Managing the Corporate Reputation of Emirates

Nbd P. K. Jagersma, 2017-05-26 'Managing the Corporate Reputation of Emirates NBD - A Senior Executive Perspective' aims to provide an authoritative view on the 'reputation equity' of Emirates NBD seen through the lens of 159 senior executives and senior managers. We had access to the peak of the pyramid - Financial Times Global 500 company senior executives and senior managers - who submitted data on Emirates NBD's (wholesale) banking activities (that is, business and corporate banking including investment banking) and contributed their time, ideas, and insight. The result is a unique 'MRI scan' of Emirates NBD. We have built upon the structure of earlier studies with the addition of several more detailed areas of analysis (see also: P.K. Jagersma, 'On Becoming Extraordinary: Star Professional Service Firms', ISBN 978 908 107 7651 available through www.amazon.com). We have focused in on six 'key performance indicators' of Emirates NBD's wholesale banking activities: client strategy, market strategy, competitive strategy, people strategy, innovation strategy, and business model strategy. Measuring and managing the value of reputation is the holy grail of bank management. Not surprisingly, 'Managing the Corporate Reputation of Emirates NBD - A Senior Executive Perspective' has been really fascinating to work on.

Raising Capital on Şukūk Markets Salim Al-
Ali,2019-05-10 Şukūk markets have grown
significantly worldwide since their emergence– in
Islamic jurisdictions as well as conventional
jurisdictions including the US, the UK, Germany,
China, France and Singapore. The practices of
şukūk markets, however, have come under close
scrutiny. The legal and regulatory risks arising
from the existing general legal environment and
their impact on those investing and trading in
şukūk markets has not received adequate attention.
The topic of şukūk has been subject to extensive
research and academic discussion from different
perspectives, but the existing literature has not
adequately addressed the issues associated with
these markets. This book examines the contemporary
issues encountered in the foundation and operation
of şukūk markets by providing an in-depth
discussion of the issues facing şukūk markets from
legal and regulatory perspectives and focusing
attention on how soundness can be ensured in the
wider context. These issues go to the heart of
what the şukūk market is really about, as recent
debate has recognised in şukūk the replication of
conventional bonds in ways that are considered

unsatisfactory from an Islamic law point of view.

Digital Existence Amanda Lagerkvist, 2018-07-20
Digital Existence: Ontology, Ethics and Transcendence in Digital Culture advances debates on digital culture and digital religion in two complementary ways. First, by focalizing the themes 'ontology,' 'ethics' and 'transcendence,' it builds on insights from research on digital religion in order to reframe the field and pursue an existential media analysis that further pushes beyond the mandatory focus in mainstream media studies on the social, cultural, political and economic dimensions of digitalization. Second, the collection also implies a broadening of the scope of the debate in the field of media, religion and culture – and digital religion in particular – beyond 'religion,' to include the wider existential dimensions of digital media. It is the first volume on our digital existence in the budding field of existential media studies.
