Armenian-English, English-Armenian Diana Aroutunian, Susanna Aroutunian, 1993 With over 9,000 total entries, this concise, easy-to-use dictionary features eastern Armenian dialect, phonetic pronunciation for each language, and is ideal for the student and traveler. --

Western Armenian Dictionary & Phrasebook Nicholas Awde, Vazken-Khatchig Davidian, 2006 Western Armenian is the language spoken by most of the seven million Diaspora Armenians who live outside their historic homeland. Its speakers form the majority of Armenians in the United States and the Middle East. Armenian is written in its own unique script, but it is presented here in a Romanized, easy-to-use form for instant communication. In addition to a pronunciation guide, included are a resourceful two-way dictionary containing more than 4,000 entries, an informative grammar section, and a collection of travel-oriented phrases. Observations related to Armenian culture are interspersed throughout the phrasebook. There is also a brief history of the Armenian people and Diaspora.

Armenian Dictionary in Transliteration Thomas J. Samuelian, 1993-09 Although the dictionary's primary audience is the speaker unfamiliar with Armenian script, it also aims to serve a second audience, to which nearly all Western Armenian speakers belong, even the quite literate; namely, those who know how a word is pronounced, but are unsure how it is spelled. It is, in this way, a dictionary in transliteration and a speller's dictionary in one.

Eastern Armenian Nicholas Awde, Peter Maghdashyan, 2003 This 3,000-word bilingual dictionary offers essential vocabulary, while the 32-chapter phrase book helps travelers deal with topics such as shopping, travel, and healthcare. This book also includes a concise grammar and pronunciation section.

Armenian Vocabulary Book Pinhok Languages, 2022-11-17 Armenian vocabulary book + Armenian dictionary This Armenian vocabulary book contains more than 3000 words and phrases which are grouped by topic to make it easier for you to pick what to learn first. On top of that, the index in the second half of the book provides you with a basic Armenian-English as well as English-Armenian dictionary which makes this a great resource for learners of all levels. What you can expect from this book: This Armenian learning resource is a combination of Armenian vocabulary book and a two-way basic Armenian dictionary: Part 1 - Topic based Armenian vocabulary book: This is the main part of the book and represents a list of chapters each containing Armenian vocabularies for a certain topic. The Armenian vocabularies in the chapters are unsorted on purpose to separate remembering them from a defined alphabetical order. You can start at any chapter and dive directly into the topics that interest you the most. Part 2 - Basic English-Armenian dictionary: The index in the second half of the book can be used as a basic Armenian dictionary to look up words you have learned but can't remember or learn new words you need. Part 3 - Basic Armenian-English dictionary: Easy to use and with just the right amount of words, this third part finishes off with a second index that allows you to look for Armenian words and directly find the English translation How to use this Armenian vocabulary book: Not sure where to start? We suggest you first work your way through the verbs, adjectives and phrases chapters in part one of the book. This will give you a great base for further studying and already enough vocabulary for basic communication. The Armenian dictionaries in part two and three

can be used whenever needed to look up words you hear on the street, English words you want to know the Armenian translation for or simply to learn some new words. Some final thoughts: Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work very well. Together with the basic Armenian dictionary parts, this vocabulary book is a great resource to support you throughout the process of learning Armenian and comes in particularly handy at times when there is no internet to look up words and phrases.

Etymological Dictionary of Armenian Hrach K. Martirosyan,2010 As an Indo-European language, Armenian has been the subject of etymological research for over a hundred years. There are many valuable systematic handbooks, studies and surveys on comparative Armenian linguistics. Almost all of these works, with a few exceptions, mostly concentrate on Classical Armenian and touch the dialects only sporadically. Non-literary data taken from Armenian dialects have largely remained outside of the scope of Indo-European etymological considerations. This book provides an up-to-date description of the Indo-European lexical stock of Armenian with systematic inclusion of dialectal data. It incorporates the lexical, phonetic, and morphological material in the Armenian dialects into the etymological treatment of the Indo-European lexicon. In this respect it is completely new.
