El informe se centra en la producción, el tráfico y el consumo de los principales tipos de drogas ilícitas, así como en las consecuencias para la salud de ese consumo. El capítulo 1 del Informe Mundial sobre las Drogas 2015 ofrece una visión general de la situación de la oferta y la demanda de opiáceos, cocaína, cannabis, estimulantes de tipo anfetamínico y nuevas sustancias psicoactivas (NSP), así como de sus efectos para la salud; también se analizan los datos científicos relacionados con las estrategias de prevención del consumo de drogas y se examinan los principios generales de una respuesta eficaz al tratamiento del consumo de drogas. El capítulo 2 se centra en el modo en que el desarrollo alternativo, en el contexto más amplio de la agenda para el desarrollo, tiene por objeto romper el círculo vicioso del cultivo ilícito, proporcionando a los agricultores medios de vida alternativos.

**Perspectives** Sajitha Bashir, Marlaine Lockheed, Elizabeth Ninan, Jee-Peng Tan, 2019-08-28 Cet ouvrage présente une série d'orientations politiques, ainsi que leurs déclinaisons opérationnelles, permettant aux pays d'Afrique subsaharienne de relever le défi de l'amélioration de l'apprentissage tout en élargissant l'accès et en assurant l'achèvement d'une éducation de base pour tous. L'étude souligne l'importance de configurer le système éducatif de manière à ce qu'il soit constamment axé sur les résultats et à ce que tous les enfants aient accès à de bonnes écoles, du matériel d'apprentissage de qualité et d'excellents enseignants. L'approche de cet ouvrage est unique car elle caractérise les pays en fonction des défis auxquels ils ont été confrontés dans les années 1990 et selon les progrès accomplis en matière d'éducation au cours des 25 dernières années, ce qui permet ainsi aux pays de la région d'apprendre les uns des autres. Les auteurs présentent une revue de littérature et y ajoutent de nouvelles analyses tirées de multiples données provenant d'une trentaine de pays de la région. Ils intègrent également des résultats de recherche sur ce qui influence l'apprentissage des enfants, leur accès à la scolarisation et les progrès accomplis grâce à l'éducation de base. Le livre tire des leçons sur la région pour la région à partir de ce qui fonctionne et de ce qui serait nécessaire d'améliorer. Le livre explore quatre pistes pour aider les pays à ajuster leurs systèmes éducatifs afin d'améliorer l'apprentissage : poursuivre les efforts inachevés visant à assurer une éducation de base universelle et de qualité, assurer une supervision et un soutien efficaces des enseignants, concentrer les priorités de dépenses et les procédures budgétaires sur l'amélioration de la qualité, et combler le déficit de capacités du système institutionnel. L'ouvrage se termine par une évaluation de la manière dont les prévisions de taux de fécondité et de croissance économique peuvent impacter les progrès futurs en matière d'éducation.

**Learn French News Vol.4** Nik Marcel, LEARN FRENCH NEWS Vol.4: English & French THIS EDITION: The dual-language text has been arranged into sentences and shorter paragraphs for quick and easy cross-referencing. The source text is the French language edition of Voice of America (VOA). The French text has been translated into English for this dual-language project. The reader can choose between four formats: Section 1: English to French Section 2: French to English Section 3: English Section 4: French A methodology for getting the most out of this bilingual format is explained in the book's Foreword. The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language: to be able to read only in the foreign language, and extract enough understanding to continue the language learning process fruitfully this way. A reader might like to go back to reading dual-language news for reinforcement and further development, returning to foreign language only news with a deeper understanding. By going

back to the same ‘old’ news, you are going over words, word patterns, and passages with which you already have a certain familiarity. The process of reinforcement, learning or retaining of what is new, and exposure to what is unfamiliar, is much easier this way — even though the news may seem a little dated. The aim of informing the reader about actual news is secondary, especially given that the content will become less current (and less relevant) over time. If you are having trouble with the level of difficulty in the text, a suggested path for learning languages is as follows: Familiarise yourself with a basic language instruction book — or re-read the one you have. Once a student has studied the basics, a suitable book about basic grammar can be helpful. The suggestion is that any grammar book be studied more with the intent of recognition and understanding, rather than memorising and obsessive rote learning. Go through as much of the grammar book you feel you can digest — maybe even the whole book — skipping over what is not easily understood. After this, read through a portion of text in a book called ‘French Sentences’, by 2LanguageBooks, looking for examples of what you have picked up (or gleaned) in your hopefully not so arduous study of grammar. Even repeatedly seeing a word that you remember seeing listed as a ‘subject pronoun’ or a ‘third person plural’ verb of some sort is a great help. Then, depending on your inclination, return to the grammar book (or your basic French book), or move on to lengthier bilingual text — like in 2Language Books texts containing news or stories, for example —, or find some suitable French text: a simple novel, a French news website, etc. Grammar books will likely have some verb charts. However, there are currently good on-line resources that go further — dictionaries with a verb conjugation ‘search’ option. Many basic language books offer some form of audio support. Internet services — primarily news based radio stations — offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources, an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started. Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on ‘premium’ content and resources. **Book from the Ground** Bing Xu,2018-11-06 A book without words, recounting a day in the life of an office worker, told completely in the symbols, icons, and logos of modern life. Twenty years ago I made Book from the Sky, a book of illegible Chinese characters that no one could read. Now I have created Book from the Ground, a book that anyone can read. —Xu Bing Following his classic work Book from the Sky, the Chinese artist Xu Bing presents a new graphic novel—one composed entirely of symbols and icons that are universally understood. Xu Bing spent seven years gathering materials, experimenting, revising, and arranging thousands of pictograms to construct the narrative of Book from the Ground. The result is a readable story without words, an account of twenty-four hours in the life of “Mr. Black,” a typical urban white-collar worker. Our protagonist's day begins with wake-up calls from a nearby bird and his bedside alarm clock; it continues through tooth-brushing, coffee-making, TV-watching, and cat-feeding. He commutes to his job on the subway, works in his office, ponders various fast-food options for lunch, waits in line for the bathroom, daydreams, sends flowers, socializes after work, goes home, kills a mosquito, goes to bed, sleeps, and gets up the next morning to do it all over again. His day is recounted with meticulous and intimate detail, and reads like a postmodern, post-textual riff on James Joyce's account of Bloom's peregrinations in Ulysses. But Xu Bing's narrative, using an exclusively visual language, could be published anywhere, without translation or explication; anyone with experience in contemporary life—anyone who has internalized the icons and logos of modernity, from smiley faces to transit maps to menus—can understand it.

Meeting,2011 The Working Group used dynamic production models for all stocks. An index of environmental quality has been introduced in the production models since 2005. For most of the stocks, the time series from the acoustic surveys with the R/V DR. FRIDTJOF NANSEN and national research vessels are used as the index of abundance in the assessments and future assessments would therefore depend on the continuation of the time series by the local research vessels. The Norwegian research vessel, DR. FRIDTJOF NANSEN surveyed the subregion from 1995 to 2006, carrying out acoustic surveys during the months October-December each year. In addition, from 2001 to 2003, the vessel carried out acoustic surveys covering the same area from May to July. From 2004 to 2006, intercalibrations and parallel surveys were carried out between R/V DR.

La pizarra de Juan Ramón Rallo Juan Ramón Rallo,2016-02-23 En estas páginas, el economista Juan Ramón Rallo desmonta con datos, gráficos y sólidos argumentos 40 mitos muy extendidos sobre la economía española, agrupados en cinco grandes bloques temáticos: la crisis económica, los impuestos, el estado de bienestar, el desempleo y la desigualdad. Rallo nos abre los ojos ante medias verdades o distorsiones tan comunes como que «la crisis fue culpa del libre mercado», «el rescate estatal de la banca era imprescindible», «los recortes agravaron la crisis», «la recuperación es gracias a las medidas adoptadas por el gobierno del PP», «las políticas de austeridad están desmantelando el estado de bienestar», «la reforma laboral ha beneficiado a las grandes empresas», «los ricos son cada vez más ricos y los pobres cada vez más pobres» o «España es uno de los países más desiguales de Europa». Una obra, en definitiva, imprescindible para entender cómo funciona y cuál es el verdadero estado de nuestra economía, más allá de las imprecisiones, los errores y las mentiras interesadas que se divultan desde todos los frentes.
