*Malaysia* Shankaran Nambiar, 2022-12-07 Transformation without thought runs the risk of being short term or a kneejerk reaction to events. Shaping the future requires forethought, planning and informed decision making. Nambiar has made it his business to encourage us all to think, and provides us with some trenchant thoughts and ideas to help us along the way. Datuk Seri Anwar Ibrahim. Living on the Edge Andrew M Carruthers, 2018-06-27 In Indonesia's Riau Islands Province – a place envisioned as a distinctly “Malay Province” upon its legal formation in 2002 – ethnic Malays are the proud heirs and custodians of a rich legacy associated with a once-sprawling Malay empire that stretched across present-day transnational borders from Indonesia, to Singapore, to Malaysia. Malays of Bugis descent have long played a disproportionately central role in the history (and the historiography or “history-telling”) of the region that now encompasses Indonesia's Riau Islands Province. While steadfastly “Malay”, members of this community readily acknowledge that their ethnically Bugis roots maintain an enduring historical and ideological salience in their everyday lives. However, transregional economic trends and rapid sociodemographic shift shaped by ongoing migration flows have led to feelings of “marginalization” (peminggiran) among the islands' Malay-Bugis community. This has led them to claim that they are being gradually pushed to the literal and figurative “edges” of social life in the Riau Islands Province. Fears that a one-time ethnic “majority is becoming a minority” (mayoritas menjadi minoritas) have fuelled feelings of inter-ethnic resentment, and have shaped provincial government policies geared toward the “preservation” of Malay custom. While international focus continues to centre on Indonesia's Chinese-pribumi divide as diagnostic of Indonesian inter-ethnic and religious relations on edge, a grounded assessment of ethnicity in the Riau islands offers an alternative perspective on these important issues.

**Signals in the Noise: Notes on Penang, Malaysia and the World** Ooi Kee Beng, 2024-01-05 Malaysia is no easy country to analyse, or even to understand. With so many narratives about the country, its peoples, and its

histories, the noise generated – both online and off – can be as deafening as that of any rave party. Since 2019, Malaysians have lived through a unique period in the country's history: Amid the Covid pandemic and its many challenges, Malaysia experienced three prime minister changes, and countless other political dramas and plot twists. *Signals in the Noise* is not just a book on politics, though. Moving with ease between different sociopolitical and socioeconomic discourses, this collection of Ooi Kee Beng's columns and commentaries – published between 2019 and 2023 – showcases more than ever his talent as a historian and philosopher, alongside his prowess as a political scientist. This wide-ranging collection is a must-read beginner's guide to Malaysian politics. It also highlights Ooi's love for his hometown of Penang, his concern for the environment, and how the arts define a society and its perceptions of the world.

**The SIJORI Cross-Border Region** Francis E Hutchinson, Terence Chong, 2016-06-14 Twenty-five years ago, the governments of Singapore, Malaysia, and Indonesia agreed to jointly promote the city-state, the state of Johor in Malaysia, and the Riau Islands in Indonesia. Facilitated by common cultural references, a more distant shared history, and complementary attributes, interactions between the three territories developed quickly. Logistics networks have proliferated and production chains link firms based in one location with affiliates or transport facilities in the other territories. These cross-border links have enabled all three locations to develop their economies and enjoy rising standards of living. Initially economic in nature, the interactions between Singapore, Johor, and the Riau Islands have multiplied and grown deeper. Today, people cross the borders to work, go to school, or avail of an increasing range of goods and services. New political, social, and cultural phenomena have developed. Policymakers in the various territories now need to reconcile economic imperatives and issues of identity and sovereignty. Enabled by their proximity and increasing opportunities, families have also begun to straddle borders, with resulting questions about citizenship and belonging. Using the Cross-Border Region framework – which seeks to analyse these three territories as one entity simultaneously divided and bound together by its borders – this book brings together scholars from a range of disciplines. Its 18 chapters and more than 20 maps examine the interaction between Singapore, Johor, and the Riau Islands over the past quarter-century, and seek to shed light on how these territories could develop in the future.

Discursive Approaches to Politics in Malaysia Kumaran Rajandran, Charity Lee, 2023-01-01 This open access book examines Malaysian politics using a linguistic perspective. It explores how language serves to (de)legitimise governance, and its subsequent policies and activities in Malaysia. Grounded in discourse studies, this edited volume presents research on the discourses produced by and on Barisan Nasional, Pakatan Harapan and Perikatan Nasional from 2008 to 2020, studying how political actors (de)legitimise their governance through discursive means. The thirteen original chapters select spoken, print and digital texts in English, Malay, Mandarin and Tamil, and deploy varied theoretical and methodological approaches. Their linguistic analysis unearths the language features and strategies that facilitate (de)legitimation. It shows how political actors shape the discursive representation and evaluation of multiple concerns in Malaysia. Consequently, *Discursive Approaches to Politics in Malaysia: Legitimising Governance* improves our understanding of contemporary Malaysian political discourse. It is of interest to graduates and researchers in the field of discourse studies, seeking to understand the discursive contours of politics in this developing Asian country.

**50 Years of Malaysia: Federalism Revisited** Dr. Andrew J. Harding, Dr. James Chin, 2014-08-15 On 16 September 1963 Malaysia came into being with the accession of Sabah, Sarawak and Singapore to the existing Federation of Malaya. This book marks the 50th anniversary of this notable event in South East Asia's history. The focus of the book

will be mainly on the experience of Sabah and Sarawak as subjects of the federation. It looks at the experience of federalism from a number of different perspectives, keeping in mind not just the effects of federalism on Sabah and Sarawak but also the effects on the federation as a whole. Has the bargain of 1963 been adhered to? Has Malaysian federalism been a successful example of this form of government in Asia, or has the bargain been undermined in ways contrary to the original deal in the Malaysia Agreement of 1963? What have been the practical effects on East Malaysia during 50 years?

**The Political Economy of Financial Development in Malaysia** Lena Rethel, 2020-12-20 Current inquiries into the political economy of financial policymaking in Malaysia tend to focus on the high-level drama of crisis politics or simply point to the limited impact of post-crisis financial reforms, given that politico-business relations have remained close. In so doing, pundits ignore a number of intriguing questions: what is the relationship between financial development and financialisation and how has it played out in the Malaysian context? And more generally: how can a country like Malaysia become significantly more financially developed, yet fail to emancipate the financial system from political control; a core element of the financial development discourse? To unravel the complexities of this puzzle, this book subjects the history and contemporary practices of financial policymaking in Malaysia to scrutiny. It argues that to understand financial development in Malaysia, its progress and reversals, it is important to conceptualise it as a political, rather than a merely technical process. In so doing, the book echoes a more profound concern in the political economy literature, namely the evolving relationship between states and markets, and the supposed retreat or reassertion of the state at a time of increasing (financial) globalisation. The book can generate further insights into the evolving role of the state with regard to broader processes of development and marketisation, as they relate specifically to finance.

Malaysia Saw Swee-Hock, 2003-08-01 This book documents the trends and challenges that are taking place in the more important sectors of Malaysia. The chapters, written by specialists with an intimate knowledge of the country, cover major topics such as population trends and patterns, Islam Hadhari, Bangsa Malaysia, politics and the 2004 general election, civil service reforms, corporate governance, educational reforms, the impact of globalisation on the economy, and Malaysia's relations with Singapore. Recent developments in these areas are likely to have a profound bearing on Malaysia and its neighbours in the years ahead. The book provides readers with a greater appreciation and a deeper understanding of Malaysia, which is undergoing significant changes and challenges.

**The Communal Edge to Plural Societies, India and Malaysia** Ratna Naidu, 1980

**The Defeat of Barisan Nasional** Francis E Hutchinson, Lee Hwok Aun, 2019-12-16 The results of Malaysia's 14th General Elections of May 2018 were unexpected and transformative. Against conventional wisdom, the newly reconfigured opposition grouping Pakatan Harapan (PH) decisively defeated the incumbent Barisan Nasional (BN), ending six decades of uninterrupted dominant one-party rule. Despite a long-running financial scandal dogging the ruling coalition, pollsters and commentators predicted a solid BN victory or, at least, a narrow parliamentary majority. Yet, on the day, deeply rooted political dynamics and influential actors came together, sweeping aside many prevailing assumptions and reconfiguring the country's political reality in the process. In order to understand the elections and their implications, this edited volume brings together contributions from ISEAS - Yusof Ishak Institute researchers and a group of selected collaborators to examine the elections from three angles: campaign dynamics; important trends among major interest groups; and local-level dynamics and developments in key states. This analytical work is complemented by personal narratives from a selection of GE-14 participants.

**Tragic Orphans** Carl Vadivella Belle, 2014-12-30 In 1938, noting that the bulk of the Indian population formed a "landless proletariat" and despairing of the ability of the factionalized Indian community to unite in pursuit of common objectives, activist K.A. Neelakanda Ayer forecast that the fate of Indians in Malaya would be to become "Tragic orphans - of whom India has forgotten and Malaya looks down upon with contempt". Ayer's words continue to resonate; as a minority group in a nation dominated politically by colonially derived narratives of "race" and ethnicity and riven by the imperatives of religion, the general trajectory of the economically and politically impotent Indian community has been one of increasing irrelevance. This book explores the history of the modern Indian presence in Malaysia, and traces the vital role played by the Indian community in the construction of contemporary Malaysia. In this comprehensive new study, Carl Vadivella Belle offers fresh insights on the Indian experience spanning the period from the colonial recruitment of Indian labour to the post-Merdeka political, economic and social marginalization of Indians. While recent Indian challenges to the political status quo - a regime described as that of "benign neglect" - promoted Indian hopes of reform, change and uplift, the author concludes that the dictates of political discourse permeated by the ideologies of communalism offer limited prospects for meaningful change.

*MALAYSIA POST-MAHATHIR: A Decade of Change* Professor James Chin, Professor Joern Dosch, 2015-08-15

Malaysia's 14th General Election and UMNO's Fall Edmund Terence Gomez, Mohamed Nawab Mohamed Osman, 2019-10-08 The 2018 Malaysian General Election will stand as a major defining event in Malaysian history, when the ruling Barisan Nasional coalition unexpectedly lost power in the country they had ruled for over half a century. This volume brings together scholars who assess one fundamental factor that brought about this game-changing event in Malaysian politics: intra-elite feuding in the leading Malay-based political parties. This study provides an analysis of individual state politics as well as national trends shaped by the actions of leaders in government and the opposition. An indispensable guide for scholars studying the politics of Malaysia and of Southeast Asia more broadly, it will be of great interest for all readers with an interest in Malaysian politics.
