Beautiful Risk of Education Gert J. J. Biesta, 2015-11-17 This is a book about what many teachers know but are increasingly being prevented from talking about: that real education always involves a risk. The risk is there because, as W. B. Yeats has put it, education is not about filling a bucket but about lighting a fire. It is there because students are not to be seen as objects to be moulded and disciplined, but as subjects of action and responsibility. The Beautiful Risk of Education is organised around a critical discussion of seven key educational concepts: creativity, communication, teaching, learning, emancipation, democracy, and virtuosity. By opposing the risk aversion that characterises many contemporary educational policies and practices, Gert J.J. Biesta makes a strong argument for giving risk a central place in our educational endeavours and brings risk taking to the forefront of a critical pedagogical practice.

**Situational Action Theory: Oxford Bibliographies Online Research Guide** Oxford University Press, 2010-05-01 This ebook is a selective guide designed to help scholars and students of criminology find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. A reader will discover, for instance, the most reliable introductions and overviews to the topic, and the most important publications on various areas of scholarly interest within this topic. In criminology, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is a static version of an article from Oxford Bibliographies Online: Criminology, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of criminology. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit [www.oxfordbo.com](http://www.oxfordbo.com).

*Humanification* Christian Kromme, 2017-03-08 A study of the powerful forces of innovation and disruptive technologies that are going to change everything in our world within the foreseeable future of our lifetimes.

Guidelines for Clinical Practice Institute of Medicine, Committee on Clinical Practice Guidelines, 1992-02-01 Guidelines for the clinical practice of medicine have been proposed as the solution to the whole range of current health care problems. This new book presents the first balanced and highly practical view of guidelines—their strengths, their limitations, and how they can be used most effectively to benefit health care. The volume offers: Recommendations and a proposed framework for strengthening development and use of guidelines. Numerous examples of guidelines. A ready-to-use instrument for assessing the soundness of guidelines. Six case studies exploring issues involved when practitioners use guidelines on a daily basis. With a real-world outlook, the volume reviews efforts by agencies and organizations to disseminate guidelines and examines how well guidelines are functioning—exploring issues such as patient information, liability, costs, computerization, and the adaptation of national guidelines to local needs.

**Young Children's Cognitive Development** Wolfgang Schneider, Ruth Schumann-Hengsteler, Beate Sodian, 2014-04-04 A critical part of early childhood development is the development of theory of mind (ToM), which is the ability to take the perspective of another person. The main purpose of this book is to discuss and integrate findings from prominent research areas in developmental psychology that are typically studied in isolation, but are clearly related. Two examples are whether executive functions represent a precursor of ToM or whether ToM understanding predicts the development of executive functions, and to what extent children's level of verbal ability and their working memory are important predictors of performance on both executive functioning and ToM tasks. The chapters in this book give a detailed account of the major outcomes of this research. First, the state of the art concerning current understanding of the relevant constructs (working memory, ToM, executive functioning) and their developmental changes is presented, followed by chapters that deal with interactions among the core concepts. Its main focus is on theoretically important relationships among determinants of young children's cognitive development--considered to be hot issues in contemporary developmental psychology. Based on presentations made at an international workshop, this book is divided into two parts. In the first part, five teams of researchers present theoretical analyses and overviews of empirical evidence regarding the core constructs of memory, executive functions, and ToM. The next part deals with the interplay among the core concepts outlined in Part I with developmental trends in the interaction.

**Complications in Dermatologic Surgery** Keyvan Nouri, 2008-01-01 World-renowned experts in the field guide you through the potential intra- and post-operative risks associated with the dermatologic surgeries you perform every day. You'll find cutting-edge knowledge on how to avoid and manage complications resulting from laser surgery, photodynamic therapy, hair transplantation, chemical peeling, dermabrasion, leg vein treatments, temporary fillers, permanent fillers, botulinum toxin, liposuction, blepharoplasty, facelifts and ancillary facial cosmetic surgery procedures, skin cancer surgery/Mohs' micrographic surgery, reconstructive surgery, electrosurgery, cryosurgery, nail surgery, and contact dermatitis in dermatologic surgery. The preparation of the patient, psychosocial issues, and anesthesia complications for all procedures are also covered. World-renowned experts guide you through the potential intra- and post-operative complications, preventive measures, and treatment options relating to dermatologic surgery. Comprehensive coverage of the most common dermatologic surgical procedures, including cosmetic, general, and cutaneous oncology surgeries, helps you assess the risks associated with a particular surgery and determine which option is best for your patient. Detailed evaluations of treatment options and plans equip you with the knowledge you need to confidently manage any complication. The bonus CD-ROM contains all the book's illustrations for on-the-go reference.

**Crime Control and Community** Gordon Hughes, Adam Edwards, 2002 Community-based crime control has become one of the principal policy responses to crime and disorder across western societies, and is regarded now as one of the keys to successful crime prevention and reduction. The aim of this book is to bring together findings from case studies of community-based crime control in England as a means of examining the prospects for this approach, its evolving relationship with criminal justice and social policies, and to assess the lessons internationally that can be drawn from this in the theory, research methods, politics and practice of crime control. At the same time the book advances an important new conceptual framework for understanding community-based crime control, focusing on an understanding of the diversity of control and preventative strategies, the locally particular conditions in which they are conducted, and the degree of choices open to local political actors involved in their conduct. Understanding diversity in this way is central to drawing lessons about the transferability of crime control theory and practice from one social context to another, avoiding the naïve emulation of practices in different contexts.

**Coming to Terms with Superdiversity** Peter Scholten, Maurice Crul, Paul van de Laar, 2018-11-26 This open access book discusses Rotterdam

as clear example of a superdiverse city that is only reluctantly coming to terms with this new reality. Rotterdam, as is true for many post-industrial cities, has seen a considerable backlash against migration and diversity: the populist party Leefbaar Rotterdam of the late Pim Fortuyn is already for many years the largest party in the city. At the same time Rotterdam has become a majority minority city where the people of Dutch descent have become a numerical minority themselves. The book explores how Rotterdam is coming to terms with superdiversity, by an analysis of its migration history of the city, the composition of the migrant population and the Dutch working class population, local politics and by a comparison with Amsterdam and other cities. As such it contributes to a better understanding not just of how and why super-diverse cities emerge but also how and why the reaction to a super-diverse reality can be so different. By focusing on different aspects of superdiversity, coming from different angles and various disciplinary backgrounds, this book will be of interest to students and scholars in migration, policy sciences, urban studies and urban sociology, as well as policymakers and the broader public.

*European Cohesion Policy* Willem Molle, 2007-08-07 The only comprehensive text available for advanced study and professional reference, this book brings much needed clarity to both the theoretical and practical aspects of EU intervention. Integrating both theoretical and practical research in a clear and accessible structure, covering economic, social and territorial issues European Cohesion Policy provides a systematic view of the various stages of the whole policy cycle, looking in detail at: the evolution of the problems the design of the policy system the implementation in practice the evaluation of effects . An authoritative analysis of the problems and debates involved, European Cohesion Policy is essential reading for students, policy makers, development workers and researchers working in all aspects of European policy.

*The Mafia Mystique* Dwight C. Smith, 1975 This text examines the imagery linked to the term mafia. The author aims to break down the mystique surrounding the word, attributing its buildup to sensational reporting, hidden agendas and the public's fascination with the idea of a secret criminal society. In tracing this mystique through history, the author determines how much of that image comes from actual events.

**Murder Most Unusual** Michelle Somers, 2017-02-06 SHE WRITES. HE WATCHES. HE WAITS. HE KILLS... Romance novelist Stacey Holland doesn't believe in love; marriage to a manipulator taught her as much. So she hides away in her fictional world, penning the perfect romance, intertwining the perfect crime. Excitement is for her books—worlds where the mortality of her characters is governed by a tap on her keyboard and the heroine always gets her happy ever after. Homicide detective Chase Durant's cases are real and gritty and one wrong move could be his last. The Force is his life—he doesn't have room for more. Love and relationships hold no place for a man whose fate is predetermined by the genetic roll of a dice. With uncertainty on the horizon, he won't promise a future he can't guarantee. Then a sadistic killer breathes Stacey's gruesome murders to life and the pair are thrown together in a sick game of murder and lies. When tempers flare, and the murders get personal, can author and detective fight their growing attraction all-the-while fighting the killer determined to destroy them both? *Murder Most Unusual* is a seductive romantic suspense set in Melbourne, Australia, written by Michelle Somers, award-winning author of *Lethal in Love*.

**Reducing Intergroup Bias** Samuel L. Gaertner, John F. Dovidio, 2014-04-04 Considers situations and interventions that can foster more inclusive representation and ways, both theoretically and practically, and that a common ingroup identity can facilitate more harmonious intergroup relations.

**Cosmotechnics** Yuk Hui, Pieter Lemmens, 2021-05-18 This volume is initial reflections on the meaning and the implications of Yuk Hui's notion of cosmotechnics, which opens up an anti-universalist and pluralist perspective on technology beyond the West. Martin Heidegger's famous analysis of the essence of technology as enframing and as rooted in ancient Greek techne has had a crucial influence on the understanding and critique of technological society and culture in the twentieth century. However, it is still unclear to what extent his analysis can also be applied to the

development of technology outside of 'the West', e.g. in China, Africa, and Latin America, particularly against the backdrop of receding Western domination and impending global ecological disaster. Acknowledging the planetary expansion of Western technology already observed by Heidegger, yet also recognizing the existence of non-Western origins of technical relationships to the cosmos, Yuk Hui's notion of cosmotechnics calls for a rethinking - in dialogue with decolonial studies and the so-called ontological turn in contemporary anthropology - of the question concerning technology which challenges the universality still present in Heidegger (as well as in Simondon and Stiegler) and proposes a radical technological or rather cosmotechnical pluralism or technodiversity. The contributors to this volume critically engage with this proposal and examine the possible implications of Hui's cosmotechnical turn in thinking about technology as it becomes a planetary force in our current age of the Anthropocene. The chapters in this book were originally published as a special issue of *Angelaki*.

**Resilience and Health** Tadeusz Marian Ostrowski, Iwona Sikorska, Krzysztof Gerc, 2016-02-22 What decides whether a person suffering misfortune bounces back quickly or falls into despair for years? Which processes and mechanisms constitute psychological resilience? Is there a particular, evolutionary-shaped model of human adaptation, which enables a person to maintain mental health in unfavorable and dynamically changing circumstances? All these questions are addressed by the contributors to the monograph titled *Resilience and Health in a Fast-Changing World*. While searching for the answers the authors refer to an extensive scholarly literature, their own theoretical investigations as well as to the outcomes of empirical researches conducted.

**Social Emergence** R. Keith Sawyer, 2005-10-27 This book argues that societies are complex dynamical systems that can be understood through the concept of emergence.

**The Courage of Truth** M. Foucault, 2011-04-21 *The Courage of the Truth* is the last course that Michel Foucault delivered at the Collège de France before his death in 1984. In this course, he continues the theme of the previous year's lectures in exploring the notion of truth-telling in politics to establish a number of ethically irreducible conditions based on courage and conviction.
