**Electronic Discourse in Language Learning and Language Teaching** Lee B. Abraham, Lawrence Williams, 2009 New technologies are constantly transforming traditional notions of language use and literacy in online communication environments. While previous research has provided a foundation for understanding the use of new technologies in instructed second language environments, few studies have investigated new literacies and electronic discourse beyond the classroom setting. This volume seeks to address this gap by providing corpus-based and empirical studies of electronic discourse analyzing social and linguistic variation as well as communicative practices in chat, discussion forums, blogs, and podcasts. Several chapters also examine the assessment and integration of new literacies. This volume will serve as a valuable resource for researchers, teachers, and students interested in exploring electronic discourse and new literacies in language learning and teaching.

*Classroom Testing* John Brian Heaton,1990 The Longman Keys to Language Teaching series is intended especially for ordinary teachers. The books in the Keys series offer realistic, practical, down-to-earth advice on useful techniques and approaches in the modern ELT classroom. Most of the activities suggested in these books can be adapted and used for almost any class, by any teacher. One of the subjects of most concern to all teachers is classroom testing. For what reasons should we do it? How should we do it? How often should we do it? How should we organise it? Can it be harmful? What is the relationship between teaching and testing? These are just some of the questions that Brian Heaton addresses in this book. With a minimum of jargon, a number of fundamental concepts are treated in an accessible manner. As well as a discussion of these important issues, the author includes a great many examples of tests that teachers can adapt and use in their own classrooms. In addition, he gives advice on the role of continuous assessment, in which there has been an increasing amount of interest in recent years. The book also contains some suggestions on oral testing - including how to cope with this in large classes.

**How We Write** Mike Sharples,2002-11-01 How We Write is an accessible guide to the entire writing process, from forming ideas to formatting text. Combining new explanations of creativity with insights into writing as design, it offers a full account of the mental, physical and social aspects of writing. How We Write explores: how children learn to write the importance of reflective thinking processes of planning, composing and revising visual design of text cultural influences on writing global hypertext and the future of collaborative and on-line writing. By referring to a wealth of examples from writers such as Umberto Eco, Terry Pratchett and Ian Fleming, How We Write ultimately teaches us how to control and extend our own writing abilities. How We Write will be of value to students and teachers of language and psychology, professional and aspiring writers, and anyone interested in this familiar yet complex activity.

ACS Carolyn Manville Baum,Dorothy Edwards,2008-01-01 Activity Card Sort, 2nd Edition (ACS) is a flexible and useful measure of occupation that enables occupational therapy practitioners to help clients describe their instrumental, leisure, and social activities. The format's 89 photographs of individuals performing activities and 3 versions of the instrument (Institutional, Recovering, and Community Living) is easily understood and administered. Using the ACS will give clinicians the occupational history and information they need to help clients build routines of meaningful and healthy activities. Includes 20 instrumental activities, 35 low-physical-demand leisure activities, 17 high-physical-demand leisure activities, and 17 social activities and allows for the calculation of the percentage of activity retained.
