's communist-backed Democratic Republic of Vietnam and the American-backed Republic of Vietnam was only the most recent instance when war divided and transformed Vietnam. A major achievement, Vietnam offers the grand narrative of the country's complex past and the creation of the modern state of Vietnam. It is the definitive single-volume history for anyone seeking to understand Vietnam today.

From the easiest popular dish to the most fancy duck royale, cooking in France has always been taken a serious matter. It is easy to guess the origin of the first chefs: Paris. Why France has always been so into cooking

and fine cuisine? The main reason is historical. Since King Louis XIV in mid 1600 the French territory has always been rich and people exited sooner compared to other European Countries from a stage of poverty and countryside lifestyle. The new upper class started to value food and fine dining, hiring professional cooks for parties and everyday's life, ending up in creating a real school for chefs preparing young students for what would have become a regular job. The other reason for the richness of the French cuisine can be spotted in the high quality ingredients that the French territory is capable to produce. With lot of space for farming and raising animals, the quality of the ingredients have always been superior. Of course, when superior ingredients match people's desire for high end food, only the best recipes and dishes can come out from the mix. They surely are widely used in nowadays kitchens, but they set the ground for one of the most amazing cooking tradition in the world: the Vietnamese cuisine. Vietnamese food is rooted in the centuries and has a long tradition as almost every Asian cuisine. Despite using traditional

ingredients and spices, it got highly influenced by the French cuisine, that brought techniques and elegance to raw strong and tasty local ingredients. Traditional Vietnamese cooking is based on fresh ingredients, dairy products, meat and chicken and spices. It resembles low sugar content and is almost gluten free, largely using rice for pastry and noodles. The most famous dishes are well known everywhere in the world, having in Bún bò Huế, a spicy beef noodle soup and Pho, another rich yet delicate soup, the two most relevant representatives. Replacing France Kathryn C. Statler, 2007-06-22

Using recently released archival materials from the United States and Europe, *Replacing France: The Origins of American Intervention in Vietnam* explains how and why the United States came to assume control as the dominant western power in Vietnam during the 1950s. Acting on their conviction that American methods had a better chance of building a stable, noncommunist South Vietnamese nation, Eisenhower administration officials systematically ejected French military, economic, political, bureaucratic, and cultural institutions from Vietnam. Kathryn C. Statler examines diplomatic maneuvers in Paris, Washington, London, and Saigon to detail how Western alliance members sought to transform South Vietnam into a modern, westernized, and democratic ally but ultimately failed to counter the Communist threat. Abetted by South Vietnamese prime minister Ngo Dinh Diem, Americans in Washington, D.C., and Saigon undermined their French counterparts at every turn, resulting in

the disappearance of a French presence by the time Kennedy assumed office. Although the United States ultimately replaced France in South Vietnam, efforts to build South Vietnam into a nation failed. Instead, it became a dependent client state that was unable to withstand increasing Communist aggression from the North. Replacing France is a fundamental reassessment of the origins of U.S. involvement in Vietnam that explains how Franco-American conflict led the United States to pursue a unilateral and ultimately imperialist policy in Vietnam.

An Upright Research on The Vietnam War Tranduc Han Prudence,2021-05-12 After the Fall of South Vietnam, both the southerners and northerners differentiate between helpers and deceivers: Americans arrived in South Vietnam to help as they had done in Japan and West Germany after WWII; the great majority of Vietnamese people appreciate 58,276 US soldiers who sacrificed their lives and other Americans who contributed valuable helps in the years from 1954–1975. Contrarily, the communists from the North, with deceitful slogans like Let us fight Americans to rescue our country and Nothing is precious than freedom and so on are

deceivers. Additionally, the Vietnamese felt miserable in the stringent dictatorship of the communists, so millions of them risked their lives to escape; at least 300,000 died on the East Sea or in the forests. - - - - The Vietnamese refugees (escapees, former officials and officers from prisons or labor camps of the communists) appreciate all countries that welcome and help them and their families rebuild their lives; they have better lives now. The USA is the land of opportunities, so many of them have overcome difficulties and procured successes in different fields, especially in educated and business careers.

The Penguin History of Modern Vietnam

Christopher Goscha, 2016-06-30 WINNER OF THE AMERICAN HISTORICAL ASSOCIATION'S JOHN K. FAIRBANK PRIZE SHORTLISTED FOR THE CUNDHILL HISTORY PRIZE 2017 'This is the finest single-volume history of Vietnam in English. It challenges myths, and raises questions about the socialist republic's political future' Guardian 'Powerful and compelling. Vietnam will be of growing importance in the twenty-first-century world, particularly as China and the US rethink their roles in Asia. Christopher Goscha's book is a brilliant account of that country's history.' - Rana Mitter 'A vigorous, eye-opening account of a country of great importance to the world, past and future' - Kirkus Reviews Over the centuries the Vietnamese have been both colonizers themselves and the victims of colonization by others. Their country expanded, shrunk, split and sometimes disappeared, often under circumstances far beyond their control. Despite these often overwhelming pressures, Vietnam has survived as one of Asia's most striking and complex cultures. As more and more visitors come to this extraordinary country, there has been for some years a need for a major history - a book which allows the outsider to understand the many layers left by earlier emperors, rebels, priests and colonizers. Christopher Goscha's new work amply fills this role. Drawing on a lifetime of thinking about Indo-China, he has created a narrative which is

consistently seen from 'inside' Vietnam but never loses sight of the connections to the 'outside'. As wave after wave of invaders - whether Chinese, French, Japanese or American - have been ultimately expelled, we see the terrible cost to the Vietnamese themselves. Vietnam's role in one of the Cold War's longest conflicts has meant that its past has been endlessly abused for propaganda purposes and it is perhaps only now that the events which created the modern state can be seen from a truly historical perspective. Christopher Goscha draws on the latest research and discoveries in Vietnamese, French and English. His book is a major achievement, describing both the grand narrative of Vietnam's story but also the byways, curiosities, differences, cultures and peoples that have done so much over the centuries to define the many versions of Vietnam.

Higher Education in Market-Oriented Socialist Vietnam Phan Le Ha, Doan Ba Ngoc, 2020-09-01 This book inspects higher education reform in market-oriented socialist Vietnam, with a focus on newness narratives and enquiry. Engaging in dialogic conversations with global and regional forces and exploring convergences in the domains of policy, curriculum, research, pedagogy, and society, chapter authors analyse ideologies that have entered Vietnam's educational landscape. Chapters include discussions of post-Soviet legacies, socialist thought, privatization, neoliberalism, global rankings, academic freedom, autonomy, and elitism, as well as the actors, discourses and practices through which they manifest. In so doing, authors' commentaries

juxtapose phenomena in Vietnam with other national contexts such as the Philippines, Brunei Darussalam, Japan, Australia, and Trinidad and Tobago.

Vietnam and the Colonial Condition of French Literature Leslie Barnes, 2014-12-01 Vietnam and the Colonial Condition of French Literature explores an aspect of modern French literature that has been consistently overlooked in literary histories: the relationship between the colonies—their cultures, languages, and people—and formal shifts in French literary production. Starting from the premise that neither cultural identity nor cultural production can be pure or homogenous, Leslie Barnes initiates a new discourse on the French literary canon by examining the work of three iconic French writers with personal connections to Vietnam: André Malraux, Marguerite Duras, and Linda Lê. In a thorough investigation of the authors' linguistic, metaphysical, and textual experiences of colonialism, Barnes articulates a new way of reading French literature: not as an inward-

looking, homogenous, monolingual tradition, but rather as a tradition of intersecting and interdependent peoples, cultures, and experiences. One of the few books to focus on Vietnam's position within francophone literary scholarship, Barnes challenges traditional concepts of French cultural identity and offers a new perspective on canonicity and the division between "French" and "francophone" literature.
