📖 **ERITREA AND ETHIOPIA** Tekeste Negash,2019-09-30 The Ethiopian-Eritrean Federation, a product of a United Nations resolution, came into existence in 1952 and was abolished ten years later. The primary objective of this book is to examine the rise and the fall of the Federation in the light of present-day realities. This central theme is placed in context by a reconstruction of Eritrean political organizations during the crucial postwar years. The work includes a short account of the war between Eritrean nationalist forces and the Ethiopian government, which led up to the emergence of Eritrea as a sovereign state. Based primarily on archival sources at the Public Record Office in London, Eritrea and Ethiopia argues that no other group in the region has repeatedly succeeded in shaping its political destiny as the Tigreans of Eritrea have. Negash maintains that the Federation was abolished by Eritrean social and political forces rather than by Ethiopia. The UN-imposed Federation, together with its accompanying constitution, were doomed to fail, as these were foreign to Eritrean and Ethiopian conceptions of political power. The attempts of the Eritrean Moslem League to defend and maintain the Federation were frustrated by internal contradictions, by the Unionist party, and by misconstrued perceptions of the division of powers between Eritrea and Ethiopia. The author looks closely at the impact of the British period on Eritrean society. Such an examination provides a better understanding of the background to the conflict and it is an important part of Eritrean political and social history. This book is the story of the slow but steady dissolution of the Federation as seen and observed by the British diplomatic corps. Between 1952 and 1962, there were about thirty British nationals assigned to the Eritrean government. These expatriates kept in touch with the British consulate-general whose responsibility was to protect the interests of British nationals as well as to report developments to London. The conclusions and interpretations found in this book are, to a great extent, based on that documentation. Eritrea and Ethiopia is the first study of its kind to follow the rise and fall of the Federation. It will be a challenging and insightful read for students of African affairs, diplomatic historians, policy studies scholars, and political theorists.

📖 **EMBEDDED SoPC DESIGN WITH NIOS II PROCESSOR AND VHDL EXAMPLES** Pong P. Chu,2011-08-29 The book is divided into four major parts. Part I covers HDL constructs and synthesis of basic digital circuits. Part II provides an overview of embedded software development with the emphasis on low-level I/O access and drivers. Part III demonstrates the design and development of hardware and software for several complex I/O peripherals, including PS2 keyboard and mouse, a graphic video controller, an audio codec, and an SD (secure digital) card. Part IV provides three case studies of the integration of hardware accelerators, including a custom GCD (greatest common divisor) circuit, a Mandelbrot set fractal circuit, and an audio synthesizer based on DDFS (direct digital frequency synthesis) methodology. The book utilizes FPGA devices, Nios II soft-core processor, and development platform from Altera Co., which is one of the two main FPGA manufacturers. Altera has a generous university program that provides free software and discounted prototyping boards for educational institutions (details at <http://www.altera.com/university>). The two main educational prototyping boards are known as DE1 (\$99) and DE2 (\$269). All experiments can be implemented and tested with these boards. A board combined with this book becomes a “turn-key” solution for the SoPC design experiments and projects. Most HDL and C codes in the book are device independent and can be adapted by other prototyping boards as long as a board has similar I/O configuration.

📖 **THE ELF ACCORD - BOOK FOUR OF THE MAGI CHARTER** Jordan David,2013-11-19 The Elf Accord: Santa Leopold has grown too comfortable in his mountain home in the heart of the Austrian Alps. A changing world forces him to take his people on a journey across medieval Christendom in search of a new home at the top of the world. The dangers and problems Leopold will face traveling through Europe are minor compared to what awaits him in the frigid Arctic, an inhospitable land dominated by polar bears. This first prequel novel explores how Santa became located at the North Pole, the origin of the first elves, the founding of the complex and more. The stories of the people and events of the 12th century have long lasting consequences that will shape Christmas traditions for a millennium. About the Magi Charter series: For over two thousand years the legend of Santa Claus has endured. His is a mission of peace as outlined in the Magi Charter, given to the first Santa by the Child. From humble beginnings, following that first Christmas, the Santa lineage has been passed down through the ages. This epic adventure tells the story of those Santas from the founding of the North Pole and the origin of the ancient elves, to our modern times where the world’s problems affect even those in the secluded complex of the North, and concluding in the distant future which finds Santa and the elves committed to their mission on a galactic scale where Christmas traditions are barely recognizable. In every era, those committed to the mission must find a way to deliver that which is needed most to those most deserving.

📖 **THIRD WORLD COLONIALISM AND STRATEGIES OF LIBERATION** Awet Tewelde Weldemichael,2012-11-19 By analyzing Ethiopia’s rule over Eritrea and Indonesia’s rule over East Timor, Third World Colonialism and Strategies of Liberation compares the colonialism of powerful third world countries on their small, less powerful neighbors. Through a comparative study of Eritrean and East Timorese grand strategies of liberation, this book documents the inner workings of the nationalist movements and traces the sources of government types in these countries. In doing so, Awet Tewelde Weldemichael challenges existing notions of grand strategy as a unique prerogative of the West and opposes established understanding of colonialism as an exclusively Western project on the non-Western world. In addition to showing how Eritrea and East Timor developed sophisticated military and non-military strategies, Weldemichael emphasizes that the insurgents avoided terrorist methods when their colonizers indiscriminately bombed their countries, tortured and executed civilians, held them hostage, starved them deliberately, and continuously threatened them with harsher measures.

📖 **MALWARE ANALYSIS USING ARTIFICIAL INTELLIGENCE AND DEEP LEARNING** Mark Stamp,Mamoun Alazab,Andrii Shalaginov,2020-12-20 This book is focused on the use of deep learning (DL) and artificial intelligence (AI) as tools to advance the fields of malware detection and analysis. The individual chapters of the book deal with a wide variety of state-of-the-art AI and DL techniques, which are applied to a number of challenging malware-related problems. DL and AI based approaches to malware detection and analysis are largely data driven and hence minimal expert domain knowledge of malware is needed. This book fills a gap between the emerging fields of DL/AI and malware analysis. It covers a broad range of modern and practical DL and AI techniques, including frameworks and development tools enabling the audience to innovate with cutting-edge research advancements in a multitude of malware (and closely related) use cases.

📖 **THE ELF SOJOURN - BOOK EIGHT OF THE MAGI CHARTER** Jordan David,2020-02-13 It has been a year since the incident that stranded the continental ship Eureka outside the galaxy. The unprecedented use of a limitless portal technology has provoked the galactic imperial powers to go on the defensive, preparing for war. The elves and Santa are largely to blame for the state of galactic politics; despite their intentions being for the greater good, things have only grown worse... After failing the mission, Tiberius is resolved to keep his people together, determined not to forsake his commitment to the masses. Tiberius was told he would be the last Santa, that he must now separate himself from the elves. Yet Tiberius refuses to listen to anyone, sure that he will find a solution to keep the mission going. Time is running out, his control is slipping; the distrust amongst the elves is reaching a flash point. Forced to evacuate their home and scattered to the stars, the disciplines struggle to coordinate their elves and keep their organizations running. The galaxy’s people, great and small, need help and guidance. For some elves that means having to rely on themselves and not their disciplines. All must find innovative ways to keep the galaxy from disintegrating into chaos. The fabled key stones are the elves’ last hope to save the mission and return to their home. But they are not the only ones on the hunt for the mysterious objects. Returning from the stranded
