The House of the Cylinder Jars Patricia L. Crown,2020-10-15 The House of the Cylinder Jars details the archaeological excavations led by Patricia L. Crown at Pueblo Bonito's famed Room 28 in Chaco Canyon in 2013. Originally excavated in 1896 by the Hyde Exploring Expedition, Room 28 gained notoriety for its incredible assemblage of 174 whole ceramic vessels. Crown and her team reopened Room 28 after she and Jeffrey Hurst discovered residues of chocolate in cylinder jar fragments from Pueblo Bonito in 2009. Their research revealed the first evidence of chocolate north of the US-Mexico border and possibly linked Chacoan rituals surrounding cacao use to Mesoamerica. The House of the Cylinder Jars documents the re-excavation of Room 28, and places it within the context of other rooms at Pueblo Bonito, and describes the ritual termination by fire of the materials stored in the room. The contributors also offer a modern interpretation of the construction and depositional histories of surrounding spaces at Pueblo Bonito in Chaco Canyon.

Electronic Structure and Magnetism of Inorganic Compounds P Day,1972-12-31 Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research. Written by experts in their specialist fields the series creates a unique service for the active research chemist, supplying regular critical in-depth accounts of progress in particular areas of chemistry. For over 80 years the Royal Society of Chemistry and its predecessor, the Chemical Society, have been publishing reports charting developments in chemistry, which originally took the form of Annual Reports. However, by 1967 the whole spectrum of chemistry could no longer be contained within one volume and the series Specialist Periodical Reports was born. The Annual Reports themselves still existed but were divided into two, and subsequently three, volumes covering Inorganic, Organic and Physical Chemistry. For more general coverage of the highlights in chemistry they remain a 'must'. Since that time the SPR series has altered according to the fluctuating degree of activity in various fields of chemistry. Some titles have remained unchanged, while others have altered their emphasis along with their titles; some have been combined under a new name whereas others have had to be discontinued. The current list of Specialist Periodical Reports can be seen on the inside flap of this volume.

Handbook Pierre Villars,Karin Cenxual,Roman Gladyshevskii,2014-12-17 Since the discovery of X-ray diffraction in 1913 over 100 000 different inorganic substances (also called compounds or phases) have been structurally characterized. The aim of this reference work is to provide the researcher with a comprehensive compilation of all up to now crystallographically identified inorganic substances in only one volume. All data have been processed and critically evaluated by the Pauling File editorial team using a unique software package. Each substance is represented in a single row containing information adapted to the number of chemical elements.

Under Heaven's Brow Ward Hunt Goodenough,2002 For the people of Chuuk and for students of religion and Micronesian culture, this book pulls together and makes available in English the somewhat scattered published accounts (largely in German), along with Goodenough's own (as yet unpublished) information about religious beliefs and ritual practices in pre-Christian Chuuk. The materials are presented in a way that seeks to document and illustrate a particular approach, a functional one, to understanding the kinds of human concerns that give rise to religious behavior. Simply to describe traditional beliefs and rituals without the relevant social background information leaves the reader without any feeling for what were the emotional concerns, engendered by life in Chuukese society, that ritual practices helped people address. Ward Goodenough offers a theoretical introduction, the necessary background information about Chuuk and the ways in which members of Chuukese society experienced themselves and their fellows, the world view and overall set of beliefs providing the intellectual framework within which ritual practices were formulated and understood, and the various bodies of ritual practices. He concludes the book with a summary that pulls together how the rituals described appear to related to the emotional concerns that growing up and living in Chuuk tended to create.
