Pretty Weird Marissa Miller, 2021-05-25 A series of true stories that are at once relatable, funny, and heart-wrenching, join lauded writer Marissa Miller on a journey of battling imposter syndrome and learning to be proud to stand out. Acclaimed writer and editor Marissa Miller was born into what you would call a nice Jewish family. But she somehow grew into anything but a Nice Jewish Girl. From openly discussing any and all bodily functions with whoever would listen, to encouraging her peers to join her in undressing in the hallways at school for no reason other than to fight the oppressive institution of modern academia, she was continuously scolded by members of the Jewish community for exploring her identity and pushing the boundaries of what a “nice girl” is allowed to do. To make sense of being the odd one out, she did what any confused teenager would do: she wrote. She wrote poems on MySpace, articles for her school newspaper, extra credit English assignments to compensate for her complete and utter lack of math skills, and eventually, reported pieces for many of the world’s most prestigious media publications. But the transition to a lucrative journalism career didn’t come without its growing pains. Getting anywhere past the school newspaper stage and being asked to provide journalism lectures around the city inspired a sense of panic, dread, and most notably, imposter syndrome—the sense that success is a product of coincidence and luck as opposed to hard work and talent. No fellow journalists she idolized growing up seemed to have had a history of behavior so crude it would make your Rabbi blush. Surely, the Universe was this close to taking everything away from her. And to some extent, it did. In *Pretty Weird*—a series of true stories that are at once relatable, funny, and heart-wrenching—you’ll learn about why, like Miller, you’re worthy of success by virtue of you thinking you’re not, about why there’s no such thing as being “not sick enough” to deserve help, and that living in that liminal space of being too normal to stand out, yet too weird to fit in, is truly where all the magic happens.

Life as Politics Asef Bayat, 2013-05-01 Prior to 2011, popular imagination perceived the Muslim Middle East as unchanging and unchangeable, frozen in its own traditions and history. In *Life as Politics*, Asef Bayat argues that such presumptions fail to recognize the routine, yet important, ways in which ordinary people make meaningful change through everyday actions. First published just months before the Arab Spring swept across the region, this timely and prophetic book sheds light on the ongoing acts of protest, practice, and direct daily action. The second edition includes three new chapters on the Arab Spring and Iran's Green Movement and is fully updated to reflect recent events. At heart, the book remains a study of agency in times of constraint. In addition to ongoing protests, millions of people across the Middle East are effecting transformation through the discovery and creation of new social spaces within which to make their claims heard. This eye-opening book makes an important contribution to global debates over the meaning of social movements and the dynamics of social change.

Twitter and Tear Gas Zeynep Tufekci, 2017-05-16 A firsthand account and incisive analysis of modern protest, revealing internet-fueled social movements’ greatest strengths and frequent challenges To understand a thwarted Turkish coup, an anti-Wall Street encampment, and a packed Tahrir Square, we must first comprehend the power and the weaknesses of using new technologies to mobilize large numbers of people. An incisive observer, writer, and participant in today’s social movements, Zeynep Tufekci explains in this accessible and compelling book the nuanced trajectories of modern protests—how they form, how they operate differently from past protests, and why they have difficulty persisting in their long-term quests for change. Tufekci speaks from direct experience, combining on-the-ground interviews with insightful analysis. She describes how the internet helped the Zapatista uprisings in Mexico, the necessity of remote Twitter users to organize medical supplies during Arab Spring, the refusal to use bullhorns in the Occupy Movement that started in New York, and the empowering effect of tear gas in Istanbul’s Gezi Park. These details from life inside social movements complete a moving investigation of authority, technology, and culture—and offer essential insights into the future of governance.

Banker To The Poor Muhammad Yunus, 2007-03-31 The inspirational story of how Nobel Prize winner Muhammad Yunus invented microcredit, founded the Grameen Bank, and transformed the fortunes of millions of poor people around the world. Muhammad Yunus was a professor of economics in Bangladesh, who realized that the most impoverished members of his community were systematically neglected by the banking system -- no one would loan them any money. Yunus conceived of a new form of banking -- microcredit -- that would offer very small loans to the poorest people without collateral, and teach them how to manage and use their loans to create successful small businesses. He founded Grameen Bank based on the belief that credit is a basic human right, not the privilege of a fortunate few, and it now provides \$24 billion of micro-loans to more than nine million families. Ninety-seven percent of its clients are women, and repayment rates are over 90 percent. Outside of Bangladesh, micro-lending programs inspired by Grameen have blossomed, and serve hundreds of millions of people around the world. The definitive history of micro-credit direct from the man that conceived of it, *Banker to the Poor* is the moving story of someone who dreamed of changing the world -- and did.

Haqiqatul-Wahi Hazrat Mirza Ghulam Ahmad, 2018-06-01 In this book the Promised Messiah, on whom be peace, discusses the philosophy of divine revelation, the three categories of people who claim to receive revelation, and the distinction of the truthful from the false. He then establishes his truthfulness by documenting over 200 Signs, including the fulfillment of prophecies made by the Holy Prophet Muhammad, may peace and blessings of Allah be upon him, other men of God, earlier scriptures, and his own revelations spanning over twenty-five years. The author cites numerous examples of his enemies who publicly predicted his downfall and demise, only to become the very victims of their own prophecies. God, however, protected him against every assault, while continuously reassuring him of His promise to bless his Community—a promise which continues to bear the seal and testimony of history. The author also appeals to the followers of different faiths to read this book cover to cover to appreciate and accept this evidence as proof that God is One and the Holy Prophet Muhammad is the Messenger of God, and that he is the Promised Messiah raised to unite humanity under the banner of Islam.

Neoliberal Apartheid Andy Clarno, 2017-03-07 This is the first comparative analysis of the political transitions in South Africa and Palestine since the 1990s. Clarno’s study is grounded in impressive ethnographic fieldwork, taking him from South African townships to Palestinian refugee camps, where he talked to a wide array of informants, from local residents to policymakers, political activists, business representatives, and local and international security personnel. The resulting inquiry accounts for the simultaneous development of extreme inequality, racialized poverty, and advanced strategies for securing the powerful and policing the poor in South Africa and Palestine/Israel over the last 20 years. Clarno places these transitions in a global context while arguing that a new form of neoliberal apartheid has emerged in both countries. The width and depth of Clarno’s research, combined with wide-ranging first-hand accounts of realities otherwise difficult for researchers to access, make *Neoliberal Apartheid* a path-breaking contribution to the study of social change, political transitions, and security dynamics in highly unequal societies. Take one example of Clarno’s major themes, to wit, the issue of security. Both places have generated advanced strategies for securing the powerful and

policing the racialized poor. In South Africa, racialized anxieties about black crime shape the growth of private security forces that police poor black South Africans in wealthy neighborhoods. Meanwhile, a discourse of Muslim terrorism informs the coordinated network of security forces involving Israel, the United States, Jordan, and the Palestinian Authority that polices Palestinians in the West Bank. Overall, Clarno's pathbreaking book shows how the shifting relationship between racism, capitalism, colonialism, and empire has generated inequality and insecurity, marginalization and securitization in South Africa, Palestine/Israel, and other parts of the world.

Working Misunderstandings Frauke Mörike, 2021-11-30 Misunderstandings are often perceived as something to be avoided yet delineate an integrative part of everyday work. This book addresses the role that misunderstandings play in collaborative work and, above all, their effects on the organisational result. As exemplified by project collaboration across three offices of a multinational corporation in India, Frauke Mörike explores how misunderstandings shape the organisational system and why they prove not only necessary but even productive for organisational functioning. In doing so, she offers new ways to think about collaboration and establishes 'misunderstanding' as a key factor of insight for the field of organisational research.

Women's Rights in the Middle East and North Africa Sanja Kelly, Julia Breslin, 2010-07-16 Freedom House's innovative publication Women's Rights in the Middle East and North Africa: Progress Amid Resistance analyzes the status of women in the region, with a special focus on the gains and setbacks for women's rights since the first edition was released in 2005. The study presents a comparative evaluation of conditions for women in 17 countries and one territory: Algeria, Bahrain, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine (Palestinian Authority and Israeli-Occupied Territories), Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, and Yemen. The publication identifies the causes and consequences of gender inequality in the Middle East, and provides concrete recommendations for national and international policymakers and implementers. Freedom House is an independent nongovernmental organization that supports democratic change, monitors freedom, and advocates for democracy and human rights. The project has been embraced as a resource not only by international players like the United Nations and the World Bank, but also by regional women's rights organizations, individual activists, scholars, and governments worldwide. Women's rights in each country are assessed in five key areas: (1) Nondiscrimination and Access to Justice; (2) Autonomy, Security, and Freedom of the Person; (3) Economic Rights and Equal Opportunity; (4) Political Rights and Civic Voice; and (5) Social and Cultural Rights. The methodology is based on the Universal Declaration of Human Rights, and the study results are presented through a set of numerical scores and analytical narrative reports.

Conflicted Antiquities Elliott Colla, 2008-01-11 Conflicted Antiquities is a rich cultural history of European and Egyptian interest in ancient Egypt and its material culture, from the early nineteenth century until the mid-twentieth. Consulting the relevant Arabic archives, Elliott Colla demonstrates that the emergence of Egyptology—the study of ancient Egypt and its material legacy—was as consequential for modern Egyptians as it was for Europeans. The values and practices introduced by the new science of archaeology played a key role in the formation of a new colonial regime in Egypt. This fact was not lost on Egyptian nationalists, who challenged colonial archaeologists with the claim that they were the direct heirs of the Pharaohs, and therefore the rightful owners and administrators of ancient Egypt's historical sites and artifacts. As this dispute developed, nationalists invented the political and expressive culture of "Pharaonism"—Egypt's response to Europe's Egyptomania. In the process, a significant body of modern, Pharaonist poetry, sculpture, architecture, and film was created by artists and authors who looked to the ancient past for inspiration. Colla draws on medieval and modern Arabic poetry, novels, and travel accounts; British and French travel writing; the history of archaeology; and the history of European and Egyptian museums and exhibits. The struggle over the ownership of Pharaonic Egypt did not simply pit Egyptian nationalists against European colonial administrators. Egyptian elites found arguments about the appreciation and preservation of ancient objects useful for exerting new forms of control over rural populations and for mobilizing new political parties. Finally, just as the political and expressive culture of Pharaonism proved critical to the formation of new concepts of nationalist identity, it also fueled Islamist opposition to the Egyptian state.

Letters from Robben Island Robert D. Vassen, 1999-08-31 Late one night in July, 1963, a South African police unit surrounded the African National Congress headquarters in Rivonia and arrested a group of Movement leaders gathered inside. Eventually eight of them, including Nelson Mandela, who was already serving a sentence, Walter Sisulu, Dennis Goldberg, Govan Mbeki, Raymond Mhlaba, Elias Motsotledi, Andrew Manguzi, and Ahmed Kathrada, were convicted of sabotage and, on June 12, 1964, sentenced to life in prison. Soon, these men became widely known as the Rivonia Trialists. Despite their imprisonment, the Trialists played active roles in the struggle against South Africa's racist regime. Instead of being forgotten, as apartheid officials had hoped, they became enduring symbols in a struggle against injustice and racism. Kathrada and his colleagues were classified as high security prisoners, segregated from others and closely watched. Every activity was regulated and monitored. Among the many indignities visited upon them, the prisoners were prohibited from keeping copies of incoming and outgoing correspondence. Kathrada, or Kathy as he is known, successfully hid both. Letters From Robben Island contains a selection of 86 of the more than 900 pieces of correspondence Ahmed Kathrada wrote during his 26 years on Robben Island and at Pollsmoor Prison. Some were smuggled out by friends; others were written in code to hide meaning and content from prison censors. These are among his most poignant, touching, and eloquent communications. They are testimonies to Kathrada, his colleagues, and to their commitment to obtaining human dignity and freedom for all South Africans.

History of Islam Akbar Shah Najibabadi,2000-04

Reconciliation Benazir Bhutto,2009-10-13 Benazir Bhutto returned to Pakistan in October 2007, after eight years of exile, hopeful that she could be a catalyst for change. Upon a tumultuous reception, she survived a suicide-bomb attack that killed nearly two hundred of her countrymen. But she continued to forge ahead, with more courage and conviction than ever, since she knew that time was running out—for the future of her nation, and for her life. In Reconciliation, Bhutto recounts in gripping detail her final months in Pakistan and offers a bold new agenda for how to stem the tide of Islamic radicalism and to rediscover the values of tolerance and justice that lie at the heart of her religion. With extremist Islam on the rise throughout the world, the peaceful, pluralistic message of Islam has been exploited and manipulated by fanatics. Bhutto persuasively argues that America and Britain are fueling this turn toward radicalization by supporting groups that serve only short-term interests. She believed that by enabling dictators, the West was actually contributing to the frustration and extremism that lead to terrorism. With her experience governing Pakistan and living and studying in the West, Benazir Bhutto was versed in the complexities of the conflict from both sides. She was a renaissance woman who offered a way out. In this riveting and deeply insightful book, Bhutto explores the complicated history between the Middle East and the West. She traces the roots of international terrorism across the world, including American support for Pakistani general Zia-ul-Haq, who destroyed political parties, eliminated an independent judiciary, marginalized NGOs, suspended the protection of human rights, and aligned Pakistani intelligence agencies with the most radical elements of the Afghan mujahideen. She speaks out not just to the West, but to the Muslims across the globe who are at a crossroads between the past and the future, between education and ignorance, between peace and terrorism, and between dictatorship and democracy. Democracy and Islam are not incompatible, and the clash between Islam and the West is not inevitable. Bhutto presents an image of modern Islam that defies the negative caricatures often seen in the West. After reading this book, it will become even clearer what the world has lost by her assassination.
