The Oxford Dictionary of English Grammar Sylvia
Chalker,E. S. C. Weiner,1998 English grammar has changed a
great deal since the beginning of the Twentieth Century, and it is
a subject that can provide a complex minefield of uncertainties
within the language. This accessible and comprehensive
dictionary comes to the aid of both the general reader and the
student or teacher, offering straightforward and immediate A-Z
access to 1,000 grammatical terms and their meanings. All the
currently accepted terms of grammar are included, as well as
older, traditional names, controversial new coinages, and items
from the study of other languages. Concise definitions of the
wider subject of linguistics, including phonetics and
transformational grammar, are accompanied by examples of
language in use, and frequent quotations from existing works on
grammar.
