Engage and Evade Asad L. Asad, 2023-06-13 Because immigration is such a recurring-and divisive-topic in the United States, it is easy to assume that we understand what it means for an immigrant to live under the specter of surveillance and punishment. It is easy to assume, as many scholars and journalists do, that undocumented immigrants live on the run from the authorities, constantly fleeing to the margins of daily life, staying in the shadows beneath the eyes of the law. And yet, while it is certainly true that immigrants are constantly faced with mechanisms of surveillance that function as tools of societal exclusion, this only tells part of the story. As Asad L. Asad shows, many people with a sanctionable status cannot-and, in some cases, do not want to-evade surveilling institutions or the formal records they generate: evading the institutions that keep formal records is a luxury that most immigrants (especially those with children) cannot afford. In *Engage and Evade*, Asad uses a wealth of interviews and ethnographic observations collected in Dallas County, Texas, bolstered and contextualized by original analyses of national survey data, to explore whether, how, and why immigrants engage with surveilling institutions. Presenting the stories of immigrants living in mixed-status families in which at least two members of the household have different legal statuses, and focusing especially on the experiences of immigrant parents, Asad argues that engagement with such institutions stems as much from hope for societal inclusion as it does from fear of exclusion. By paying attention to the ways in which immigrants make sense of, pursue, and use the records that result from these engagements, Asad reveals a variety of ways these individuals reinforce or resist their sanctionable status through the state's own surveillance--

Pitch, Tweet, or Engage on the Street Kara Alaimo, 2016-08-25 Pitch, Tweet, or Engage on the Street offers a modern guide for how to practice public relations and strategic communication around the globe. Drawing upon interviews with public relations professionals in over 30 countries as well as the author's own experience as a global public relations practitioner in the United Nations and in U.S. President Barack Obama's administration, this book explains how to adapt public relations strategies, messages, and tactics for countries and cultures around the globe. The book begins by explaining key cultural differences which require practitioners to adapt their approaches, before discussing how to build and manage a global public relations team and how to practice global public relations on behalf of corporations, non-profit organizations, and governments. Then, the book takes readers on a tour of the world, explaining how to adapt their campaigns for Asia-Pacific, Europe, the Middle East, the Americas, and Sub-Saharan Africa. Along the way, readers are introduced to practitioners around the globe and case studies of particularly successful campaigns - from a public relations siege that successfully ended an epidemic of violence in Kenya to the remarkable P.R. strategy adopted by Bordeaux wineries in China that led to a staggering 26,900 percent increase in sales.
