The Universe in Your Hand Christophe Galfard,2016-04-19 If Ms. Frizzle were a physics student of Stephen Hawking, she might have written THE UNIVERSE IN YOUR HAND, a wild tour through the reaches of time and space, from the interior of a proton to the Big Bang to the rough suburbs of a black hole. It's friendly, excitable, erudite, and cosmic. —Jordan Ellenberg, New York Times besteselling author of How Not To Be Wrong Quantum physics, black holes, string theory, the Big Bang, dark matter, dark energy, parallel universes: even if we are interested in these fundamental concepts of our world, their language is the language of math. Which means that despite our best intentions of finally grasping, say, Einstein's Theory of General Relativity, most of us are quickly brought up short by a snarl of nasty equations or an incomprehensible graph. Christophe Galfard's mission in life is to spread modern scientific ideas to the general public in entertaining ways. Using his considerable skills as a brilliant theoretical physicist and successful young adult author, The Universe in Your Hand employs the immediacy of simple, direct language to show us, not explain to us, the theories that underpin everything we know about our universe. To understand what happens to a dying star, we are asked to picture ourselves floating in space in front of it. To get acquainted with the quantum world, we are shrunk to the size of an atom and then taken on a journey. Employing everyday similes and metaphors, addressing the reader directly, and writing stories rather than equations renders these astoundingly complex ideas in an immediate and visceral way. Utterly captivating and entirely unique, The Universe in Your Hand will find its place among other classics in the field.

VIDA DESPUES DE LA MUERTE DE LA MANO DE DIOS Rosalia Rushton,2022-01-14 Resumen A lo largo de mi vida a menudo me he preguntado, ¿que es lo mas importante?, ¿que es lo que mas importa en la vida y que es lo que la hace que valga la pena vivirla? La fe ha sido la respuesta para todas las preguntas que he tenido. A principios del otono de 1979, mientras caminaba por las calles de Santiago de Chile, me detuve frente a un joven vendedor ambulante y le compre un pequeno libro, El Diario de Mi Vida. En los anos siguientes regrese a menudo a ese diario, llenando las nuevas paginas y releiendo el pasado, siempre observando la primera linea: Lo que me ha motivado a escribir en este diario son las innumerables veces que he tenido la presencia de Dios en mi vida. Esta es la historia verdadera de mi vida.

The Common Sense of Teaching Foreign Languages Caleb Gattegno,2010-08-05 Gattegno wrote this book as a scientist interested in learning processes, as a student interested in the mastery of foreign languages, and as a teacher interested in providing his students with ideal learning conditions. These perspectives combined with years of research, travel, and fieldwork create a full insight into the problem of learning a foreign language. He argues that learning a language should not be about recitation and memorization, but about the natural learning processes we have used since birth. In fact, he writes, We can no more say that we remember our language than that we remember how to stand up or walk.
