New Ways to Engage Parents Patricia Edwards, 2016 Just as populations change, ideas about how to encourage and work with parents also need to evolve. This practical resource by bestselling author Patricia Edwards provides school leaders and classroom teachers with new and creative ways in which to welcome, encourage, and involve parents. Enacting these types of practices requires a special kind of commitment from teachers and school leaders, which often coincides with a particular kind of mindset about families and one's responsibility to engage them. Educators often develop this mindset as they deepen their understanding of families, literacy/language, culture/race/class, and themselves. Edwards pulls these understandings together and presents them in a straightforward, concise, and easy-to-use guide that is perfect for professional learning communities and teacher preparation courses. *New Ways to Engage Parents* is essential reading for all educators who care deeply about engaging a wide range of parents in today's schools. "It is my hope that this book inspires teachers to seek ways to make schools more equitable and caring spaces for all children." —From the Foreword by Catherine Compton-Lilly, University of Wisconsin-Madison "Long a leader in the field, Professor Patricia Edwards reinforces the fact that education is a shared responsibility of home, school, and community. She presents scores of practical ideas and resources to enable educators to involve all parents in their children's education." —Joyce L. Epstein, Johns Hopkins University "Finally, a book that brings partnering with parents into the 21st century! This is a book teachers will want to keep at their fingertips." —Jeanne R. Paratore, Boston University

The Calling Julia Mossbridge, 2019-04-01 The Calling offers a groundbreaking twelve-week program to help you discover more fulfilling work, more authentic relationships, and a deeper sense of connection. It's no secret that many working professionals are dissatisfied with their occupations—it's been estimated that more than 75 percent of employees in the US are disengaged or otherwise unhappy in their jobs. This dissatisfaction is often seen as a structural problem—one that can be solved by shuffling people in and out of positions until they find the right fit. Cognitive neuroscientist, researcher, and spiritual seeker Julia Mossbridge has a different take. According to Mossbridge, this lack of engagement and satisfaction in the workforce is a spiritual problem: we find ourselves in stressful or unfulfilling jobs because we don't know ourselves well enough to choose wisely, in alignment with our most heartfelt desires. It's this problem—one of self-knowledge, values, and spiritual attunement—that this book seeks to solve. The Calling offers a twelve-week program for discovering your "soul's work." An intriguing combination of hard-nosed science and wide-open spirituality, this one-of-a-kind guide will show you how to use the scientific method of observation and experimentation on yourself, in order to determine the nature and scope of your true calling, and then put it into action. You'll also create your own "lab notebook" of personalized information to help you discover, energize, and engage your soul's work. With the insights and strategies in this practical yet spiritual step-by-step book, you'll not only find more satisfying work; you'll also discover greater fulfillment in all areas of your life, including more authentic relationships and a deeper sense of connection with the universe.

How Journalists Engage Sue Robinson, 2023 A unique theory of trust building in engagement journalism that proposes journalists move to an ethic of care as they prioritize listening and learning within communities instead of propping up problematic institutions. In *How Journalists Engage*, Sue Robinson explores how journalists of different identities, especially racial, enact trusting relationships with their audiences. Drawing from case studies, community-work, interviews, and focus groups, she documents a growing built environment around trust building and engagement journalism that represents the first major paradigm shift of the press's core values in more than a century. As Robinson shows, journalists are being trained to take on new roles and skillsets around listening and learning, in addition to normative routines related to being a watchdog and storyteller. She

demonstrates how this movement mobilizes the nurturing of personal, organizational, and institutional relationships that people have with information, sources, news brands, journalists, and each other. Developing a new theory of trust building, Robinson calls for journalists to grapple actively with their own identities--especially the privileges, biases, and marginalization attached to them--and those of their communities, resulting in a more intentional and effective moral voice focused on justice and equity through the news practice of an ethic of care.

Re-engage! Helena Cobban, 2015-12-03 A veteran international journalist gives us a concise, readable guide that provides a new vision for the United States in the global community. Since 9/11, the United States has pursued a foreign policy some have called a control paradigm—a unilateral domination of world affairs through military means that tries to keep the lid on insecurity without addressing root causes or protecting human rights. The Bush administration's energetic use of this

approach has ripped the fabric of America's relationship with the rest of the world. In this concise guide, veteran journalist Helena Cobban proposes moving the United States away from the control paradigm to a policy of global inclusion. Global inclusion seeks to repair the U.S. relationship with other countries, recommit the United States to effective participation in the United Nations and other multilateral institutions, and ground U.S. foreign policy firmly in the principle of human equality. It also involves moving away from the language of threats and fear to a language of challenge and possibility. This book outlines how a global inclusion policy would address key challenges faced not only by Americans but by the 95 percent of humanity who are not Americans: - Challenges of terrorism and weapons proliferation. - Growing global inequality. - Rights abuses worldwide. - Climate change. - Shifting international power balances. Cobban reminds readers we do not need to do any of these things alone. Since 9/11, she has traveled to 18 foreign countries on four continents. She has heard how deep the desire is among people in China, sub-Saharan Africa, the Muslim world, Europe, and elsewhere for the United States to rejoin the world community on a sound and cooperative basis. In heartfelt, accessible prose with highly readable tables, graphics, websites, and other resources, she shows how we can re-engage as neighbors, as a country, and as a trusted international partner.
