The Waddodles of Hollow Lake Carole La Flamme Beighey,2009 My husband died the day after Christmas, leaving four children, ages two to nine. Anxious how we would manage without him, too young to understand, my children asked, Why my daddy? I couldn't find any material to help them, so I decided to write one. While vacationing at my brother's lake cabin, in Michigan's northern woods, we watched a mother raccoon and her babies feeding daily at the stump outside our kitchen window when the idea came to write my stories through the eyes of animals. The first book in The Waddodles of Hollow Lake series, Law of the Woodland, is built on family values, tales of courage, love, hope and trust in each other. The second series book, The Waddodles of Hollow Lake: Calamity on East Bay features more exciting adventures with The Waddodles and their friends, highlighting many episodes with their enemies. Journey to the West Shore finds the family sad about leaving their den, but excited about their new adventure. On their way, the Waddodles journey through the fragrant Pine Forest, the mysterious Cedar Swamp; the beautiful Grassy Meadow, then onto West Shore where they move into their hollow in a magnificent tree, The Mighty Oak. The happy family looks forward to their first day in their new home, and meeting their interesting new neighbors. In The Mighty Oak, the family adjusts to their new environment and friends; experiencing living next door to the mystifying human Lawrence Family, Hubbard Great-Homed Owl, Rosie Skunk, and Dulcie Porcupine and the nemesis's 'The Beauties', Charmaine Crest Robin and Melody Mom Bluebird. The Waddodles experience lots of activity as they build new relationships. Harriet meets a new beau, Tobias Trottleby. Plans are underway for the Ruffed Grouse Courtship Ceremony and The Birds Beauty Contest.

The Routledge Companion to Radio and Podcast Studies Mia Lindgren,Jason Loviglio,2022-06-15 This comprehensive companion is a much-needed reference source for the expanding field of radio, audio, and podcast study, taking readers through a diverse range of essays examining the core questions and key debates surrounding radio practices, technologies, industries, policies, resources, histories, and relationships with audiences. Drawing together original essays from well-established and emerging scholars to conceptualize this multidisciplinary field, this book's global perspective acknowledges radio's enduring affinity with the local, historical relationship to the national, and its unpredictably transnational reach. In its capacious understanding of what constitutes radio, this collection also recognizes the latent time-and-space shifting possibilities of radio broadcasting, and of the myriad ways for audio to come to us 'live.' Chapters on terrestrial radio mingle with studies of podcasts and streaming audio, emphasizing continuities and innovations in form and content, delivery and reception, production cultures and aesthetics, reminding us that neither 'radio' nor 'podcasting' should be approached as static objects of analysis but rather as mutually constituting cultural forms. This cutting-edge and vibrant companion provides a rich resource for scholars and students of history, art theory, industry studies, journalism, media and communication, cultural studies, feminist analysis, and postcolonial studies. Chapter 42 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

A Paul Green Reader Laurence G. Avery,2000-11-09 North Carolina's Paul Green (1894-1981) was part of that remarkable generation of writers who first brought southern writing to the attention of the world. Winner of a Pulitzer Prize for Drama in 1927, Green was a restless experimenter who pioneered a new form of theater with his symphonic drama, The Lost Colony. A concern for human rights characterized both his life and his writing, and his steady advocacy for educational and social reform and racial justice contributed in fundamental ways to the emerging New South in the first half of this century. A Paul Green Reader makes available once again the work of this powerful and engaging writer. It features Green's drama and fiction, with texts of three plays--including the Pulitzer Prize-winning In Abraham's Bosom and the famous second act of The Lost Colony--and six short stories. It also reveals the life behind the work through several of Green's essays and letters and an excerpt from The Wordbook, his collection of regional folklore. Laurence Avery's introduction outlines Green's life and examines the central concerns and techniques of his work. A native of Harnett County, North Carolina, Paul Green was a devoted teacher of philosophy and drama at the University of North Carolina at Chapel Hill.

Trauma, Psychosis, and Posttraumatic Stress Disorder Kate V. Hardy,Kim T. Mueser,2017-12-21 There is abundant evidence showing a strong association between trauma exposure, psychotic symptoms, and posttraumatic stress disorder (PTSD). Early trauma exposure contributes to the formation of psychotic symptoms and the development of psychotic disorders or severe mental illnesses such as schizophrenia, bipolar disorder, and treatment-refractory major depression. Furthermore, among persons with psychotic disorders, multiple traumatization over the lifetime is common, due to factors such as social stigma, the criminalization of severe mental illness, and increased vulnerability to interpersonal victimization. In addition to these factors is the traumatic nature of experiencing psychotic symptoms and coercive treatments such as involuntary hospitalization and being placed in seclusion or restraints. Not surprisingly, these high rates of trauma lead to high rates of PTSD in people with psychotic disorders, which are associated with more severe symptoms, worse functioning, and greater use of acute care services. In addition to the impact of trauma on the development of psychotic disorders and comorbid PTSD, traumatic experiences such as childhood sexual and physical abuse can shape the nature of prominent psychotic symptoms such as the content of auditory hallucinations and delusional beliefs. Additionally, traumatic experiences have been implicated in the role of 'stress responsivity' and increased risk for transition to psychosis in those identified as being at clinical high risk of developing psychosis. Finally, although the diagnostic criteria for PTSD primarily emphasize the effects of trauma on anxiety, avoidance, physiological over-arousal, and negative thoughts, it is well established that PTSD is frequently accompanied by psychotic symptoms such as hallucinations and delusions that cannot be attributed to another DSM-V Axis I disorder such as psychotic depression or schizophrenia. Understanding the contribution of traumatic experiences to the etiology of psychosis and other symptoms can inform the provision of cognitive behavioral therapy for psychosis, including the development of a shared formulation of the events leading up to the onset of the disorder, as well as other trauma-informed treatments that address distressing and disabling symptoms associated with trauma and psychosis. Until recently the trauma

treatment needs of this population have been neglected, despite the high rates of trauma and PTSD in persons with psychotic disorders, and in spite of substantial gains made in the treatment of PTSD in the general population. Fortunately, progress in recent years has provided encouraging evidence that PTSD can be effectively treated in people with psychotic disorders using interventions adapted from PTSD treatments developed for the general population. In contrast to clinician fears about the untoward effects of trauma-focused treatments on persons with a psychotic disorder, research indicates that post-traumatic disorders can be safely treated, and that participants frequently experience symptom relief and improved functioning. There is a need to develop a better understanding of the interface between trauma, psychosis, and post-traumatic disorder. This Frontiers Research Topic is devoted to research addressing this interface.

Teaching Language as Action in the ELA Classroom Richard Beach,Faythe Beauchemin,2019-03-14 This book explores English language arts instruction from the perspective of language as social actions that students and teachers enact with and toward one another to create supportive, trusting relations between students and teachers, and among students as peers. Departing from a code-based view of language as a set of systems or structures, the perspective of languaging as social actions takes up language as emotive, embodied, and inseparable from the intellectual life of the classroom. Through extensive classroom examples, the book demonstrates how elementary and secondary ELA teachers can apply a languaging perspective. Beach and Beauchemin employ pedagogical cases and activities to illustrate how to enhance students' engagement in open-ended discussions, responses to literature, writing for audiences, drama activities, and online interactions. The authors also offer methods for fostering students' self-reflection to improve their sense of agency associated with enhancing relations in face-to-face, rhetorical, and online contexts.
