Health and Physical Education Deborah Callcott,Judith Miller,Susan Wilson-Gahan,2015-09-08 Health and physical education encompasses the development of movement competence and health literacies crucial to child and adolescent health and wellbeing. Health and Physical Education: Preparing Educators for the Future, 2nd edition continues to offer a comprehensive overview of the knowledge, understanding, skills and theoretical underpinnings required to teach health and physical education in Australian schools. This edition outlines the latest developments to the Australian Curriculum: Health and Physical Education, to help pre-service teacher educators understand the application of these concepts in practice. Maintaining a focus on the education of all learning ages, it provides a stronger focus on physical education and development in early childhood, and broader coverage of the perspectives of culturally diverse students. Well-structured and engaging, this edition has been updated to include the latest literature, figures, statistics and resources. Learning is enhanced through further reading, end-of-chapter questions, case studies and an updated and comprehensive companion website.

Building Positive Behavior Support Systems in Schools Deanne A. Crone,Leanne S. Hawken,Robert H. Horner,2015-02-04 A widely used practitioner guide and text, this book presents a blueprint for meeting the challenges of severe problem behavior in grades PreK-8. It shows how to provide effective behavior support for the 1-5% of students who require intensive, individualized intervention. Case examples illustrate step-by-step procedures for identifying student needs using functional behavioral assessment (FBA) and designing, implementing, and evaluating team-based behavior support plans (BSPs). The book also describes how to build school- and districtwide capacity to conduct FBA-BSPs. Reproducible forms and worksheets are included; purchasers get access to a Web page where they can download and print the reproducible materials in a convenient 8 1/2 x 11 size. New to This Edition: *Incorporates current FBA-BSP research and best practices. *Chapters on developing districtwide capacity; FBA apps and software; applications for academic problems; and early childhood settings. *Increased attention to FBA-BSP as a Tier III intervention within a multi-tiered framework. See also the authors' less intensive intervention for moderate problem behavior: Responding to Problem Behavior in Schools, Second Edition: The Behavior Education Program, and the related training DVD, Check-In, Check-Out, Second Edition: A Tier 2 Intervention for Students at Risk.

Interface Design for Learning Dorian Peters,2014 In offices, colleges, and living rooms across the globe, learners of all ages are logging into virtual laboratories, online classrooms, and 3D worlds. Kids from kindergarten to high school are honing math and literacy skills on their phones and iPads. If that weren't enough, people worldwide are aggregating internet services (from social networks to media content) to learn from each other in "Personal Learning Environments." Strange as it sounds, the future of education is now as much in the hands of digital designers and programmers as it is in the hands of teachers. And yet, as interface designers, how much do we really know about how people learn? How does interface design actually impact learning? And how do we design environments that support both the cognitive and emotional sides of learning experiences? The answers have been hidden away in the research on education, psychology, and human computer interaction, until now. Packed with over 100 evidence-based strategies, in this book you'll learn how to: Design educational games, apps, and multimedia interfaces in ways that enhance learning Support creativity, problem-solving, and collaboration through interface design Design effective visual layouts, navigation, and multimedia for online and mobile learning Improve educational outcomes through interface design.

JSL Vol 26-N2 JOURNAL OF SCHOOL LEADERSHIP,2016-04-13 JSL invites the submission of manuscripts that contribute to the exchange of ideas and scholarship about schools and leadership. All theoretical and methological approaches are welcome. We do not advocate or practice a bias toward any mode of inquiry (e.g., qualitative vs. quantitative; empirical vs. conceptual; discipline-based vs. interdisciplinary) and instead operate from the assumption that all careful and methodologically sound research has the potential to contribute to our understanding of school leadership. We strongly encourage authors to consider both the local and global implications of their work. The journal's goal is to clearly communicate with a diverse audience including both school-based and university-based educators. The journal embraces a board conception of school leadership and welcomes manuscripts that reflect the diversity of ways in which this term is understood. The journal is interested not only in manuscripts that focus on administrative leadership in schools and school districts, but also in manuscripts that inquire about teacher, student, parent, and community leadership.

Conducting Qualitative Research of Learning in Online Spaces Hannah R. Gerber,Sandra Schamroth Abrams,Jen Scott Curwood,Alecia Marie Magnifico,2016-03-17 Qualitative researchers have grappled with how online inquiry shifts research procedures such as gaining access to spaces, communicating with participants, and obtaining informed consent. Drawing on a multimethod approach, Conducting Qualitative Research of Learning in Online Spaces explores how to design and conduct diverse studies in online environments. Authors Hannah R. Gerber, Sandra Schamroth Abrams, Jen Scott Curwood, and Alecia Marie Magnifico focus on formal and informal learning practices that occur in evolving online spaces. The text shows researchers how they can draw upon a variety of theoretical frameworks, methodological approaches, and data sources. Examples of qualitative research in online spaces, along with guiding questions, support readers at every phase of the research process.

Apps for Librarians Nicole Hennig,2014-09-24 How can your library—and your patrons—benefit from mobile apps? This guidebook offers a solid foundation in app-literacy, supplying librarians with the knowledge to review and recommend apps, offer workshops, and become the app expert for their communities. Smartphones and other mobile devices that support downloadable applications—universally referred to as apps—can be used to foster productivity, conduct research, or read and study. Additionally, savvy librarians can better serve their communities by gaining expertise in mobile technologies and being qualified to make app recommendations to patrons. This book introduces you to the apps that can help you save time and increase your own productivity as well as serve as a curator and reviewer of apps and resident expert to benefit your patrons. Apps for Librarians: Using the Best Mobile Technology to Educate, Create, and Engage will save you from wading through and learning about the millions of apps available today and direct you to the very best apps in areas important to education, the workplace, and professional development. Organized by function—reading, writing, reference, multi-media, and productivity—apps are profiled with the following information: title, developer, price, platforms, general description, examples of use, and key features that make it worthwhile for learning and creative work.

Coding Freedom E. Gabriella Coleman,2013 Who are computer hackers? What is free software? And what does the emergence of a community dedicated to the production of free and open source software--and to hacking as a technical, aesthetic, and moral project--reveal about the values of contemporary liberalism? Exploring the rise and political significance of the free and open source software (F/OSS) movement in the United States and Europe, Coding Freedom details the ethics behind hackers' devotion to F/OSS, the social codes that guide its production, and the political struggles through which hackers question the scope and direction of copyright and patent law. In telling the story of the F/OSS movement, the book unfolds a broader narrative involving computing, the politics of access, and intellectual property. E. Gabriella Coleman tracks the ways in which hackers collaborate and examines passionate manifestos, hacker humor, free software project governance, and festive hacker conferences. Looking at the ways that hackers sustain their productive freedom, Coleman shows that these activists, driven by a commitment to their work,

reformulate key ideals including free speech, transparency, and meritocracy, and refuse restrictive intellectual protections. Coleman demonstrates how hacking, so often marginalized or misunderstood, sheds light on the continuing relevance of liberalism in online collaboration.

  Coding Places Yuri Takhteyev,2012-09-21 An examination of software practice in Brazil that reveals both the globalization and the localization of software development. Software development would seem to be a quintessential example of today's Internet-enabled "knowledge work"—a global profession not bound by the constraints of geography. In Coding Places, Yuri Takhteyev looks at the work of software developers who inhabit two contexts: a geographical area—in this case, greater Rio de Janeiro—and a "world of practice," a global system of activities linked by shared meanings and joint practice. The work of the Brazilian developers, Takhteyev discovers, reveals a paradox of the world of software: it is both diffuse and sharply centralized. The world of software revolves around a handful of places—in particular, the San Francisco Bay area—that exercise substantial control over both the material and cultural elements of software production. Takhteyev shows how in this context Brazilian software developers work to find their place in the world of software and to bring its benefits to their city. Takhteyev's study closely examines Lua, an open source programming language developed in Rio but used in such internationally popular products as World of Warcraft and Angry Birds. He shows that Lua had to be separated from its local origins on the periphery in order to achieve success abroad. The developers, Portuguese speakers, used English in much of their work on Lua. By bringing to light the work that peripheral practitioners must do to give software its seeming universality, Takhteyev offers a revealing perspective on the not-so-flat world of globalization.
