We nearly died. We very nearly did, didn't we? Samantha Heather Mackey couldn't be more of an outsider in her small, highly selective MFA program at New England's Warren University. A scholarship student who prefers the company of her dark imagination to that of most people, she is utterly repelled by the rest of her fiction writing cohort—a clique of unbearably twee rich girls who call each other Bunny, and seem to move and speak as one. But everything changes when Samantha receives an invitation to the Bunnies' fabled Smut Salon, and finds herself inexplicably drawn to their front door—ditching her only friend, Ava, in the process. As Samantha plunges deeper and deeper into the Bunnies' sinister yet saccharine world, beginning to take part in the ritualistic off-campus Workshop where they conjure their monstrous creations, the edges of reality begin to blur. Soon, her friendships with Ava and the Bunnies will be brought into deadly collision. The spellbinding new novel from one of our most fearless chroniclers of the female experience, Bunny is a down-the-rabbit-hole tale of loneliness and belonging, friendship and desire, and the fantastic and terrible power of the imagination. The Emoji Code Vyvyan Evans, 2017-08 Drawing from disciplines as diverse as linguistics, cognitive science, psychology, and neuroscience, *The Emoji Code* explores how emojis are expanding communication and not ending it. For all the handwringing about the imminent death of written language, emoji—those happy faces and hearts—is not taking us backward to the dark ages of illiteracy. Every day 41.5 billion texts are sent by one quarter of the world, using 6 million emoji. Evans argues that these symbols enrich our ability to communicate and allow us to express our emotions and induce empathy—ultimately making us all better communicators. Vyvyan Evans's *Emoji Code* charts the evolutionary origins of language, the social and cultural factors that govern its use, change, and development; as well as what it reveals about the human mind. In most communication, nonverbal cues are our emotional expression, signal our personality, and are our attitude toward our addressee. They provide the essential means of nuance and are essential to getting our ideas across. But in digital communication, these cues are missing, which can lead to miscommunication. The explosion of emoji, in less than four years, has arisen precisely because it fulfills exactly these functions which are essential for communication but are otherwise absent in texts and emails. Evans persuasively argues that emoji add tone and an emotional voice and nuance, making us more effective communicators in the digital age.

A World Without "Whom" Emmy J. Favilla, BuzzFeed, 2017-11-14 A provocative and jaunty romp through the dos and don'ts of writing for the internet (NYT)--the practical, the playful, and the politically correct--from BuzzFeed copy chief Emmy Favilla. *A World Without Whom* is Eats, Shoots & Leaves for the internet age, and BuzzFeed global copy chief Emmy Favilla is the witty go-to style guru of webspeak. As language evolves faster than ever before, what is the future of correct writing? When Favilla was tasked with creating a style guide for BuzzFeed, she opted for spelling, grammar, and punctuation guidelines that would reflect not only the site's lighthearted tone, but also how readers actually use language IRL. With wry cleverness and an uncanny intuition for the possibilities of internet-age expression, Favilla makes a case for breaking the rules laid out by Strunk and White: A world without whom, she argues, is a world with more room for writing that's clear, timely, pleasurable, and politically aware. Featuring priceless emoji strings, sidebars, quizzes, and style debates among the most lovable word nerds in the digital media world--of which Favilla is queen--*A World Without Whom* is essential for readers and writers of virtually everything: news articles, blog posts, tweets, texts, emails, and whatever comes next . . . so basically everyone.

Prune Gabrielle Hamilton, 2014-11-04 NEW YORK TIMES BESTSELLER From Gabrielle Hamilton, bestselling author of *Blood, Bones & Butter*, comes her eagerly anticipated cookbook debut filled with signature recipes from her celebrated New York City restaurant Prune. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY NAMED ONE OF THE BEST BOOKS OF THE SEASON BY Time • O: The Oprah Magazine • Bon Appétit • Eater A self-trained cook turned James Beard Award–winning chef, Gabrielle Hamilton opened Prune on New York's Lower East Side fifteen years ago to great acclaim and lines down the block, both of which continue today. A deeply personal and gracious restaurant, in both menu and philosophy, Prune uses the elements of home cooking and elevates them in unexpected ways. The result is delicious food that satisfies on many levels. Highly original in concept, execution, look, and feel, the Prune cookbook is an inspired replica of the restaurant's kitchen binders. It is written to Gabrielle's cooks in her distinctive voice, with as much instruction, encouragement, information, and scolding as you would find if you actually came to work at Prune as a line cook. The recipes have been tried, tasted, and tested dozens if not hundreds of times. Intended for the home cook as well as the kitchen professional, the instructions offer a range of signals for cooks—a head's up on when you have gone too far, things to watch out for that could trip you up, suggestions on how to traverse certain uncomfortable parts of the journey to ultimately help get you to the final destination, an amazing dish. Complete with more than 250 recipes and 250 color photographs, home cooks will find Prune's most requested recipes—Grilled Head-on Shrimp with Anchovy Butter, Bread Heels and Pan Drippings Salad, Tongue and Octopus with Salsa Verde and Mimosa'd Egg, Roasted Capon on Garlic Crouton, Prune's famous Bloody Mary (and all 10 variations). Plus, among other items, a chapter entitled "Garbage"—smart ways to repurpose foods that might have hit the garbage or stockpot in other restaurant kitchens but are turned into appetizing bites and notions at Prune. Featured here are the recipes, approach, philosophy, evolution, and nuances that make them distinctively Prune's. Unconventional and honest, in both tone and content, this book is a welcome expression of the cookbook as we know it. Praise for Prune "Fresh, fascinating . . . entirely pleasurable . . . Since 1999, when the chef Gabrielle Hamilton put Triscuits and canned sardines on the first menu of her East Village bistro, Prune, she has nonchalantly broken countless rules of the food world. The rule that a successful restaurant must breed an empire. The rule that chefs who happen to be women should unconditionally support one another. The rule that great chefs don't make great writers (with her memoir, *Blood, Bones & Butter*). And now, the rule that restaurant food has to be simplified and prettied up for home cooks in order to produce a useful,

irresistible cookbook. . . . [Prune] is the closest thing to the bulging loose-leaf binder, stuck in a corner of almost every restaurant kitchen, ever to be printed and bound between cloth covers. (These happen to be a beautiful deep, dark magenta.)”—The New York Times “One of the most brilliantly minimalist cookbooks in recent memory . . . at once conveys the thrill of restaurant cooking and the wisdom of the author, while making for a charged reading experience.”—Publishers Weekly (starred review)

Algorithms, Automation, and News Neil Thurman, Seth C. Lewis, Jessica Kunert, 2021-05-18 This book examines the growing importance of algorithms and automation—including emerging forms of artificial intelligence—in the gathering, composition, and distribution of news. In it the authors connect a long line of research on journalism and computation with scholarly and professional terrain yet to be explored. Taken as a whole, these chapters share some of the noble ambitions of the pioneering publications on ‘reporting algorithms’, such as a desire to see computing help journalists in their watchdog role by holding power to account. However, they also go further, firstly by addressing the fuller range of technologies that computational journalism now consists of: from chatbots and recommender systems to artificial intelligence and atomised journalism. Secondly, they advance the literature by demonstrating the increased variety of uses for these technologies, including engaging underserved audiences, selling subscriptions, and recombining and re-using content. Thirdly, they problematise computational journalism by, for example, pointing out some of the challenges inherent in applying artificial intelligence to investigative journalism and in trying to preserve public service values. Fourthly, they offer suggestions for future research and practice, including by presenting a framework for developing democratic news recommenders and another that may help us think about computational journalism in a more integrated, structured manner. The chapters in this book were originally published as a special issue of Digital Journalism.

In Defence of the Ordinary Dev Nath Pathak,2021-07-30 'A splendid work of art, In Defence of the Ordinary returns drama, pleasure and awakening to everyday life ... in the tradition of cultural critics like Ashis Nandy and Umberto Eco... The book is one of a kind.' -Prathama Banerjee is a noted historian of the global south and Professor at Centre for the Study of Developing Societies (CSDS), New Delhi. '[A] flâneur of our everyday spheres of life, [the author] excavates the multiple layers of social, political and artistic thinking and experimentation ... with an unparalleled lightness of prose worthy of a Balthasar Gracián and Georg Lichtenberg.' -Ramin Jahanbegloo is a philosopher and Vice Dean and Director at Mahatma Gandhi Centre for Peace Studies, O.P. Jindal Global University, India. '[The] book builds an engaging web of thoughts about things which are ordinary but in their very ordinariness hide deep social truths... Dev Nath Pathak brings a lightness to his critical eye while reminding us of how much of the ordinary has been forgotten in academic pursuits.' -Sundar Sarukkai is a renowned philosopher and thinker in contemporary India. In Defence of the Ordinary is laced with light humour, soaked in serious sarcasm and powered with poetic polemics. Informed by sources such as psychoanalysis, philosophy, yoga, anthropology, popular cinema, folk songs and everything that is part of an ordinary living, it is a sociologist's sincere ruminations on the layered ordinariness. The book invites us to rethink the ways of seeing, understanding, enacting, emoting and relating with provocative ideas like why we don't value ordinariness and how our pursuit of extraordinary is misleading us into mishaps. The key objective of the human existence is that of the book too, namely, awakening the dormant potentials of emancipation every day rather than waiting for an occasional charisma induced by a holy book or a secular gimmick or an orchestrated leadership.

She's confused and distressed by her predicament, and there's a caveman hauling her back to his cavehome. She's not at all interested in Ehd's primitive advances, and she just can't seem to get him to listen. Pedagogical Explorations in a Posthuman Age Jan Jagodzinski,2020-07-03 This book problematizes the role of education in an increasingly mediatized world through the lenses of creativity, new media, and consumerism. At the core of the issue, the author argues, creativity in art education is being co-opted to serve the purposes of current economic trends towards designer capitalism. Using an East meets West approach, Jagodzinski draws on Deleuze and Guattarian philosophy to explore visual and popular culture in Korean society, addressing the tensions that exist between designer education and art that explores the human condition. In doing so, he challenges art educators to envision a new paradigm for education which questions established media ontologies and

incorporates new ways to confront the crisis of the Anthropocene.

What the Willow Said as it Fell Andrea Scarpino, 2016 This book-length poem by the current Poet Laureate of Michigan's Upper Peninsula, Andrea Scarpino, asks the reader to sit with and inside the body's many losses, to grow comfortable and restless in its vagaries, and to acknowledge the myriad ways the body shapes and informs our lives.
