A Cognitive Psychology of Mass Communication Richard Jackson Harris, Fred W. Sanborn, 2009-05-19 In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge about the world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly discussed topics – sex, violence, advertising – to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing; contemporary references to all types of media familiar to students; substantial discussion of theories and research, including interpretations of original research studies; a balanced approach to covering the breadth and depth of the subject; discussion of work from both psychology and media disciplines. The text is appropriate for Media Effects, Media & Society, and Psychology of Mass Media coursework, as it examines the effects of mass media on human cognitions, attitudes, and behaviors through empirical social science research; teaches students how to examine and evaluate mediated messages; and includes mass communication research, theory and analysis.

Accelerando Charles Stross, 2005-07-05 *The Singularity*. It is the era of the posthuman. Artificial intelligences have surpassed the limits of human intellect. Biotechnological beings have rendered people all but extinct. Molecular nanotechnology runs rampant, replicating and reprogramming at will. Contact with extraterrestrial life grows more imminent with each new day. Struggling to survive and thrive in this accelerated world are three generations of the Macx clan: Manfred, an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet; his daughter, Amber, on the run from her domineering mother, seeking her fortune in the outer system as an indentured astronaut; and Sirhan, Amber's son, who finds his destiny linked to the fate of all of humanity. For something is systematically dismantling the nine planets of the solar system. Something beyond human comprehension. Something that has no use for biological life in any form...

The Art of Watching Films Joseph M. Boggs, Dennis W. Petrie, 2008 Accompanying CD-ROM provides short film clips that reinforce the key concepts and topics in each chapter.

Documenting the Documentary Barry Keith Grant, 2013-12-16 Originally released in 1998, *Documenting the Documentary* responded to a scholarly landscape in which documentary film was largely understudied and undervalued aesthetically, and analyzed instead through issues of ethics, politics, and film technology. Editors Barry Keith Grant and Jeannette Sloniowski addressed this gap by presenting a useful survey of the artistic and persuasive aspects of documentary film from a range of critical viewpoints. This new edition of *Documenting the Documentary* adds five new essays on more recent films in addition to the text of the first edition. Thirty-one film and media scholars, many of them among the most important voices in the area of documentary film, cover the significant developments in the history of documentary filmmaking from *Nanook of the North* (1922), the first commercially released documentary feature, to contemporary independent film and video productions like Werner Herzog's *Grizzly Man* (2005) and the controversial *Borat* (2006). The works discussed also include representative examples of many important national and stylistic movements and various production contexts, from mainstream to avant-garde. In all, this volume offers a series of rich and revealing analyses of those regimes of truth that still fascinate filmgoers as much today as they did at the very beginnings of film history. As documentary film and visual media become increasingly important ways for audiences to process news and information, *Documenting the Documentary* continues to be a vital resource to understanding the genre. Students and teachers of film studies and fans of documentary film will appreciate this expanded classic volume.

Bioethics and Medical Issues in Literature Mahala Yates Stripling, 2013-11 Many of the bioethical and medical issues challenging society today have been anticipated and addressed in literature ranging from Mary Shelley's *Frankenstein*, Albert Camus's *The Plague*, to Margaret Edson's *Wit*. The ten works of fiction explored in this book stimulate lively dialogue on topics like bioterrorism, cloning, organ transplants, obesity and heart disease, sexually transmitted diseases, and civil and human rights. This interdisciplinary and multicultural approach introducing literature across the curricula helps students master medical and bioethical concepts brought about by advances in science and technology, bringing philosophy into the world of science.

Psychology at the Movies Skip Dine Young, 2012-04-09 *Psychology at the Movies* explores the insights to be gained by applying various psychological lenses to popular films including cinematic depictions of human behavior, the psychology of filmmakers, and the impact of viewing movies. Uses the widest range of psychological approaches to explore movies, the people who make them, and the people who watch them. Written in an accessible style with vivid examples from a diverse group of popular films, such as *The Silence of the Lambs*, *The Wizard of Oz*, *Star Wars*, *Taxi Driver*, *Good Will Hunting*, and *A Beautiful Mind*. Brings together psychology, film studies, mass communication, and cultural studies to provide an interdisciplinary perspective. Features an extensive bibliography for further exploration of various research fields.

Mental Illness in Popular Culture Sharon Packer MD, 2017-05-24 Being crazy is generally a negative characterization today, yet many celebrated artists, leaders, and successful individuals have achieved greatness despite suffering from mental illness. This book explores the many different representations of mental illness that exist—and sometimes persist—in both traditional and new media across eras. Mental health professionals and advocates typically point a finger at pop culture for sensationalizing and stigmatizing mental illness, perpetuating stereotypes, and capitalizing on the increased anxiety that invariably follows mass shootings at schools, military bases, or workplaces; on public transportation; or at large public gatherings. While drugs or street gangs were once most often blamed for public violence, the upswing of psychotic perpetrators casts a harsher light on mental illness and commands media's attention. What aspects of popular culture could play a role in mental health across the nation? How accurate and influential are the various media representations of mental illness? Or are there unsung positive portrayals of mental illness? This standout work on the intersections of pop culture and mental illness brings informed perspectives and necessary context to the myriad topics within these important, timely, and controversial issues. Divided into five sections, the book covers movies; television; popular literature, encompassing novels, poetry, and memoirs; the visual arts, such as fine art, video games, comics, and graphic novels; and popular music, addressing lyrics and musicians' lives. Some of

the essays reference multiple media, such as a filmic adaptation of a memoir or a video game adaptation of a story or characters that were originally in comics. With roughly 20 percent of U.S. citizens taking psychotropic prescriptions or carrying a psychiatric diagnosis, this timely topic is relevant to far more individuals than many people would admit.

Encyclopedia of Human Relationships Harry T. Reis,2009-03-25 This encyclopedia provides a structure to understand the essential rudiments of human behaviour and interpersonal relationships

Psychotherapy, Literature and the Visual and Performing Arts Bruce Kirkcaldy,2018-05-25 This book explores the relevance of literature and the performing and visual arts for effective clinical psychotherapy. There is a growing interest in the use of the arts in psychotherapy, in part due to an increasing awareness of the limitations in verbal communication and scepticism towards traditional forms of medical treatment. Gathering together perspectives from international practitioners this volume embraces the value of a range of mediums to psychotherapy, from film and photo-therapy to literature and narrative therapy. Based on theoretical studies, clinical expertise and experiential learning, authors offer detailed guidelines on the value of various art forms in practice.

The Spirit of Servant-leadership Shann Ray Ferch,Larry C. Spears,2011 In *The Spirit of Servant-Leadership* editors Shann Ferch and Larry Spears present an elegant and powerful approach to the nature of the leader-follower dynamic, with a specific focus on many of the most radical, life-affirming, and transformative facets of the servant-leader. In essence, *The Spirit of Servant-Leadership* speaks to the soul of humanity by gathering a bright symphony of voices, including some of the current thought-leaders of contemporary leadership. Among the many voices in this volume, Peter Block questions the very nature of leadership and draws people to more deeply understand the subtlety, humility, and self-transcendence required to develop one another, individually and collectively. Larry C. Spears delves into the rich earth of holistic servant-leadership, and creates multidimensional growth and healing for the heart, mind, and spirit. Margaret Wheatley calls people to deeply consider the interior formation of leaders that create greater transparency, less command and control, and more willingness to be sincerely changed by others. James Autry unveils important truths about the process of insight involved in true servant-leadership, and Shann Ferch speaks to the nature of intimacy and the profound questions of forgiveness between people, cultures, and nations. Robert Greenleaf, former AT & T executive and the contemporary founder of servant-leadership said, Behind every great achievement is a dreamer of great dreams. *The Spirit of Servant-Leadership* affirms people in all the complexity and nuance of the human endeavor, and helps renew in readers the ability to dream great dreams. +

Sometimes a Great Notion Ken Kesey,2006-08-29 The magnificent second novel from the legendary author of *One Flew Over the Cuckoo's Nest* Following the astonishing success of his first novel, *One Flew Over the Cuckoo's Nest*, Ken Kesey wrote what Charles Bowden calls one of the few essential books written by an American in the last half century. This wild-spirited tale tells of a bitter strike that rages through a small lumber town along the Oregon coast. Bucking that strike out of sheer cussedness are the Stammers. Out of the Stamper family's rivalries and betrayals Ken Kesey has crafted a novel with the mythic impact of Greek tragedy. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Rocket Summer Chip Street,2012-11-11 ...a real page-turner ... riveting and profound - Binghamton Children's Books Examiner This might be the dumbest thing they've ever done. Lacey Patterson just made an exciting - and dangerous - discovery. She's found an old crate filled with surplus military rockets. Now, she could do the right thing, like telling her dad... Or she could do the fun thing, and talk her friends Kenny and Charlie into building a rocket-powered car on the outskirts of town. It's not like anybody pays any attention to what they're up to. Her dad is still mourning her mom's passing after three years, so he's splitting his time between working and sitting alone in a dark house. And Kenny's old man pretty much ignores him and his sister Darlene, unless they forget to feed the chickens... even then all they get is a whack and a bruise. That's why stealing parts from his shop seems like the best and worst part of the plan. Charlie's dad might be their biggest problem... not only is he all attentive and curious and whatnot, he's the Sheriff. So keeping him in the dark is job one. Of course, they've got no skills for building cars, and none of them even has a license. But with enough duct tape and baling wire, and a healthy dose of not-knowing-any-better, they're bent on making this a summer to remember... if they can just stay alive long enough to enjoy it. If you're looking for a YA coming-of-age story that's funny, thrilling, and heart-breaking, this is the one.

Narratives Unfolding Martha Langford,2017-07-18 Somewhere between global and local, the nation still lingers as a concept. National art histories continue to be written – some for the first time – while innovative methods and practices redraw the boundaries of these imagined communities. *Narratives Unfolding* considers the mobility of ideas, transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. *Narratives Unfolding* is both a survey of current art historical approaches and their connection to the source: art-making and art experience happening somewhere.

Crossing to Safety Wallace Stegner,2007-12-18 Introduction by Terry Tempest Williams Afterword by T. H. Watkins Called a “magnificently crafted story . . . brimming

with wisdom” by Howard Frank Mosher in The Washington Post Book World, Crossing to Safety has, since its publication in 1987, established itself as one of the greatest and most cherished American novels of the twentieth century. Tracing the lives, loves, and aspirations of two couples who move between Vermont and Wisconsin, it is a work of quiet majesty, deep compassion, and powerful insight into the alchemy of friendship and marriage.

Hollywood Highbrow Shyon Baumann,2018-06-05 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie art. Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In Hollywood Highbrow, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.
