Included Your English is terrible! That's what a customer said to me in front of my boss. I felt so embarrassed and ashamed. I almost quit my job. For years I have been struggling to speak English fluently. I watch YouTube videos and English movies all the time, I study grammar and vocabulary, but I still can't express myself. I can't build-up sentences correctly. I'm so frustrated. Can you help me? This is what a student told me in our first class together. He was very frustrated about his English fluency. I felt bad for him, and I made it my mission to develop an English training program to help people learn English faster and to speak it better. Learning English and Speaking English ARE NOT the same. They occur in different parts of the brain. My student was developing his memory but not his speaking ability. I started teaching this system to my students and their speaking skills dramatically improved. Their sentences sounded more natural, their pronunciation was clearer, and their confidence was much higher. If you want to speak English fluently, then STOP learning it, and START speaking it.
