Principled Engagement Morten B. Pedersen,David Kinley,2016-04-08 What is the best way to promote human rights in grossly repressive states when neither sanctions nor trade and investment have much effect? This book examines the concept of Principled Engagement as an often overlooked alternative strategy for alleviating human rights violations and improving the framework of human rights protection. Beginning with an explanation of the concept and a comparison with the alternatives of Ostracism and Business as Usual, the book argues that Principled Engagement deserves greater attention and explains how it works and what factors contribute to its success or failure. Case studies provide a rare scholarly inquiry into the effectiveness of the basic underlying ideas and analyse and assess specific cases, including from China, Burma, Zimbabwe and Liberia. Written by leading academics and practitioners, the book takes a general, comparative approach to human rights policy that teases out broad lessons about what works. Ultimately, this is a study that challenges scholars and practitioners alike to take a fresh look at how human rights are promoted internationally.

Bridging Engagement Gaps Vincent Miholic Ph.D.,2016-08-18 Bridging Engagement Gaps amasses an eclectic blend of business research and analysis, philosophy and the arts, as well as practical examples and illustrations to better understand the obstacles we confront and the foundational constructs related to realizing optimal worker engagement. Whether you are an intern, thirty-year employee, manager, or business owner, you play a critical role in determining personal and organizational success. Leadership in the workplace begins with basic decency and integrity and has little to do with job titles. Therefore, there must be widespread participation in critical decision-making if your intent is to engage everyone. This resource guide delivers tools and strategies to drive exploratory and evaluative conversations about driving more engagement in the workplace. Learn how to: define what engagement means and why its important; celebrate the success of others to drive engagement; landscape a culture in which employees flourish; and champion multiple points of view. Fully-engaged employees bring passion, purpose, and discretionary energy to their work, but they must feel secure in taking risks and know that their suggestions count. Give them the tools they need to succeed while helping disengaged employees rediscover their passion by Bridging Engagement Gaps.

Engaging Children and Young People in Planning Teresa Strachan,2024-03-25 Engaging Children and Young People in Planning places planners' skills for engagement with children and young people centre stage by discussing several projects delivered or supported by planning students to young people in the Northeast of England. Urban or town and country planning is a largely unfamiliar concept to children and young people. Moreover, in England, the environment in which young people live, play and go to school is shaped by a local planning process which lacks their input. This book explores the nature of the gap between that planning process and the voice of the younger members of the community, as well as the barriers that impede this engagement. It highlights why an engagement process is beneficial for those young people, for the wider community and for the planning process itself. At a time when our relationship with and impact on, the environment is being re-examined, this book challenges the planning professional to identify, develop and reflect upon the engagement skills that will help to transform planning into a more inclusive practice. It will be of use to scholars and practitioners in urban planning, community planning, engagement and children's rights, whilst supporting their academic and professional development pathways.

Transforming Pedagogies Through Engagement with Learners, Teachers and Communities Dat Bao,Thanh Pham,2021-06-12 This book identifies three types of influential forces that pose challenges to innovations: socio-cultural dynamics, teacher individuality, and local circumstances. It uses languages, cultural traits, and intellectual heritages in the Asia-Pacific region as an example to show the resistance to Western-based pedagogies due to disparities between the innovations and these local heritages. It reveals personal and professional values that teachers hold and how these values, while seemingly supporting creative ideologies, happen to prevent them from incorporating innovations in their practices. The book discusses how informal educational activities and services that a society possesses could impede pedagogical innovations. There is, therefore, a need for institutions and educators to develop a positive relationship between these phenomena and teaching innovations.

Australia's Engagement with Economic and Social Rights Russell Solomon,2021-04-01 This book is a contemporary socio-legal study of Australia's protection of economic and social rights. Despite Australia's hortatory language of compliance with international rights standards, its translation of these standards into domestic law and policy has been found wanting. In considering Australia's compliance across the policy areas of health, housing, labour and social security, it is argued that Australia's failings can be understood in terms of its institutional framework. This framework provides incomplete legal protection for rights and leaves that protection almost exclusively in the realm of politics and policymaking, an arena still dominated by neoliberalism and a political culture averse to the protection and promotion of economic and social rights.

Lethal Engagement Joseph A. Klein,2010-09 Full constitutional rights for foreign Islamic terrorist detainees. Apologies to the Muslim world for American 'misdeeds, ' and promises to make amends even if the security of the American people is placed in peril. Welcoming radical Muslim sympathizers into high positions of authority. Abridging freedom of expression. And much, much more. Lethal Engagement documents how in these and other ways President Barack Hussein Obama has forsaken the oath of office he took to 'preserve, protect, and defend the Constitution of the United States.' Lethal Engagement exposes how radical Muslims are re-branding their barbaric ideology to fool their gullible audience in the West and how they play the racism victim card, all with President Obama's help. Lethal Engagement systematically lays out the dangerous entanglement of Obama with the United Nations, which radical Muslims are manipulating to promulgate international law to their liking, and how his nomination of more activist judges willing to throw away the Constitution allows radical Muslims to subvert American law. Lethal Engagement also reveals the radical Muslim plan to destroy the value of the dollar and use the United Nations to replace it with a new global reserve currency, all helped along by the Obama administration's disastrous economic policies. After connecting all these dots, Joseph Klein explains the steps 'we the people' must take to rescue our country

Setting a New Agenda for Student Engagement and Retention in Historically Black Colleges and Universities Prince, Charles B. W.,Ford, Rochelle L.,2016-06-27 As more Americans are attending college, historically black colleges and universities (HBCUs) are now in a position where they must directly compete with other institutions. While other colleges and universities might have more resources and stronger infrastructures, HBCUs provide better opportunities to meet the needs of students of color. Setting a New Agenda for Student Engagement and Retention in Historically Black Colleges and Universities explores the innovations that HBCUs can enact to better serve and prepare the next generation of African American leaders, and to be more competitive in the higher education landscape. As students need different forms of support throughout their academic career, it becomes necessary to engage them through mentorship, programming, and classroom management. This book is a valuable resource for educators and administration at HBCUs, sociologists, policy makers, and students studying education science and administration.

Medical Leadership Jill Aylott,Jeff Perring,Ann Chapman,Ahmed Nassef,2018-10-17 Today's health care systems need doctors and consultants to act as leaders, within the multi-disciplinary team, in addition to carrying out their clinical role. Chapter summaries and reflections are provided to support learning. Teaching Civic Engagement Forrest Clingerman, Reid B. Locklin, 2016-01-04 Using a new model focused on four core capacities-intellectual complexity, social location, empathetic accountability, and motivated action-Teaching Civic Engagement explores the significance of religious studies in fostering a vibrant, just, and democratic civic order. In the first section of the book, contributors detail this theoretical model and offer an initial application to the sources and methods that already define much teaching in the disciplines of religious studies and theology. A second section offers chapters focused on specific strategies for teaching civic engagement in religion classrooms, including traditional textual studies, reflective writing, community-based learning, field trips, media analysis, ethnographic methods, direct community engagement and a reflective practice of ascetic withdrawal. The final section of the volume explores theoretical issues, including the delimitation of the civic as a category, connections between local and global in the civic project, the question of political advocacy in the classroom, and the role of normative commitments. Collectively these chapters illustrate the real possibility of connecting the scholarly study of religion with the societies in which we, our students, and our institutions exist. The contributing authors model new ways of engaging questions of civic belonging and social activism in the religion classroom, belying the stereotype of the ivory tower intellectual.

It details the specific ways that campuses must align all aspects of the institution if they are to be successful in the increasingly important work of community outreach and engagement.—George L. Mehaffy, vice president for academic leadership and change, American Association of State Colleges and Universities Most colleges and universities make the rhetorical claim of community engagement; this book is an excellent primer on how to transform the rhetoric into reality. The authors do not speak in abstract terms.
