**I'm Already Professionally Developed** Eddie B.,2019-02-11 Eddie Brown found himself in a spot most teachers know all too well: Some days he loved his job, and other days he hated it. Teaching gave him money to take care of his family and a sense of fulfillment. But the culture, the work, the bureaucracy, and the stress wore him out. He walked a thin line between inspiration and despair. Each new school year, he'd give his relationship with academia another try, rolling the dice and praying to avoid a breakup. Things improved when he started coping with his struggles by engaging with them through comedy, joining the Teachers Only Comedy Tour. He went from performing on local stages in Houston in front of a few dozen people to telling jokes in major arenas and theaters across the country. From Charlotte to New York City, Dallas to Biloxi, Baton Rouge to Seattle, Montgomery to Denver, and countless other cities across America, tens of thousands of supportive fans have welcomed him with open arms, loud cheers, and contagious laughter. Join the author as he shares the struggles of what it means to be a teacher and celebrates the significance of mentoring, educating, and encouraging students.

*Why Do Teachers Need to Know About Diverse Learning Needs?* Sue Soan,2021-01-28 As a teacher, what are a teacher's personal, social and emotional responsibilities in supporting pupils with diverse learning needs? There is no longer a place for a teacher who denies their role in the education of pupils with diverse needs. But understanding how to meet these challenges, particularly in amongst the other challenges of teaching and the classroom, can seem daunting. Drawing on examples from early years to college, this book looks at what inclusion and inclusive practice means in practice and how it relates to different aspects of teaching. Covering issues related to teacher well-being, resilience and other professional skills this book offers the reader the opportunity to use case studies and research to reflect on their own professional practice. Expertly crafted by Sue Soan, drawing on the expertise of a team of practitioners and academics, this book brings together the latest research and current practice. International case studies showcase examples of practice and reflexive questions encourage the reader to explore their experiences, knowledge and expectations to help them to develop as a practitioner.

**Empowering Teachers through Environmental and Sustainability Education** Melissa Barnes,Deborah Moore,Sylvia Christine Almeida,2021-05-23 Empowering Teachers through Environmental and Sustainability Education draws inspiration from an empirical study exploring early career teachers' attempts at enacting Environmental and Sustainability Education (ESE) in their everyday teaching practices. It showcases how a confluence of personal, professional and environmental identities supports implementation of ESE. Additionally, this book discusses key concepts and issues surrounding ESE and the ways in which teachers may claim agency and power to create change in their classroom practices. Drawing from theoretical perspectives, such as Bourdieu's 'thinking tools' habitus and capital, theories of identity, and Foucault's concept of power and knowledge relations, this book explores how teachers negotiate policies, curriculum and institutional norms to further theoretical and practical understanding of ESE. The use of personal narratives offers new insights into teachers' agency in creating localised yet powerful change through small and meaningful actions. The purpose of this book, therefore, is to explore ways in which meaningful change can be made in educational settings through these small agentive and yet empowering steps. This book reveals that teachers can enact agency and navigate the power structures that exist within educational settings in order to make ESE meaningful within their classrooms.

**Aspirations, Education and Social Justice** Caroline Sarojini Hart,2012-11-22 Caroline Hart presents a radical new paradigm for thinking about the role of education in the development of human flourishing. The book applies Amartya Sen's capability approach to understanding the nature of aspirations in the policy context of strategies to widen participation in higher education. Sen's work is synthesised with key concepts from Pierre Bourdieu to develop a framework for understanding the processes through which young people are enabled and disabled in relation to developing and achieving their aspirations. Drawing on an empirical study involving 600 young people aged 17-19 in their final years of education, this text explores the hopes and dreams of these young people for the future. The young people's voices challenge dominant discourses of aspiration, well-being and advantage, and invite readers to rethink their own positions on these issues.

**Facilitating Student Learning and Engagement in Higher Education through Assessment Rubrics** Peter Grainger,Katie Weir,2020-01-13 Despite significant reforms in the past decade in relation to criteria- and standards-based assessment in tertiary education contexts, assessment remains the most significantly criticised aspect of the student tertiary experience and a major driver of student engagement. The key tool in this

experience is the rubric, also known as the criteria sheet or the ‘Guide to Making Judgments’. This book discusses the significance of assessment rubrics in tertiary education. Assessment rubrics impact the student experience in multiple ways: as a guide to students and assessors prior to grading; at the point of grading by the assessor; when moderating during the post-grading process; in providing an additional guide to students in the assessment planning stage; and as a feedback mechanism to students once results are released. This book explains how the rubric reflects key principles of assessment. It explores different models of rubrics used in tertiary contexts, and provides data from students and academics on the efficacy of these various models as the key tool when marking, moderating and providing feedback. It also details exemplars of rubrics used in academic disciplines, and discusses how higher education teachers use exemplars and how they integrate exemplars with criteria and rubrics. It captures the student voice by explaining how students use rubrics for self-assessment and self-regulation purposes. A key inclusion is the importance of sessional staff input into the creation of assessment rubrics prior to the grading, moderating and feedback processes.

The Campus Color Line Eddie R. Cole,2022-02-15 Although it is commonly known that college students and other activists, as well as politicians, actively participated in the fight for and against civil rights in the middle decades of the twentieth century, historical accounts have not adequately focused on the roles that the nation's college presidents played in the debates concerning racism. Focusing on the period between 1948 and 1968, The Campus Color Line sheds light on the important place of college presidents in the struggle for racial parity. College presidents, during a time of violence and unrest, initiated and shaped racial policies and practices inside and outside of the educational sphere. The Campus Color Line illuminates how the legacy of academic leaders' actions continues to influence the unfinished struggle for Black freedom and racial equity in education and beyond.--
