**Transforming Japanese Business** Anshuman Khare,Hiroki Ishikura,William W. Baber,2019-12-06 This book explores how the business transformation taking place in Japan is influenced by the digital revolution. Its chapters present approaches and examples from sectors commonly understood to be visible arenas of digital transformation—3D printing and mobility, for instance—as well as some from not-so-obvious sectors, such as retail, services, and fintech. Business today is facing unprecedented change especially due to the adoption of new, digital technologies, with a noticeable transformation of manufacturing and services. The changes have been brought by advanced robotics, the emergence of artificial intelligence, and digital networks that are growing in size and capability as the number of connected devices explodes. In addition, there are advanced manufacturing and collaborative connected platforms, including machine-to-machine communications. Adoption of digital technology has caused process disruptions in both the manufacturing and services sectors and led to new business models and new products. While examining the preparedness of the Japanese economy to embrace these changes, the book explores the impact of digitally influenced changes on some selected sectors from a Japanese perspective. It paints a big picture in explaining how a previously manufacturing-centric, successful economy adopts change to retain and rebuild success in the global environment. Japan as a whole is embracing, yet also avoiding—innovating but also restricting—various forms of digitalization of life and work. The book, with its 17 chapters, is a collaborative effort of individuals contributing diverse points of view as technologists, academics, and managers.

**The City of Tomorrow** Carlo Ratti,Matthew Claudel,2016-06-28 Since cities emerged ten thousand years ago, they have become one of the most impressive artifacts of humanity. But their evolution has been anything but linear—cities have gone through moments of radical change, turning points that redefine their very essence. In this book, a renowned architect and urban planner who studies the intersection of cities and technology argues that we are in such a moment. The authors explain some of the forces behind urban change and offer new visions of the many possibilities for tomorrow's city. Pervasive digital systems that layer our cities are transforming urban life. The authors provide a front-row seat to this change. Their work at the MIT Senseable City Laboratory allows experimentation and implementation of a variety of urban initiatives and concepts, from assistive condition-monitoring bicycles to trash with embedded tracking sensors, from mobility to energy, from participation to production. They call for a new approach to envisioning cities: futurecraft, a symbiotic development of urban ideas by designers and the public. With such participation, we can collectively imagine, examine, choose, and shape the most desirable future of our cities.

Pearls from Arabia Mohammed Mahfoodh Al Ardhi,2010 Pearls from Arabia is a collection of beautiful words spoken by the Prophet Mohammed (PBUH) around 15 centuries ago. The reflective and inspirational words will direct the reader to the simple, peaceful, and honorable aspects of life, which all humans need, but which are all too often buried by the multiple layers and pressures of contemporary living. Each page contains a single aphorism.

*Arabs Down Under* Mohammed Mahfoodh Al Ardhi,2008 Ibrahim, a freelance journalist from Arabia, has always been deeply aware of his rich Arabian heritage and history but has become disillusioned and disheartened by the seemingly incessant onslaught of Western suspicion, abuse and adverse media attention thrust upon his people. To Ibrahim and his family, it seems as if Western paranoia and prejudice against the Arab has become set in stone. It is to escape this climate of hostility that Ibrahim decides to take his wife, two sons and three daughters on a holiday away from the heat of the Middle Eastern summer and visit an old journalist friend, Mark, a staunch Englishman who has retired to New Zealand. There,

they could assimilate a new culture, meet new people with new ideas, and see a land seldom visited by their fellow Arabs and which has therefore remained untouched by the long tentacles of the Islamic extremist. In the weeks that follow, Ibrahim discusses with his old friend the ticklish questions of Western misconception, misunderstanding and the perceived inequalities of his race. Together they are able to dispel the myths and identify the areas of ignorance that prevail in the West and which do so much damage to the image of the Arab. Above all, Ibrahim is able to nurture within his young teenage offspring the seeds of a brighter future, one within which peace and reconciliation between the worlds of Islam and the West are of paramount importance.

**Emil Nolde** Emil Nolde,Astrid Becker,Keith S. Hartley,Frances Blythe,Sean Rainbird,Christian Weikop,2018 Emil Nolde (1867-1956) was one of the greatest colourists of the twentieth century. An artist passionate about his north German home near the Danish border, with its immense skies, flat, windswept landscapes and storm-tossed seas, he was equally fascinated by the demi-monde of Berlin's cafes and cabarets, the busy to and fro of tugboats in the port of Hamburg and the myriad of peoples and places he saw on his trip to the South Seas in 1914. Nolde felt strongly about what he painted, identifying with his subjects in every brushstroke he made, heightening his colours and simplifying his shapes, so that we, the viewers, can also experience his emotional response to the world about him. This book features five essays and over 100 illustrations drawn from the incomparable collection of the Emil Nolde Foundation in Seebull (the artist's former home in north Germany). It covers Nolde's complete career, from his early atmospheric paintings of his homeland right through to the intensely coloured, so-called 'unpainted paintings', works done on small pieces of paper during the Third Reich when Nolde was branded 'degenerate' and forbidden to work as an artist.
