Eight Hundred Leagues On The Amazon Jules

Verne, 2019-06-21 This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to recreate the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections:

As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional/unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

Eight Hundred Leagues on the Amazon Jules

Verne, 2014-10-13 A book of remarkable and thrilling adventures, very much in the style of Mr. Verne's previous books, and adapted to interest either boy-readers or adults. The Giant raft is as immense as the Steam house, and the characters and incidents quite as original. The story opens with the finding of a paper of hieroglyphics by an adventurer in a Brazilian forest—he puts it with some gold coin in a silver case, places it near his head, and falls asleep. The object excites the attention of a guariba (whom Mr. Verne describes at length), and he steals it and makes off; after this follows a long string of queer adventures connected with the silver case.
