European Investment Bank Group Activity Report 2019 European Investment Bank,2020-05-06 This report tracks the green thread that runs through the European Investment Bank Group's work in 2019, specifically action to fight climate change. Climate action has long been a significant factor in the Bank's work. In 2019, we responded to an unprecedented emergency with new ambitions for climate investment over the coming decade and a new energy lending policy. This report tells stories of ingenuity and commitment, job creation and prosperity. Woven together with the green thread of sustainable EIB climate investment, it illustrates the opportunity climate action presents for all of us to safeguard our world for future generations and to build a prosperous, clean economy.

EIB Working Papers 2019/01 - Blockchain, FinTechs European Investment Bank,2019-04-29 The purpose of this working paper is to provide a primer on financial technology and on Blockchain, while shedding light on the impact they may have on the financial industry. FinTechs, the financial technology and innovation that competes with traditional financial methods in the delivery of financial services, has the potential to improve the reach of financial services to the broader public and facilitate the creation of a credit record, especially in the developing world.

EIB Global Report 2022/2023 — The story European Investment Bank,2023-06-12 The European Investment Bank plants the seeds for many future success stories. Now another seed has been planted: EIB Global, the EIB's development arm, which began operating in 2022. This report tells the stories of projects that make a difference on the ground, with sections on Ukraine, sustainability, climate and energy. The challenges we face know no borders. EIB Global represents our commitment to sustainable and inclusive societies everywhere.

EIB Investment Report 2019/2020 European Investment Bank,2019-11-26 The Investment Report, issued annually by the European Investment Bank, provides a comprehensive overview and analysis of investment and the financing of investment in the European Union. It combines the exploration of investment trends with in-depth analysis, focusing especially on the drivers and barriers to investment activity. The report leverages on a unique set of databases and survey data, including EIBIS, an annual survey of 13 500 firms in Europe, which focuses on their assessment of investment and investment finance conditions, and which allows analysis with firm balance sheet information. The report provides critical inputs to policy debates on the need for public action on investment, and on the types of intervention that can have the greatest impact.

EIB Global Report 2022/2023 — The impact European Investment Bank,2023-06-08 Building on decades of experience working in Europe's neighbourhood, in Africa and around the world, under EU mandates and in support of EU policy priorities, EIB Global brings together all the financial, engineering and scientific expertise of the European Investment Bank to maximise impact. The new structure fosters strong, focused partnerships within Team Europe, with multilateral development banks and bilateral development agencies. With a stronger presence on the ground, it increases our cooperation with partner countries, clients, EU Member States and other development finance institutions. This publication reports on the first year of EIB Global. The first section reviews the development context, looking at global macroeconomic development and the different regions where EIB Global operates: EU

neighbourhood countries sub-Saharan Africa the Western Balkans and Türkiye Asia and the Pacific, and Latin America and the Caribbean The report then turns to the overarching priorities of EIB Global and the European Fund for Sustainable Development Plus, examining investment needs and describing the response by EIB Global: Climate change Jobs and inclusive growth The Global Gateway The final part brings together all the information on the results and impact of EIB Global operations and the financial and non-financial contribution we make. It covers: How we measure results and impact Expected results of new projects EIB Global's contribution to new projects Evidence on the EIB's crowding-in effect Carbon footprint exercise Macroeconomic impact modelling Results of completed projects Lending volumes List of operations signed in 2022 A companion volume to this report, EIB Global Report: The Story, delves deeper into the rationale for, and experience gained from, individual EIB Global projects.

Annual Report 2017 on EIB activity in Africa, the Caribbean and Pacific, and the overseas territories European Investment Bank, 2018-11-08 Across the African, Caribbean and Pacific regions, there is enormous potential, but each location faces its own challenges. By working together and ensuring that more investment is available, we build a better future for everyone.

EIB Global Report: The Impact European Investment Bank, 2022-07-18 The European Investment Bank (EIB) has a long track record as a provider of development and climate finance, working with EU institutions, Member States and partner countries in the EU neighbourhood, sub-Saharan Africa and around the world to foster sustainable development and bring real benefits to people's lives. The challenges faced by our partners around the world are many: economies struggle to provide adequate jobs and basic infrastructure, while dealing with the growing needs for climate action and protection of the environment. These challenges have been aggravated by the coronavirus pandemic and the ramifications of the conflict in Ukraine. As of the start of 2022, the EIB's development finance role is being taken forward and intensified through EIB Global. The new structure builds on the strength and experience that the EIB has gained working outside Europe to mobilise more development and climate finance, and increase impact. The purpose of this report is twofold. First, it provides an overview of the Bank's activities outside the European Union in 2021, with a focus on the expected results, complemented by reporting on the results already achieved by past operations. Second, it elaborates on the context of the Bank's engagement in countries outside Europe, examining different development challenges and how they confront different regions, drawing on our own development research.

Africa Reader 2018: A continent full of potential European Investment Bank, 2018-11-20 Africa is transforming itself. The continent stands ready to seize the opportunities arising from its young population, new technologies, new trade agreements and potential for productivity gains. However, the region needs a lot of help to fight deteriorating infrastructure, climate change, extreme weather events, social and political strife, persistent poverty, and the rising numbers of people leaving their homes to escape conflict or seek a better life. The European Investment Bank has been active in Africa for more than half a century, carrying out thousands of complex projects in all corners of the continent. We are concentrating even more on activities that create jobs and growth. We also are working hard on sustainable urbanisation, digital connectivity and gender equality.

Banking in Africa: Delivering on Financial Inclusion, Supporting Financial Stability European Investment Bank, 2018-11-21 In its fourth edition, this report focuses on recent developments in Africa's banking sectors and the policy options for all stakeholders. The study of banking sectors across all African sub-regions includes the results of the EIB survey of banking groups operating in Africa. Three thematic chapters address challenges and opportunities for financing investment in Africa: Crowding out of private sector lending by public debt issuance The state of bank recovery and resolution laws in Africa Policy options on how to finance infrastructure development. The report finds that in many African banking markets, the last two years saw a pause in financial deepening. However, a rising share of banking groups report improving market conditions and plan a structural expansion of their operations in Africa and a continued push for new technologies.

Achieving a Just Transition to a Low-Carbon Economy Raphael J Heffron, 2022-01-01 The ambition of most countries across the world is to develop a low-carbon economy, evidenced by the fact that the vast majority of countries have signed the Paris COP21 agreement. This book contends that this global societal transition to a low-carbon economy must be just. As such, it will be an invaluable and accessible reference for scholars from all research disciplines who aim in their research to see a fairer, more equitable and inclusive world where sustainability is at the fore and climate targets are achieved. This is the first in-depth and original analysis to explore the central importance of law in achieving a just transition to a low-carbon economy. In addition, it advances the JUST framework, a unique framework for assessing the just transition. This important research and theoretical tool provides a practical perspective as it ensures the geographical space and timelines of development are factored into analysis. The research also provides analysis on the just transition movement around the world and the influence of international institutions. Through several case studies on Just Transition Commissions and Critical Mineral Development, the book details and demonstrates key elements of justice, including distributive, procedural, restorative, recognition, and cosmopolitan justice. It is clear from the analysis that while these are vast areas for analysis, if applied in practice, they all centrally contribute to ensuring society will advance in achieving a just transition to a low-carbon economy.
