Web-Age Information Management Hongjun Lu,Aoying Zhou,2003-06-29 Database research and development has been remarkably successful over the past three decades. Now the field is facing new challenges posted by the rapid advances of technology, especially the penetration of the Web and Internet into everyone’s daily life. The economical and financial environment where database systems are used has been changing dramatically. In addition to being able to efficiently manage a large volume of operational data generated internally, the ability to manage data in cyberspace, extract relevant information, and discover knowledge to support decision making is critical to the success of any organization. In order to provide researchers and practitioners with a forum to share their experiences in tackling problems in managing and using data, information, and knowledge in the age of the Internet and Web, the First International Conference on Web-Age Information Management (WAIM 2000) was held in Shanghai, China, June 21-23. The inaugural conference in its series was well received. Researchers from 17 countries and regions, including Austria, Australia, Bahrain, Canada, China, France, Germany, Japan, Korea, Malaysia, The Netherlands, Poland, Singapore, Spain, Taiwan, UK, and USA submitted their recent work. Twenty-seven regular and 14 short papers contained in these proceedings were presented during the two-day conference. These papers cover a large spectrum of issues, from classical data management such as object-oriented modeling, spatial and temporal databases to recent hits like data mining, data warehousing, semi-structured data, and XML.

Innovative Teaching Strategies in Nursing and Related Health Professions Bradshaw,Beth L. Hultquist,2016-07-29 Innovative Teaching Strategies in Nursing and Related Health Professions, Seventh Edition details a wealth of teaching strategies, focusing on incorporating technology into the classroom, including the use of Web 2.0 technologies like blogs and podcasts. Chapters on blended learning and study abroad programs are featured, enabling students to gain a more diverse and increased global perspective. Highlighting innovative teaching techniques for various learning environments and real-world illustrations of the strategies in use, this text goes beyond theory to offer practical application principles that educators can count on. The Seventh Edition includes two new chapters – Teaching through Storytelling and Giving and Receiving Evaluation Feedback.

Marketing and Managing Electronic Reserves Trevor A. Dawes,2013-05-13 Get practical solutions to the problems faced when implementing an electronic reserve service! Academic libraries that provide electronic reserve services offer convenient access to information to their students and faculty while gaining numerous other advantages, such as reducing both loss and staff workload. Marketing and Managing Electronic Reserves presents leading authorities with practical solutions to the challenges in effectively integrating electronic reserves services and marketing them to users. This book provides positive approaches that any academic library considering the implementation of an electronic reserve operation can use. All factors are considered, including size of institution, the relationship between the library and academic departments, and the budget and plan for marketing the service. More and more colleges and universities are implementing distance education programs, highlighting the increasing need for remote access to information in the library, including reserve material. But executing monumental change is always difficult. Marketing and Managing Electronic Reserves tackles the difficult issues, discussing various libraries’ journeys in bringing about the changes needed to remain the central information source for students and faculty. Problems inherent in the evolution from traditional reserve services to electronic reserves are examined, offering effective strategies for smooth transition. Whatever type of system you are considering, from homegrown to commercial to hybrid electronic reserves service, this book can help. Marketing and Managing Electronic Reserves explains how others tackled challenges, such as: implementing Endeavor’s Voyager Integrated Library System and the software used for authenticating users handling copyright compliance integration of electronic reserves into course management systems moving from a paper-based to a Web-based course reserve system offering and marketing one-stop teaching support to faculty a large institution’s shift to a collaborative approach with electronic reserves and course management software establishing a suite of electronic utilities that fulfills teaching and essential learning activities implementing the Blackboard Content SystemMarketing for a smooth transition from traditional to electronic reserves marketing to the faculty process improvement technique applied to electronic reserves integration of electronic reserve with a library management system and course management system trends for the future Marketing and Managing Electronic Reserves is crucial reading for access services librarians, circulation and reserve librarians, public service librarians, library school faculty who teach public services courses, integrated library systems managers, and university course management software specialists.

Information and Data Literacy Joyce Hagen-McIntosh,2016-01-05 In an age where data flows non-stop, across all geographic borders and accessible to many, the job of providing information literacy has become much more exciting, more complicated, and more necessary. Information and Data Literacy: The Role of the Library takes a comprehensive look at the changing role of today’s librarians and libraries in an increasingly tech-driven world. You’ll find the authors of this book represent public and academic libraries, countries around the globe, and differences of opinion as to the definition, purpose, charge, and success of providing information and data literacy. The book is divided into several parts, covering: Understanding the role of information and data literacy in the library The new and changing roles for librarians Methods for promoting information and data literacy New challenges for the library in the new information environment The need for information and data literacy for marginalized populations, including the homeless, those in rural settings, sexual minorities, and others Addressing the trends and challenges at different types of libraries, the volume provides an overview of information and data literacy in the library and offers an array of perspectives. Topics cover: The role of the public library as a community hub Student information literacy in the mobile environment Information literacy in schools How the information landscape has changed library reference services Library instruction and exercises to promote information literacy for both traditional students and those in continuing education Edited by a consultant with the Freedom to Read Foundation who is a former outreach and assistive technology librarian, the book offers a wealth of information for beginning librarians as well as for seasoned library professionals looking for new methods to evaluate and promote data and information literacy.

Library Automation and OPAC 2.0: Information Access and Services in the 2.0 Landscape Tramullas, Jesus,2012-07-31 The advent of computers in libraries made library automation a hot topic in the 1980s and 1990s, but this focus has dropped off over time, leaving much library automation research outdated. Library Automation and OPAC 2.0: Information Access and Services in the 2.0 Landscape brings library automation back to the forefront of cutting-edge research. In today’s age of Web 2.0 and social networking, libraries are entering the new Library 2.0 era, and this reference will present current and future librarians with the necessary new library automation research they will need to keep their institutions up-to-date in today’s constantly changing technological environment.

The Impact of EPA’s Green Power Purchases Joseph F. DeCarolis,2007 All federal agencies, including EPA, are required under Executive Order (EO) 13123 to reduce life-cycle greenhouse gas emissions attributed to facility energy use by 30% below 1990 levels by 2010. A key approach to reducing facility greenhouse gas emissions, employed by EPA’s Office of Administration and Resources Management (OARM), involves the purchase of green power. Green power generally includes renewables (wind, solar, biomass) and other clean energy technologies (municipal solid waste and landfill gas) that generate electricity. Green tags, which represent the positive environmental attributes associated with electricity production from green power sources, are sold through markets to electricity consumers. The analysis presented in this report meets the following three objectives: (1) establish the 1990 EPA emissions baseline in order to assess progress towards fulfillment of EO 13123, (2) examine the impact of EPA’s green power purchasing on facility-related greenhouse gas emissions and air pollution, and (3) develop a strategy for future green power purchases. In order to achieve these objectives, this report describes a new method to estimate net emissions of CO2, SO2, NOX, and Hg. The estimation of net facility emissions is complicated by the purchase of green tags because it requires detailed knowledge of which conventional power plants are being offset by purchased green power. Different offset scenarios are analyzed in order to quantify the uncertainty inherent in estimating emissions offsets without hour-by-hour system dispatch data.

Adoption and Technologies for Empowering Developing Countries: Global Advances Sharma, Sushil K.,2012-01-31 This book reviews the impact technology has had on individuals and organizations whose access to media and resources is otherwise limited including topics such as electronic voting, electronic delivery systems, social Web applications, and online educational environments--Provided by publisher.

Best Practices for Technology-Enhanced Teaching and Learning Dana S. Dunn,Janie H. Wilson,James Freeman,Jeffrey R. Stowell,2011-02-02 The use of technology and teaching techniques derived from technology is currently a burgeoning topic in higher education. Teachers at all levels and types of institutions want to know how these new technologies will affect what happens in and outside of the classroom. Many teachers have already embraced some of these technologies but remain uncertain about their educational efficacy. Other teachers have waited because they are reluctant to try tools or techniques that remain unproven or, as is often

THE CASE, LACK INSTITUTIONAL SUPPORT. THIS BOOK IS DESIGNED TO HELP BOTH GROUPS, SO THAT THOSE WITH TECHNOLOGICAL EXPERTISE CAN EXTEND THEIR KNOWLEDGE, WHILE TECHNOLOGICAL NOVICES CAN RAMP UP AT THEIR OWN PACE AND FOR THEIR OWN PURPOSES. BEST PRACTICES FOR TECHNOLOGY-ENHANCED TEACHING AND LEARNING BRINGS TOGETHER EXPERT TEACHER-SCHOLARS WHO APPLY AND ASSESS TECHNOLOGY’S IMPACT ON TRADITIONAL, HYBRID OR BLENDED, OR COMPLETELY ON-LINE COURSES, RELYING ON TECHNOLOGY AS A TEACHING TOOL FOR CLASSROOM MANAGEMENT AND INTERACTION (E.G., BLACKBOARD, POWERPOINT, STUDENT RESPONSE OR CLICKER SYSTEMS, MULTIMEDIA TOOLS), AS WELL AS STUDENT-BASED USES OF TECHNOLOGY LARGELY INDEPENDENT OF INSTRUCTORS (E.G., SOCIAL NETWORKING ON POPULAR SITES INCLUDING FACEBOOK AND MYSPACE). EACH CHAPTER WILL ADDRESS HOW TECHNOLOGICAL IMPROVEMENTS CAN BE CONNECTED TO ASSESSMENT INITIATIVES, AS IS NOW ROUTINELY ADVOCATED IN PSYCHOLOGY AND SOCIAL SCIENCE EDUCATION. THE BOOK FEATURES CURRENT SCHOLARSHIP AND PEDAGOGY INVOLVING INNOVATIVE TECHNOLOGY THAT IMPACTS ON STUDENT LEARNING IN PSYCHOLOGY AND RELATED DISCIPLINES, FOCUSING ALSO ON STUDENT REACTIONS TO THESE NOVEL TECHNOLOGIES, AND PROPER ASSESSMENTS OF HOW WELL THEY PROMOTE LEARNING. THIS TEXT WILL SERVE AS THE STANDARD REFERENCE ON EMERGING TECHNOLOGIES FOR UNDERGRADUATE INSTRUCTORS.
