The Festivalization of Culture Jodie Taylor,2016-03-09 The Festivalization of Culture explores the links between various local and global cultures, communities, identities and lifestyle narratives as they are both constructed and experienced in the festival context. Drawing on a wide range of case studies from Australia and Europe, festivals are examined as sites for the performance and critique of lifestyle, identity and cultural politics; as vehicles for the mobilization and cementation of local and global communities; and as spatio-temporal events that inspire and determine meaning in people's lives. Investigating the manner in which festivals are no longer merely periodic, cultural, religious or historical events within communities, but rather a popular means through which citizens consume and experience culture, this book also sheds light on the increasing diversity of contemporary societies and the role played by festivals as sites of cohesion, cultural critique and social mobility. As such, this book will be of interest to those working in areas such as the sociology, consumption and commodification of culture, social and cultural geography, anthropology, cultural studies and popular music studies.

Music Festivals in the UK Chris Anderton,2018-07-17 The outdoor music festival market has developed and commercialised significantly since the mid-1990s, and is now a mainstream part of the British summertime leisure experience. The overall number of outdoor music festivals staged in the UK doubled between 2005 and 2011 to reach a peak of over 500 events. UK Music (2016) estimates that the sector attracts over 3.7 million attendances each year, and that music tourism as a whole sustains nearly 40,000 full-time jobs. Music Festivals in the UK is the first extended investigation into this commercialised rock and pop festival sector, and examines events of all sizes: from mega-events such as Glastonbury Festival, V Festival and the Reading and Leeds Festivals to 'boutique' events with maximum attendances as small as 250. In the past, research into festivals has typically focused either on their carnivalesque heritage or on developing managerial tools for the field of Events Management. Anderton moves beyond such perspectives to propose new ways of understanding and theorising the cultural, social and geographic importance of outdoor music festivals. He argues that changes in the sector since the mid-1990s, such as professionalisation, corporatisation, mediatization, regulatory control, and sponsorship/branding, should not necessarily be regarded as a process of transgressive 'alternative culture' being co-opted by commercial concerns; instead, such changes represent a reconfiguration of the sector in line with changes in society, and a broadening of the forms and meanings that may be associated with outdoor music events.

Altered State Matthew Collin,2010-12-09 From its first publication in 1997, Altered State established itself as the definitive text on Ecstasy and dance culture. This new edition sees Matthew Collin cast a fresh eye on the heady events of the acid house 'Summer of Love' and the rave scene's euphoric escalation into commercial excess as MDMA became a mass-market narcotic. Altered State is the best-selling book on Ecstasy culture, using a cast of memorable characters to track the origins of the scene and its drug through psychedelic subcults, underground gay discos and the Balearic paradise of Ibiza, to the point where Tony Blair was using an Ecstasy anthem as an election campaign song. Altered State critically examines the ideologies and myths of the scene, documenting the criminal underside to the blissed-out image, shedding new light on the social history of the most spectacular youth movement of the twentieth century.

The Beanfield Breach Theatre,2017-04-11 One of the hits of Edinburgh 2015, The Beanfield is the boldy political first show from Warwick University graduates Breach Theatre. 2015 marks the 30th anniversary of the Battle of the Beanfield – a brutal police crackdown on the annual Stonehenge Free Festival. Called away from policing the miners' strike to uphold a new injunction around the Stones, officers took the tactics of Orgreave to a field in Wiltshire – battering and injuring new age travellers, making mass-arrests and destroying their mobile homes. Performance makers Breach, and Guardian award-winning video artist Dorothy Allen-Pickard present a multimedia show set between the 1985 and 2015 summer solstice celebrations, reflecting on state violence, civic freedom and cultural heritage.

This new means of transfer and payment replaces the old outdated banking and currency systems throughout the globe.Everyone from bikers to blue bloods is now required to take the microchip or suffer the consequences. Tens of thousands flee to find safe haven where they can live in harmony without being micro-chipped.Soon order is restored from chaos and all is well in the world. Or is it?Is this data transmitter more than it seems? Is there more than just a financial agenda behind the frightening technology that lurks deep within the bio-chip?
