Using Investor Relations to Maximize Equity Valuation Thomas Ryan, Chad Jacobs, 2005-02-18 A practical guide to proactive investor relations (IR) Investor relations (IR) has traditionally been an administrative function within corporate communications, responsible for disseminating public information and answering investor and media questions. Using Investor Relations to Maximize Equity Valuation challenges this approach, by arguing that IR has been underutilized and then illustrating how it should be elevated to lead a strategic communications effort to preserve or enhance corporate value and lower a company's cost of capital. Divided into four comprehensive parts, this book clearly describes capital markets strategies and tactical operations that these former, senior-level equity analysts and portfolio managers employ. Chad A. Jacobs (Westport, CT) and Thomas M. Ryan (Westport, CT) are the cofounders and co-CEOs of Integrated Corporate Relations.

Investor Relations: The Art and Philosophy of Effective Corporate Communications Thomas J. Lauria, 2008 The primary objective of this handbook is to create a comprehensive knowledge base on the broad and sometimes misunderstood topic of investor relations, the center of most corporate communications programs. The approach taken was to first develop a thorough understanding of Wall Street itself. Having been a Fortune 25 Investor Relations Director as well as a Sr. Equity Analyst and Equity Research Director, the perception of what is needed by the financial community is quite different than what many investor relations officers believe. Driving a hyperactive Investor Relations program is the ultimate aim of this text. The author believes that the insight provided herein will enable new IROs to best understand their new profession and enable existing practitioners to add additional elements to their marketing programs that will enhance shareholder understanding and value. The author's website can be viewed at www.tomlauria.com.
