**Killing Time** Thomas Berger, 2016-06-14 Thomas Berger breaks all the rules in this detective story that's less who-done-it, and more why-done-it. "An original and powerful tale of a saintly murderer."—Arthur Koestler Detweiler is one of the most complex characters in modern fiction...the eeriest thing about him is that he is wholly believable, which is to say, of course, that Thomas Berger is a magnificent novelist.—National Review Meet Joseph Detweiler—a polite, sincere, and thoughtful murderer. He believes in living in the moment, it's just that every moment comes at a price. So when he murders Billie Bayson, her mother, and a boarder in their home on Christmas Eve, he really means no harm. He's also not the first suspect. As the police delve into the sordid private lives of the Bayson family in the aftermath of this horrific event, seeking the real killer, Detweiler befriends Tierney, a detective assigned to the case. But as details of the case unravel, so does the chilling truth about Detweiler. He has not just committed the murder at hand. He believes he's performed a kindness to Billie and to himself. In his mind has freed her from life, and himself from the flow of time. Can Detective Tierney live with knowing the killer was right under his nose?

**Some Men Need Killing** Art Marsicano, 2008-12-16 A brilliant young man, Anthony Martino learned the ways of violence and Italian criminals early in life. Always deeply loving with friends and family and brutal with enemies, Martino hates his enemies with a white hot passion. In his part of the world, justice can be found only with a gun, knife, or a bomb. When Martino is asked to give a presentation about organized crime to a college class in the anthracite region of Pennsylvania, he is happy to accept. A former professor, Tony enjoys provoking thoughts and emotions in students. The same day he receives the

professors request, he receives an e-mail message from a member of New York City's most powerful crime family requesting to see him. He also accepts this invitation. When Ernie Valadi, Martinos nemesis from high school, taunts him and accuses him of being a con man, Martino challenges him to a fight. Will this fight be any different from their past entanglements? To what extent will Martino extract his revenge? A deeply religious man, will Martino be forgiven for his sins? Is he correct in his assumption that Some Men Need Killing?

#### Killing the White Man's Indian Fergus M.

Bordewich, 1997-04-14 In the face of a new lightly romanticized view of Native Americans, *Killing the White Man's Indian* bravely confronts the current myths and often contradictory realities of tribal life today. Following two centuries of broken treaties and virtual government extermination of the savage redmen, Americans today have recast Native Americans into another, equally stereotyped role, that of eternal victims, politically powerless and weakened by poverty and alcoholism, yet whose spiritual ties with the natural world form our last, best hope of salvaging our natural environment and ennobling our souls. The truth, however, is neither as grim, nor as blindly idealistic, as many would expect. The fact is that a virtual revolution is underway in Indian Country, an upheaval of epic proportions. For the first time in generations, Indians are shaping their own destinies, largely beyond the control of whites, reinventing Indian education and justice,

exploiting the principle of tribal sovereignty in ways that empower tribal governments far beyond most American's imaginations. While new found power has enriched tribal life and prospects, and has made Native Americans fuller participants in the American dream, it has brought tribal governments into direct conflict with local economics and the federal government. Based on three years of research on the Native American reservations, and written without a hidden conservative bias or politically correct agenda, *Killing the White Man's Indian* takes on Native American politics and policies today in all their contradictory--and controversial--guises.

*Killing Kennedy* Jack Roth,2022-11-15 Startling new insights into the JFK assassination In *Killing Kennedy: Exposing the Plot, the Cover-Up, and the Consequences*, author Jack Roth interviews researchers, scholars, eyewitnesses, and family members of those who were part of the tangled web of US intelligence operations associated with the Cold War and the circumstances surrounding the assassination of John F. Kennedy. The author asks important questions, including why the assassination still matters today and what the lasting ripple effects have been since that fateful day. The Kennedy assassination represents one of the most impactful events in not only American but also world history, and this book represents an important addendum to understanding its enduring significance. On November 22, 1963, the duly elected president of the United States was murdered in cold blood, forever destroying "Camelot" and national optimism for world peace. Gleaning a "people's history" of the assassination through dozens of insightful and heartfelt interviews, Roth presents a riveting narrative by creating a respectful, well-

crafted, and emotionally charged book from which both older and younger generations will gain a greater understanding of our nation's history and current status in the modern world.

African Time Lord Mawuko-Yevugah,2013-06 AFRICAN TIME In this wide-ranging collection of essays, Lord Mawuko-Yevugah explores the challenges of political reform and democratic governance in Africa at the beginning of the 21st century, focusing largely on Ghana's experience. The inspiration for the title of the collection, AFRICAN TIME, comes from Kwame Nkrumah's pan-African optimism as well as from recent discourses around African Renaissance, Africa's Century, Africa Rising, etc. At Ghana's founding in 1957, Nkrumah proclaimed: 'Our independence is meaningless unless it is linked up with the total liberation of the African continent. Today, from now on, there is a new African in the world...That new African is ready to fight his own battles and show that after all, the black man is capable of managing his own affairs'. That historic declaration, Mawuko-Yevugah argues, did not only set the tone and direction for Ghana's pan-African foreign policy but it has also made the country a reference point for Africa's postcolonial tragedy in the form of political instability and economic decay. Exploring Ghana's recent strides in democratic consolidation within the context of fresh attempts to reinvent pan-Africanism and mainstream good governance on the continental development agenda, this book offers incisive, critical and a rare reflection on the changing landscape of contemporary African politics and governance through the eyes of a political journalist.

**Edinburgh Companion to Samuel Beckett and the Arts** S.E. Gontarski, 2014-02-07 A landmark collection showcasing the diversity of Samuel Beckett's creative output The 35 original chapters in this Companion capture the continued vitality of Beckett studies in drama, music and the visual arts and establish rich and varied cultural contexts for Beckett's work world-wide. As well as considering topics such as Beckett and science, historiography, geocriticism and philosophy, the volume focuses on the post-centenary impetus within Beckett studies, emphasising a return to primary sources amid letters, drafts, and other documents. Major Beckett critics such as Steven Connor, David Lloyd, Andrew Gibson, John Pilling, Jean-Michel Rabate, and Mark Nixon, as well as emerging researchers, present the latest critical thinking in 9 key areas: Art & Aesthetics; The Body; Fiction; Film, Radio & Television; Global Beckett; Language / Writing; Philosophy; Reading; and Theatre & Performance. Edited by eminent Beckett scholar S. E. Gontarski, the Companion draws on the most vital, ground-breaking research to outline the nature of Beckett studies for the next generation.

**Market Killing** Greg Philo, David Miller, 2014-09-09 This book shows how the release of the free market in the last part of the twentieth century produced a rise in inequality and violence, the development of a huge criminal economy and the degradation of social and cultural life. It questions the silence of academics in the face of these changes and asks how much they have been incorporated into the priorities of commerce and governments. Many academics in the social sciences, media and cultural studies have avoided critical issues and become occupied in obscure theoretical debates such as post-modernism. The effect was

to draw intellectuals and students away from the engaged and empirical work needed to identify key social problems and possibilities for change. The authors of this book point to the need for independent research which can criticise political policies and reveal their effects. They show, for example, why contemporary policies on drugs and education are creating more problems than they solve. The book features contributions from a wide range of academic disciplines including mass communications, sociology, politics, geography, philosophy and economics, and points to new directions for radical science. It also examines the possibilities for a free and democratic media and calls for the development of critical and open debate.
