*Eat Like the Animals* David Raubenheimer, Stephen Simpson, 2020 What drives the human appetite? Two leading scientists share their cutting-edge research to show how we can gain control over what, when, and how much we eat.

**Five Appetites** David Raubenheimer, 2020 How is it that a baboon and a blob of slime mould instinctively know what to eat, yet humans can't seem to figure it out? When and why did we lose the basic knowledge to intuit what foods our body needs, and in what proportions? All organisms trust their appetites to tell them what and how much to eat to ensure good health and reproduction. But unlike other species, the human appetite has gone haywire - we want foods that are terrible for us, and we can't seem monitor our own nutrition levels or our portion sizes. The Five Appetites provides readers with cutting-edge scientific knowledge of what drives the human appetite for food and how we can take control over what we crave.

*Eat Like Jesus* Andrew L. Hoy, 2013-09 'Eat Like Jesus' offers a simple, scientific, and comprehensive Bible-based dining theology, examining and explaining what the Bible teaches about food and eating. Drawing heavily from the Bible texts, 'Eat Like Jesus' puts food-related topics such as veganism, kosher diets, cleansing rituals, and animal physiology (including diet, hygiene, diseases, etc.) into proper perspective, harmonizing New Testament accounts of Jesus, Peter, and Paul with Old Testament teachings of Moses. 'Eat Like Jesus' uniquely reveals why the first law in the Garden of Eden was dietary, why Noah took extra pairs of certain animal species into the Ark, what kind of animals Peter saw in his vision, and what Jesus really meant as he 'called all foods clean'--

**5 Appetites: Eat Like the Animals for a Naturally Healthy Diet** David Raubenheimer, Stephen J. Simpson, 2020-03-19 A New Scientist Best Book of 2020 How is it that a baboon and a blob of slime mould instinctively know what to eat for optimal health, balancing their protein, fat and carb intake in perfect proportions?

*Eat Like You Give a Damn* Jeannie Hudkins, 2013-10-24 Vegan diets are generally viewed as just another diet trend touted by health freaks, PETA fanatics, and treehuggers. The truth is, changing to a plant-based diet is the best decision you can make for your own health, with the added bonus of saving billions of animals and protecting our planet. Eat Like You Give a Damn exposes America's biggest secrets about how our food is produced and why we are one of the sickest nations in the world. Once the secrets are revealed, the author shares the simple truths of how to eat in order to dismiss... and even reverse... common diseases and live a vibrant, healthy, compassionate life. Included are tasty and easy recipes that will trim your waistline and lighten your conscience.

*Eat Like a Bear* April Pulley Sayre, 2013-10-22 Can you eat like a bear? A sleepy bear awakes in spring and goes to find food. But what is there to eat in April? In May? Follow along and eat like a bear throughout the year: fish from a stream, ants from a tree, and delicious huckleberries from a bush. Fill up your belly and prepare for the long winter ahead, when you'll snuggle into your warm den and snore like a bear once again.

**Eat Like You Care** Gary Lawrence Francione, Anna Charlton, 2013-09-26 \*\*\*SPECIAL OFFER\*\*\*Take \$2 OFF per copy purchased through CreateSpace (<https://www.createpace.com/4423398>) with discount code: Z8RZS95M This book puts the issue of eating animals squarely on the table. We all claim to care about animals and to regard them as having at least some moral value. We all claim to agree that it's wrong to inflict "unnecessary" suffering and death on animals and--whatever disagreement we may have about when animal use is necessary—we all agree that the suffering and death of animals cannot be justified by human pleasure, amusement, or convenience. We condemn Michael Vick for dog fighting precisely because we feel strongly that any pleasure that Vick got from this activity could not possibly justify what he did. So how can we justify the fact that we kill many billions of land animals and fish every year for food? However "humanely" we treat and kill these animals, the amount of animal suffering we cause is staggering. Yet no one maintains that animal foods are necessary for optimal health. Indeed, mounting empirical evidence points to animal foods being detrimental for human health. But however you evaluate that evidence, there can be no serious doubt that we can have excellent health with a vegan diet. There is also broad consensus that animal agriculture is an ecological disaster. Animal agriculture is responsible for water pollution, air pollution, deforestation, soil erosion, inefficient use of plant protein and water, and all sorts of other environmental harms. The best justification we have for the unimaginable amount of suffering and death that we impose on animals is that they taste good. We enjoy the taste of animal foods. But how is this any different from Michael Vick claiming that his dog fighting operation was justifiable because he enjoyed watching dogs fight? Vick liked sitting around a pit watching animals fight. We enjoy sitting around the summer barbecue pit roasting the corpses of animals who have had lives and deaths that are as bad, if not worse than, Vick's dogs. What is the difference between Michael Vick and those of us who eat animal foods? This book shows that there is no difference, or at least not any difference that matters morally. Francione and Charlton argue that if you think animals matter morally—if you reject the idea that animals are just things—your own beliefs require that you stop eating animal products. There is nothing extreme about a vegan diet; what is extreme is the inconsistency between what we say we believe and how we act where animals are concerned. Many of us are uneasy thinking about the animals who end up on our plates. We may have thought about stopping eating animal products but there are many excuses that have kept us from doing so. The authors explore the 30+ excuses they have heard as long-time vegans and address each one, showing why these excuses don't work. Packed with clear, commonsense thinking on animal ethics, without jargon or complicated theory, this book will change the way you think about what you eat.

*Leviticus* Ming Him Ko, 2018-05-31 The Asia Bible Commentary Series empowers Christian believers in Asia to read the Bible from within their respective contexts. Holistic in its approach to the text, each exposition of the biblical books combines exegesis and application. The ultimate goal is to strengthen the Body of Christ in Asia by providing pastoral and contextual exposition of every book of the Bible. The book of Leviticus has a two-fold mission. Leviticus 1-16 symbolizes the order of the world through sacrifices, purity law, and sacred boundaries, so that God's people can acknowledge his presence and lordship in their different aspects of life. The second part of the book, from Leviticus 17-27, extends the belief of holiness through moral laws of sex and social justice, so that God's people can be holy, as he is holy. This commentary helps believers to integrate God's holiness into their daily lifestyle with particular attention to Asian contexts.

**When a Human Gives Birth to a Raven** Rafael Rachel Neis, 2023 This book investigates rabbinic treatises relating to animals, humans, and other lifeforms. Through an original analysis of creaturely generation and species classification by late ancient Palestinian rabbis and other thinkers in the Roman empire, Rafael Rachel Neis shows how rabbis blurred the lines between the human and other beings. This they did even as they were intent on classifying creatures and delineating the contours of the human. Recognizing that life proliferates via multiple mechanisms beyond sexual copulation between two heterosexual 'male' and 'female' individuals of the same species, the rabbis produced intricate alternatives. This expansive view of generation included humans. Likewise, in parsing the variety of creatures, the rabbis attended to the overlaps and resemblances across seemingly distinct species, upsetting in turn unmitigated claims of human distinctiveness. Intervening in conversations in animal studies, queer theory, trans theory, and feminist science studies, When a Human Gives Birth to a Raven provincializes sacrosanct ideals of reproduction in favor of a broader range of generation, kinship, and species offering powerful historical alternatives to the paradigms associated with so-called traditional ideas--

*Vegetarianism and Veganism* David E. Newton, 2019-06-24 This detailed and comprehensive overview of meat-free diets introduces readers to their long history in human cultures and analyzes some of the important questions and issues surrounding their practice in today's world. Vegetarianism and

Veganism: A Reference Handbook provides a history and background of vegetarianism and veganism from prehistorical times to the present day, along with detailed discussions of the practice in each historical period since that time. **Eat Like You Give A Damn** Michelle Schwegmann ,Josh Hooten,2015-06-10 Entrepreneurs and ethical vegans Michelle Schwegmann and Josh Hooten first satisfied their passion for saving animals by designing and selling a successful line of clothing that promoted cruelty-free ethics: Herbivore. Inspiring people to eat like they give a damn, Michelle and Josh share over 100 recipes for their favorite everyday vegan dishes, which they've tucked into an original book design that reflects their art and ethics. Their recipe list is anchored with a panoply of comfort foods, such as hot soups and chili, mac 'n'cheese, and sweet potato fries, all served up with a touch of whimsy. An Elvis Quesadilla with Maple-Yogurt Drizzle crosses paths with Praise Seitan Vegan Roast and Oma's Full of Beans. Roasted Beet Burgers sidle up to Only-Kale-Can-Save-Us-Now Salad and Pesto-Parmesan Corn on the Cob. With ample helpings of sass and heart, the authors intersperse their recipes with treatises on why vegan and how vegan. In addition, the authors provide support for vegan parents of vegan children and anyone who wants to indulge in the meat- and cheese-based foods they grew up loving, without sacrificing any animals to enjoy them.
