Keyboard Presents the Evolution of Electronic Dance Music Peter Kirn,2011-11-01 (Keyboard Presents). From its roots in 1970s New York disco and '80s Detroit techno to today's international, mainstream explosion of such genres as house, trance & dubstep, electronic dance music has reshaped the popular musical landscape. This book digs deep through the archives of Keyboard magazine to unearth the insider history of the art and technology of the EDM movement, written as it happened. We hear from the artists who defined the genre (Jean Michel Jarre, Depeche Mode, Deadmau5, BT, Kraftwerk and more). Revisit the most significant synths, beatboxes, and musical tools that made the music possible, through the eyes of those who first played them. Learn the history, then the expert techniques behind the music, so you can apply the same craft to your own music and mixes.

The Musical Artistry of Rap Martin E. Connor,2018-01-12 For years Rap artists have met with mixed reception--acclaimed by fans yet largely overlooked by scholars. Focusing on 135 tracks from 56 artists, this survey appraises the artistry of the genre with updates to the traditional methods and measures of musicology. Rap synthesizes rhythmic vocals with complex beats, intonational systems, song structures, orchestration and instrumentalism. The author advances a rethinking of musical notation and challenges the conventional understanding of Rap through analysis of such artists as Eminem, Kanye West and Jean Grae.

Technology's Role in Music Composition Daniel F. R. Henry,2013

Hip Hop as Performance and Ritual William E. Smith Ph. D.,William E. Smith,2005 Hip-hop has had a fertile and exciting life in the underground scene of Washington DC. There are several clubs that have nurtured the music and many individuals who have upheld the art form in the shadow of DC's popular music, go-go. Priest do Nomad is one of these formidable MC's who kept the torch lit. This is the story in historical, musicological and anthropological context. By looking at Priest da Nomad (an underground hip-hop MC) through his various performances, relationships, and compositions, we may be able to understand more clearly what goes on in the life of an underground hip-hop artist and find out what informs his perspective vis-à-vis other pop hip-hop artists. This will also give us a chance to investigate the apparent links between the Africanisms that exist in all other forms of Afro-Diasporic expressions such as jazz, blues, reggae, calypso, Latin music and compare and contrast them with hip-hop.

This is Our House Hillegonda C. Rietveld,2019-01-04 Originally published in 1998. House music has had a considerable influence in shaping the sound of pop music from the late 1980s onwards. From underground dance events to the pop charts, traces of this aesthetic can be found in many guises. This book traces a genealogy of house and maps some of the power structures that are at play in its production and consumptoin. Places like Chicago, New York, London, Manchester, Amsterdam and Rotterdam have been visited, providing the material to discuss such subjects as contemporary dance culture, DJs and the roles of musical technologies. The author, Hillegonda Rietveld, was already steeped in dance club culture before she decided to write this loving piece of academic prose about house. Taking critical culture studies as its aesthetic fuel, she ram-raids boundaries of academic disciplines, fusing ideas like a meticulous DJing curator.

Musicological Identities Jacqueline Warwick,2017-07-05 No music scholar has made as profound an impact on contemporary thought as Susan McClary, a central figure in what has been termed the 'new musicology'. In this volume seventeen distinguished scholars pay tribute to her work, with essays addressing three approaches to music that have characterized her own writings: reassessing music's role in identity formation, particularly regarding gender, sexuality, and race; exploring music's capacity to define and regulate perceptions and experiences of time; and advancing new modes of analysis more appropriate to those aspects and modes of musicking ignored by traditional methods. Contributors include, in overlapping categories, many fellow pioneers, current colleagues, and former students, and their essays, like McClary's own work, address a wide range of repertoires ranging from the established canon to a variety of popular genres. The collection represents the generational arrival of the 'new' musicology into full maturity, dividing fairly evenly between pre-eminent scholars of music and a group of younger scholars who have already made their mark in significant ways. But the collection is also, and fundamentally, interdisciplinary in nature, in active conversation with such fields as history, anthropology, philosophy, aesthetics, media studies, film music studies, dramatic criticism, women's studies, and cultural studies.

The Kingdom of Childhood Rebecca Coleman,2011-09-27 Thrown together to organize a fund-raiser for their private school, teacher Judy McFarland and student Zach Patterson, bonded by loneliness, embark on an affair that corrupts them both as the lines between adult and child are blurred.

College Andrew Delbanco,2023-04-18 The strengths and failures of the American college, and why liberal education still matters As the commercialization of American higher education accelerates, more and more students are coming to college with the narrow aim of obtaining a preprofessional credential. The traditional four-year college experience—an exploratory time for students to discover their passions and test ideas and values with the help of teachers and peers—is in danger of becoming a thing of the past. In College, prominent cultural critic Andrew Delbanco offers a trenchant defense of such an education, and warns that it is becoming a privilege reserved for the relatively rich. In describing what a true college education should be, he demonstrates why making it available to as many young people as possible remains central to America's democratic promise. In a brisk and vivid historical narrative, Delbanco explains how

the idea of college arose in the colonial period from the Puritan idea of the gathered church, how it struggled to survive in the nineteenth century in the shadow of the new research universities, and how, in the twentieth century, it slowly opened its doors to women, minorities, and students from low-income families. He describes the unique strengths of America’s colleges in our era of globalization and, while recognizing the growing centrality of science, technology, and vocational subjects in the curriculum, he mounts a vigorous defense of a broadly humanistic education for all. Acknowledging the serious financial, intellectual, and ethical challenges that all colleges face today, Delbanco considers what is at stake in the urgent effort to protect these venerable institutions for future generations.

Everyday Music Listening Ruth Herbert,2016-04-15 In what ways does listening to music shape everyday perception? Is music particularly effective in promoting shifts in consciousness? Is there any difference perceptually between contemplating one's surroundings and experiencing a work of art? Everyday Music Listening is the first book to focus in depth on the detailed nature of music listening episodes as lived mental experiences. Ruth Herbert uses new empirical data to explore the psychological processes involved in everyday music listening scenarios, charting interactions between music, perceiver and environment in a diverse range of real-world contexts. Findings are integrated with insights from a broad range of literature, including consciousness studies and research into altered states of consciousness, as well as ideas from ethology and evolutionary psychology, suggesting that a psychobiological capacity for trancing is linked to the origins of making and receiving of art. The term 'trance' is not generally associated with music listening outside ethnomusicological studies of strong experiences, yet 'hypnotic-like' involvements in daily life have long been recognized by hypnotherapy researchers. The author argues that multiply distributed attention - prevalent in much contemporary listening- does not necessarily indicate superficial engagement. Music emerges as a particularly effective mediator of experience. Absorption and dissociation, as manifestations of trancing, are self-regulatory processes, often operating at the level of unconscious awareness, that support individuals' perceptions of psychological health. This fascinating study brings together research and theory from a wide range of fields to provide a new framework for understanding the phenomenology of music listening in a way that will appeal to both specialist academic audiences and a broad general readership.

The Local Scenes and Global Culture of Psytrance Graham St John,2010-06-10 This lively textual symposium offers a collection of formative research on the culture of global psytrance (psychedelic trance). As the first book to address the diverse transnationalism of this contemporary electronic dance music phenomenon, the collection hosts interdisciplinary research addressing psytrance as a product of intersecting local and global trajectories. Contributing to theories of globalization, postmodernism, counterculture, youth subcultures, neotribes, the carnivalesque, music scenes and technologies, dance ritual and spirituality, chapters introduce psytrance in Goa, the UK, Israel, Japan, the US, Italy, Czech Republic, Portugal and Australia. As a global occurrence indebted to 1960s psychedelia, sharing music production technologies and DJ techniques with electronic dance music scenes, and harnessing the communication capabilities of the Internet, psytrance and its cultural implications are thoroughly discussed in this first scholarly volume of its kind.

Civil Litigation Thomas F. Goldman,Alice Hart Hughes,2012 This fully-updated text is designed to build the skill sets students need to succeed as members of today's civil litigation teams. CIVIL LITIGATION: PROCESS AND PROCEDURES, 2/e clearly presents legal concepts, emphasizing the details of the litigation process, critical thinking, and hands-on exercises that develop practical law office skills. Students will gain real-world procedural skills, master electronic discovery and court rules; learn how to handle ethical challenges in civil litigation practice; and develop a professional employment portfolio. This edition includes 46 video case studies that illustrate each stage of the litigation process, showing the day-to-day activities of the litigation team preparing and trying a civil case in a real world setting. Extensive assignment-related case materials and documents are provided in the text and online.

Fields in Motion Dena Davida,2011-10-01 Fields in Motion: Ethnography in the Worlds of Dance examines the deeper meanings and resonances of artistic dance in contemporary culture. The book comprises four sections: methods and methodologies, autoethnography, pedagogies and creative processes, and choreographies as cultural and spiritual representations. The contributors bring an insiders insight to their accounts of the nature and function of these artistic practices, giving voice to dancers, dance teachers, creators, programmers, spectators, students, and scholars. International and intergenerational, this collection of groundbreaking scholarly research points to a new direction for both dance studies and dance anthropology. Traditionally the exclusive domain of aesthetic philosophers, the art of dance is here reframed as cultural practice, and its significance is revealed through a chorus of voices from practitioners and insider ethnographers.
