Anime Clubs for Public Libraries Chantale Pard, 2020-09-30 Anime (or "Japanese Animation") has seen a continuing rise in popularity over the past decade of North American pop culture. Drove of die-hard, dedicated fans can be found all over comic shops, conventions, and social media at large, discussing or debating the merits of their favorite Anime fandoms. Public libraries have been quick to catch on, and have long been an excellent gathering place for this community of passionate consumers - be it for movie screenings or anime and manga collection offerings. With the recent widespread adoption of English dubbed content and the explosion of Anime

merchandise sales outside of Japan, Anime and Manga are more accessible to North Americans than ever before. In addition to providing a long list of programming examples and ideas, this practical guide will teach librarians how to capture the interest of this fandom community, why the library is the perfect place to do so, and how to expand this thematic programming into further learning and socialization opportunities. Special Features include: Real examples of current and successful Anime Club programs created by librarians. Anime: It's Not Just "Cartoons"! Discovering opportunities for youth engagement, STEM learning, and vital youth socialization within Japanese Animation. Clear, concise instructions for incorporating one off or series Anime events for all budget ranges and age groups. How to avoid cultural appropriation by engaging your community to make the most out of possible partnerships and resources. Anime Club party plans for a wide range of different holidays. How to obtain public performance rights for anime screenings, Where to find inclusive anime representations of diverse communities

Starting Inquiry-based Science in the Early Years Sue Dale Tunnicliffe, 2015-07-16 Young children are intuitive scientists. This book builds on their inherent curiosity and problem solving as they move forward in their scientific thinking. Science develops from early beginnings and a solid foundation in the early years is essential for their future learning and engagement with the subject. Starting Inquiry Based Science in the Early Years shows you how you can support children's emerging scientific skills by working with them and scaffolding their inquiries as they experiment, hypothesise and investigate building on their natural curiosity. Full of practical advice, it offers a wide range of scientific activities that can be carried out in partnership with young children. Each activity presents a challenge for the child to solve by thinking and talking through their ideas and then carrying out their own investigations. This invaluable guide focuses on helping children to follow their own line of inquiry and supporting them in mastering the skills and vocabulary they need in order to do this. Features include: An explanation of the key skills children need to acquire and practical ideas for developing these; Useful lists of relevant vocabulary and everyday resources; Cue questions to encourage children's thinking skills; Cross-curricular links to show how the activities support early literacy and mathematics. Providing a rich bank of resources for promoting scientific experiences and learning, this highly practical book will help you ensure that the children in your care have the strong foundations they need to become confident, successful scientists in the future.

Incredible Edible Science Liz Plaster, Rick Krustchinsky, 2010-01-01 Over 160 food activities to help young children develop early science and literacy skills.

Unplugged Play Bobbi Conner, 2007-07-01 Addressing the concerns of parents worried about the amount of time children spend in front of a TV or computer screen, a family-friendly resource introduces more than seven hundred games and variations for every age group, including craft projects, music activities, games, and many other types of activities. Simultaneous.

Kids Around the World Play! Arlette N. Braman, 2002-07-01 Play games from all around the globe! Learn to play Mexican kickball. Practice throwing jackstones the way kids do in Kenya. Discover how to construct a galimoto (wire toy from Malawi) with pipe cleaners. With Kids Around the World Play!, you'll have a great time exploring the traditions of other cultures while you sharpen your wits with the memory game from South Africa called dithwai, or challenge your racing skills in the South Korean flower relay, or make your own cool bilboquet, a toy from France. Filled with games and activities from places near and far, including China, Japan, India, Mexico, Bolivia, Italy, and Russia, among many others, this exciting collection also gives you plenty of fascinating facts about the history and culture of each country. All the toys and games can be made or played with just a few simple materials easily

found around the house. So get ready for tons of fun and excitement while you discover just how much you have in common with kids around the world!

Time Management Ninja Craig Jarrow, 2019-09-15 "This book will help you own your calendar, block time for what matters most and reclaim your life."

—Paula Rizzo, author of *Listful Living: A List-Making Journey to a Less Stressed You* You want more time to spend with family, to achieve big goals, and to simply enjoy life. Yet, there seem to be more and more things competing for your time, and more distractions interrupting your day. Craig Jarrow has spent many years testing time management tactics, tools, and systems and written hundreds of articles on productivity, goals, and organization. Through it all he's learned a simple truth: Time management should be easy, not complicated and unwieldy. And it shouldn't take up more of your precious time than it gives back! Time Management Ninja offers 21 rules that will show you an easier and more effective way to take control of your time and manage your busy life. Follow these simple principles and get more done with less effort. It's no-stress, uncomplicated time management that works. "Read this book, apply its rules, and you'll find freedom."
—Hyrum Smith, bestselling author of *Purposeful Retirement*

Principles of Knowledge Representation and Reasoning A. G. Cohn, Fausto Giunchiglia, Bart Selman, 2000

The Athlete's Way Christopher Bergland, 2010-08-24 The Athlete's Way is amazingly informative and complete with a program to get and keep you off the couch. Bravo, for another exercising zealot who has written a book that should be read on your elliptical or stationary bike. He pushed me to go farther on a sleepy Sunday. — John J. Ratey, M.D., author of *Spark: The Revolutionary New Science in Exercise and the Brain*, and co-author of *Driven to Distraction*

101 Drama Games for Children Paul Rooyackers, 1998 Drama games are not staged plays but a dynamic form in which children explore their minds and the world around them. They can use their play-acting in sensory games, pantomimes, story games with puppets, in creating masks and costumes, and much more. Drama games allow children to get more in touch with themselves and what they want to be, and are a delightful way to discover the freedom, creativity, and expression of acting— and living. The SmartFunActivity series encourage imagination, social interaction, and self-expression in children. To make the books easy to use, games are marked according to appropriate age levels, length of play time, and group size, using helpful icons. Most games are non-competitive and none require special skills or training. The series is widely used in homes, schools, daycare centers, clubs, and summer camp.

Writer's Block Vaporized, Creativity Maximized! Robert Zito, 2005-05 Many people have adventures from the past, coming-of-age experiences, narrow escapes, hair-brained adventures with their friends, things that happened when in school or at a specific job, weird family members or friends, strange and unbelievable occurrences, heart rending and passionate love stories. In short, things, which they know, will make a great book or even a best seller. They finally set everything up, so they have the method, the opportunity and the motive and then nothing. They stare at the white sheet of paper or a computer monitor and their heart races, their palms get sweaty and their mouths dry. They feel like a fraud. Things like Was I just kidding myself? I'm no writer. What was I thinking? Streak through their heads and then anxiety sets in, and even fear. Then it becomes a delaying action. It isn't very much fun facing that blank screen. It is similar to a firing squad except that the target is much more up-close and personal, it's your self-esteem and pride.

Young Children Learn Measurement and Geometry Marja van den Heuvel-Panhuizen, Kees Buys, 2008-01-01 Improving the quality of education is an important ambition of educational policy. The TAL project aims to contribute to this. It is a project initiated by the Dutch Ministry of Education, Culture and Science, and carried out by the Freudenthal Institute (FI) of

Utrecht University and the Dutch National Institute for Curriculum Development (SLO), and partly conducted in cooperation with the Rotterdam Center for Educational Services (CED). The quality of education can be improved in many ways.

Dyslexia in the Early Years Gavin Reid, 2017-02-21 Research has shown that early identification and intervention is crucial and can in fact minimise, and may even prevent, the challenges of dyslexia from becoming too detrimental at later stages of education. This book offers both research insights and practical guidance for teachers working in Early Years settings on how to create resource materials that would be suitable for the development of children with dyslexia. Beginning with a contextual note on the key difficulties faced by children at risk of dyslexia, the book takes the reader through the processes of identification and diagnosis, before offering ideas on how to tailor classroom materials for these students. The book's resource materials are designed to target areas such as reading, spelling, numeracy, language skills, social and emotional development, and problem solving skills.
